feat "Bottled Up" in Hampton Roads, Attack Upon Greatest City Tomorrow.

maneuvers of the eastern militia, and for which the federal government has appropriated nearly \$1,000,000, is ready to begin on schedule time tonforrow. Not only has war between the United States and some powerful foreign nation been theoretically declared, but the enemy is supposed to have defeated the Atlantic fleet of the United States, "bottled up" the surviving warships in Hampton Roads and effected a successful landing of 100,000 invaders near New Bedford, Mass., with the intention of invading and occupying New York.

In accordance with the theoretical history of the imaginary events pre-ceding the actual beginning of the war game the invading army drove back the American army and forced it to concentrate near Boston. In an en-

gagement supposed to have taken/place on August 5, the American troops were defeated and compelled to retire via LLAN Worcester, toward Albany, its new hase, vigorously pursued by the enemy. In the meantime the enemy pushed one of its divisions westward to ob tain control of all important junction points along the New York, New Haven & Hartford railroad in Connecticut and to cut off the water supply of New-York city. Today, on the day before the beginning of the war game, the Warden R. F. enemy is supposed to have begun the landing of a second expedition of 100,-000 men at New Bedford. The first to the state game warden at the Bonneville fish hatchery. These fry have been distributed by the game warden in hostile expedition passed through Worcester in pursuit of the main body of the American troops retiring on Spring-The American troops near New York city are supposed to be rushed toward Danbury and Bridgeport, while a detachment of the hostile army took possession of Waterbury. The enemy is suppossed to be hampered in its advance toward New York by the scarcity hays been under construction are reof rolling stock, concentrated in Bos-ton and New York city and by some secondary American naval craft on the ported to be nearing completion. ton reports the liberation of all chiludson, ready to interfere with transportation over the shore line of the N.

The latest scheme to save a liquor li cense is that adopted by E. J. Hanbury late proprietor of the disgustingly notorious Yeon building rathskeller. Hanbury's grill was closed during the Elks' reunion week

Three weeks ago it developed that the license was owned by Emil Glutsch, an agent of the Weinhard's brewery.

At vesterday's meeting of the liquor license committee Manbury appeared in the committee room, wearing a pleased gmile. He had two days previously gone into bankruptcy. If the license he owned is revoked now he will not be hurt, but a let of creditors to whom he is said to be indebted \$6000, with visible assets of only \$400, will be decidedly injured.

Councilmon Daly believes that the IIcouncilman will make an effort to have the council kill the license regardless of who may suffer.

A majority of the committee signed a report recommending the transfer of the Glutsch license, but the report may be turned down by the council.

An effort of Robert Gardner to trans-fer his half of the restaurant liquor liconse of the l'ittsburg grill on Sixth street near Stark, was defeated when an order from the federal court enjoining the council not to permit the transfor was served on the committee. The order was heeded, though Attorney Seneca Fouts waxed wroth that the committee should do so. He said the court had no right to issue such an order, as Gardner's share of the license, he said, had been in reality transferred to Gard-ner's father before the court order was The Pittsburg grill has gone gsued. into bankruptcy.

HOW TO DESTROY INVEST THE DANDRUFF GERM INVEST

BY A SPECIALIST.

That the dandruff serm is responsible for nearly all the diseases to which the scalp is heir, as well as for baldness and premature gray hair, is a well known fact, buy when we realize that it is also indirectly responsible for many of the worst cases of catarth and consumption, we appreciate the importance of any agent that will destroy its power. We are, therefore, particularly pleased to give herewith the prescription which an eminent scientist states he has found, after repeated tests, to completely destroy the dandruff germ in from one to three applications. It will also almost immediately stop falling hair and it has immediately stop falling hair and it has in numerous cases produced a new hair-growth after years of baldness. This prescription can be made up at home, or any druggist will put it up for you: 6 ounces Bay Ruin. 2 ounces Lavona de Composee, one-haif drachm Menthol Crystals. Mix thoroughly, and after standing half an hour it is ready for use. Apply night and morning, rubbing into the scalp with the finger tips. If you wish it perfumed, add half a teaspoonful of Ta Kalon Perfume, which unites the wish it perfumed, add half a tenspoonful of To Kalon Forfume, which unites per-fectly with the other ingredients. While this preparation is not a dye, it is un-equalled for restoring gray hair to its original color. Caution: Do not apply where hair is not desired and be sure to avoid tonics commaning poisonous wood alcohol.
