

Well, You Can't Blame a Man Who's Trying - - - By "Bud" Fisher

Brief Items of Tuesday's Late News

Political. Charles D. Hiles, chairman of the Republican national committee, announces that a complete record of all contributions to the campaign fund of the Republican party would be made public shortly after October 15. This is in accordance with the campaign fund publicity act, providing that all national committees must make public their campaign contributions not more than 15 days and not less than 10 days prior to the election. The Democratic committee will begin publishing its campaign contributions on September 10. Beverly W. Colner has been given a recess appointment as United States district attorney for the western district of Washington. Candidates pledged to the support of Taft received a unanimous vote in North Island precinct at San Diego, Cal. Robert Waters, a retired sea captain, is the only resident of North Island. He acted as election judge, clerk and voter combined.

Eastern. Wells Lounsberry, the Medford fruit-grower who robbed a Union Pacific mail car near Topeka, Kan., was taken before the United States commissioner Tuesday and held under \$25,000 bond to await the action of the federal grand jury at Leavenworth. Lounsberry was unable to furnish the bond, and must stay in jail until October 14. One of the largest grain elevators of the National Maltting company at Chicago was destroyed by fire Tuesday. Loss, \$250,000. Fifty workmen escaped without injury.

The pastor and trustees of the Little Lutheran church at Milbury, Mass., are rejoicing over the receipt of a check for \$200 from President Taft. A letter accompanying the gift sets forth that it is given because of the interest his mother took in the church during her life. Mrs. Della Torrey, aunt of the president, is a member of the church. Bonuses aggregating \$70,000 were distributed to 3100 employees in the mills of the Alexander Smith & Sons Company at Yorkers, N. Y., Tuesday. This was the fourth time the firm has thus remunerated its old employees. Last March \$65,000 was paid to 2500 employees; in August, 1911, \$40,000, and in 1910, \$100,000 was distributed to the 20-year men and women.

The task of clearing away wreckage caused by the storm of Sunday night and Monday is progressing at hundreds of points throughout western and northern Pennsylvania, West Virginia and a portion of Ohio. The list of fatalities now reaches 40. The loss is placed at \$2,000,000. The principal sufferers are farmers and railroads. Sallenville, Ohio, was almost wiped out by the flood. Two men were shot in a parochial election fight at New Orleans Tuesday. Adolph Boneo, a "reformer," will die, Harry Pettigill, a foreman of the water board, a regular object of swearing in Boneo as a voter, and another man, who drew his pistol and fired. The first shot struck Boneo and another hit a bystander.

Pacific Coast. At a meeting of the creditors of S. Danziger & Co., bankrupt, held at Astoria, Tuesday morning, the firm submitted a proposal to settle its financial difficulties by paying 40 cents on a dollar of its indebtedness. A majority of the creditors, who also represented a majority of the indebtedness, voted to accept the offer.

Spokane shippers have received advice from representatives of western railroads in St. Paul that lower freight rates on the commodities which were held up when the compromise tariff of June 15 was agreed upon, would be placed in effect at once. After a heated session, lasting all day, the county commissioners at Walla Walla Tuesday evening refused to renew the saloon license of Sean Ash at Wallula, thus "closing" temporarily, at least, a town which has been open since the early days.

An expedition to climb Mount McKinley next spring has been organized by C. E. Rusk, editor of the Prosser, Wash., Independent, reported to be the most skilled mountain climber in the Pacific northwest, and Merl Lavoy, who was a member of the unsuccessful Herschel-Parker expeditions of 1910 and 1912. Rusk, who is a member of the Portland Mazamae, led an unsuccessful expedition to the mountain in 1910.

Warren J. Cody, 38 years old, killed Mrs. Elizabeth Smith, 46, and committed suicide Monday night at the woman's home on the outskirts of Los Angeles. Cody crushed Mrs. Smith's head with a hammer and ended his own life by swallowing poison. Jealousy is said to have been the motive. The woman leaves two children.

Chairman Robert S. Lovett of the board of directors of the Harriman lines, has given out the details of the long tunnel, the Southern Pacific plans to bore through the Sierras. To save a bulk of about 1000 feet, the company proposes to build a tunnel 20,000 feet in length and which will cost about \$10,000,000. It will be cut into the mountains at a point between Blue Canyon, Cal., and Truckee. According to Judge Lovett, it will be the longest tunnel on the continent.

