DET CLEANERS

Getting the Dust Out

One of the hardest problems the dry cleaning industry has ever had to solve was getting the dust out of garments that had been dry cleaned. Gasoline removes all grease, germs and a good part of the dust, but heavy garments retain a certain per cent of the dust that can only be removed by beating and brushing. We have installed a dry room tumbler. This machine takes out every particle of dust, lint and odor, raises the map and makes the goods look fresh and full of life. The quality of the work is 50 per cent better than it was before. Our plant is open for inspection any PORTLAND SHOW CARD SCHOOL, 511

The Chinese Doctor If a patient comes to me with a long-standing trouble that has failed to yield to the medicines of other doctors and I think that his case is hopeless—I tell him so. Unlike many other doctors, I do not urge an operation as a last resort. I perform no operations, but effect my cures with the aid of Chinese root and herb medicines, which act quickly and painlessly. These I have used for many years with marked success, and my forefathers, who were eminent physitars in their time amplicated the same cians in their time, employed the same means for curing the sick. I have given this remedy a severe test, having met in my experience some extremely bad cases, and I can say without fear of contradiction that it is the greatest discovery of the ago and the nearest absolute and permanent cure for Blood Poison, regardless of the stage of the disease or the symptoms present. Every sympton of the disease, from the smallest eruption to the worst kind of running sore, are checked in their progress at once and completely healed within 10 days. There is no longer any doubt about the wonderful curative power of this remedy, and when given by an expert there is absolutely no danger of any kind from its use. I introduce it DIRECTLY INTO THE BLOOD by the INTRAVENOUS METHOD, the only proper method of administering it, and the one recommended by Prof. Ehrlich himself.
