Our August Homefurnishing Sale Breaks Records!

This Great Event Is Firmly Established in Public Favor

OUR months of preparation for this August Sale have borne fruit the last two days! Portland has shown its appreciation of our far-reaching efforts by a response unprecedented in the history of the home furnishing sections.

Our furniture buyer spent over a month in Grand Rapids and Chicago. Our Carpet and Rug chief visited the great eastern mill centers in May and June. The Lace Curtain Drapery head left Portland a month earlier than usual, that he might arrive in the markets before buyers from over the country.

These were only part of our plans for the August Sale. Carload after carload of new, dependable home furnishings—specially bought, under bought—here tomorrow at savings of 20 per cent to a full half. Ask any Homefurnishing Salesman about our Club Plan of Payments on Furniture, Carpets, Draperies, Stoves, Sewing Machines, Phonographs.

See Lundhal's Painting

"The Crucifixion"

THE most famous of the many great paintings of "The Crucifixion" is now on complimentary exhibition here in our fifth floor section.

The 9x14 foot canvas is not only the best and largest, but the most precious of the artist's works. It is valued at \$100,000. Franz A. Lundhal, the artist, was born in Stockholm, Sweden, in 1849.

Concerning the painting, the Rev. Charles W. Horswell, of the Northwestern University of Oregon, one of the ablest of the students and art critics said: "I have seen paintings of the Crucifixion by Titian, Murillo, Michael Angelo, Van Dyck and Raphael, and I am compelled to say, after an hour's visit to the Crucifixion by Lundhal, that it is the most real and plausible conception of the death of Christ."

Visit the exhibition of "The Crucifixion" now on Fifth Floor.

Lunch Tomorrow in Our Tea Room

Everything for your pleasure and convenience. Orchestra music and singing are special attractions. Varied a la Carte menu. Popular prices prevail, though high enough to mean best quality.