The curious troubles of Hull McCloughry and Anita Baldwin McCloughry, the \$10,000,000 heiress of "Lucky" Baldwin, came to light Tuesday in the Palace hotel at San Francisco. Mrs. McCloughry arrived Monday from Los Angeles, and soon after detectives were engaged by telegraph by her husband to watch over her, as he feared she intended suicide. He arrived later in the evening and hired more detectives. Both parties have hallucinations, the husband believing that his wife is going to drown herself, and she is possessed with the idea that he will shoot himself. This is the sixth time she has fled from her husband's home, leaving her husband and two babies.

Chief of Police Sebastian of Los Angeles has issued an imperative order that proprietors of Chinese and Japanese cafes and soda water stands must discard immediately all 50 white girls and women employed by them as waitresses and cashiers. White women and girls are out of place in resorts conducted by Orientals, the chief said.

Residents of Cuernavaca, Mexico, who have been in fear of an attack on that city, were further alarmed Monday when a band of 400 Zapatistas raided the electric light plant not far from town. The rebels cut the electric wires but were repulsed by the government troops, who are pursuing the band. Reports from various parts of Mexico tell of the operations of numerous marauding bands. One of these, captained by Benito Canales, raided Cuernavaca Tuesday, three miles from Cuernavaca, killing the manager and his son. Returning from the ranch, the band encountered a woman carrying a baby, both of whom were shot. The baby was killed and the mother badly wounded.

At Amacameca, Mexico, on Tuesday, a rebel band carried away a man, whom they looted. This band also killed a woman and two little girls whom they met in retreating from the town. Ojinaga was captured by Mexican rebels Tuesday without firing a shot. The federal forces, commanded by General Sanchez, fled to the hills and a small garrison left behind failed to fight. With the capture of Ojinaga the rebels have secured badly needed provisions, arms and ammunition. The federal government, it was announced Tuesday, will fortify Juarez with extensive earthworks and light and heavy artillery. It is reported from Paris that the Ville de San Martino, on the island of Elba, which Napoleon is said to have occupied during his exile, has been purchased by the Marquis Ruspoli, for \$60,000. The Baroness von Eckhardtstein, a Prussian noblewoman, is dead at Berlin, the victim of a wild boar hunt. She was accidentally shot and mortally wounded by her kinsman, Count Flinck von Flinckstein. The baroness and the count were shooting at a boar from adjacent stations in a dense wood, when one of the bullets from the count's rifle was deflected from a tree and struck his relative. Seven persons are dead and four more are dying at Posen, Prussia, as a result of eating poisonous fungi gathered in mushrooms. All the victims were members of two families, which have been virtually destroyed. A dispatch from Peking, China, says that General Chang Cho Lin, who has been a resident of Albany for the past 12 years,

LASHES TO QUELL MUTINY IN PRISON

Whipping Post Reestablished at Michigan Pen; Troops Are on Guard. (United Press Leased Wire.) Jackson, Mich., Sept. 4.—With five companies of militia encamped in the yard of the state penitentiary here, the whipping post was reestablished today to quell food mutiny which for days has raged in the prison. The state troops are patrolling the blocks, cells and walls of the prison today. All is quiet. Prisoners wishing to go to work are being escorted to the factory under guard. Those who still refuse to work are locked in their cells and, if they continue refractory, it is expected they will be brought to terms by the lash.

Among the "new wrinkles" he noticed how the bears were treated in the parks to keep them there and to make them gentle enough to be closely observed by park visitors. This plan is to feed the bears at certain places and get them coming regularly to these points to seek grub. The plan is to gather up scraps of meat from hotels and the carcasses of animals where they can be had and place them in the haunts of the wild animals.

Mr. Arant is trying the same plan to see if he cannot establish a colony of bruins where they can be seen by visitors to Crater lake. He does not expect to be able to get a very large number of bears tamed this season, but believes by proper treatment and care he will be able to have a bunch living about the superintendent's headquarters and the rim of the lake that will become so tame and gentle visitors may walk up to within a few yards of them.

To begin with he took feed to the haunts of the bear, where it was scattered, and developments watched. When this was eaten he again took feed out, and this time and each succeeding time, placed his "bait" a little nearer to headquarters.

Mr. Arant realizes, however, that if he makes a success of this he will have to exclude dogs from the park confines or make rules that no visitor take a canine into the park without having it at the end of a rope or chain. If dogs are allowed to run promiscuously through the park they will naturally run the bears and scare them from their haunts so they will have to be barred. Both dogs and cats are barred from Yellowstone park.

The superintendent thinks his plan of "taming" the bears and getting them to make the park their headquarters is very desirable in that it will place as a tourist resort, as many would make it a point to see them if it were possible.

Teachers Must Be Pretty, Too. Pendleton, Ore., Sept. 4.—The school board of the Hermiston schools is very desirous of placing good teachers in the school at Hermiston is evident. The board not only has an unwritten law that each applicant should at least have a normal training, but it has lately decided that she should also be composed of young married men whose judgment in these matters is of the best, they think that in justice to these young men, they should make this one of the qualifications of the applicant. There are three vacancies in the school at the present time, and about 10 applications have been made. The board, however, will not take any action until the return of the president of the board, who has gone on a week's vacation. All applications for positions should be made to School Clerk John H. Watson of Hermiston.

Swimming Hole Makes Men Alive. Hillsboro, Ariz., Sept. 4.—Solitary wanderers passed through the trail carrying his little "turkey" (for the benefit of the unsophisticated "turkey") and when he passed the junc bridge across Jackson bottom he fled the old swimming hole that has pre-

OREGON ELECTRIC TAKES FIRST BOX FROM EUGENE

(Special to The Journal.) Eugene, Or., Sept. 4.—The first freight sent out of Eugene over the new Oregon Electric railway was shipped to Junction City Monday by the owners of a large grocery store. They sent one of their customers at Junction City a consignment of meat and vegetables, the shipment going down in a box car drawn by the construction engine. The track layers have reached the business section of the city, but the crossing has not been made at the intersection of West Fifth and Blah streets at the edge of the city, where the P. E. & E. lines run.

LOCOMOTIVE APPEARS ON NEWBERG STREETS

(Special to The Journal.) Newberg, Or., Sept. 4.—Yesterday for the first time the foot of a locomotive was heard on First street, the main business thoroughfare of Newberg. Recently the rails were laid for the Southern Pacific's proposed electric line and today the steam engine made its appearance for the purpose of moving several cars loaded with lumber for the track. The cars were pulled up the street a few days ago by means of an electric engine. A locomotive appeared to remove them. The event attracted much interest.

HEAVY SEAS WASH AWAY 700 FEET OF BIG WHARF

(United Press Leased Wire.) Humboldt, Cal., Sept. 4.—With 700 feet of the great Huemene wharf already washed away, heavy seas today are threatening to do further damage. Several small boats moored near the pier also were swept away. The heaviest seas in years are running here.

Aged Albany Residents Die.

(Special to The Journal.) Albany, Or., Sept. 4.—Mrs. Adeline Armstrong, aged 94 years, died at the home of her daughter on East Second street in this city last evening after suffering for years with a cancer of the spleen. Mrs. Armstrong was one of the pioneer families of the Willamette valley, and with her family has lived in and near Albany for the past 50 years. Her husband was drowned in the Willamette river several years ago. Jeremiah Reed Ream, aged 80 years, died at his home at 337 West Second street last evening of acute dilatation of the heart after a lingering illness. Mr. Ream has been an invalid for years, and his wife has conducted a grocery store. They formerly occupied the site of Albany's proposed new federal post-office building, and when the old buildings were ordered moved, they transferred their business to the place where Mr. Ream died last evening. Mr. Ream was formerly in the furniture and undertaking business in Eugene, but has been a resident of Albany for the past 12 years.

ODD TALES

VOUCHED FOR BY OREGON NEWSPAPERS

Crater Lake Bear to Be Tamed. Astoria Record: Superintendent Arant of the Crater National park, is trying the most novel scheme of "taming" the bear that roams the park. He made a trip last fall to the Yellowstone National park to meet with Secretary Fisher and superintendents from national parks all over the northwest. While there he observed some of the things done and the way wild animals were handled to make them feel at home.

Charmed Cat Is Disillusioned. Medford Observer: Josh H. Elliott killed one of the pioneer rattlesnakes of the county at his farm east of Monkland last week; it measured over three feet in length, carried 10 rattles, and was as large in circumference as the stoutest fork handle. It had the house cat charmed, and was willing to beat the band when Mr. Elliott aimed a blow with a formidable club that dispatched his snakeship, and brought the cat to a realization of the situation with a sudden leap of about 14 feet in the air.

LOUNSBERRY POSSIBLY A HIGHWAYMAN, TOO

(Special to The Journal.) Medford, Or., Sept. 4.—Another accusation has been lodged against Wells Lounsberry, the confessed train robber who is awaiting trial in Topeka, C. H. Howe of this city, is the author of the charge which says Lounsberry is attempting to hold him up on a county road, May 24. His description of the highwayman furnished to the newspapers at that time tallies with Lounsberry's build throughout and the county sheriff is of the opinion that Howe is right in his charge.

At the time of the hold-up Howe was driving along a deserted road, being confronted by a man of slight build, who ordered him to throw up his hands. Howe attempted to comply, however, the horse became frightened and dashed madly down the highway. The bandit fired a shot after Howe and narrowly missed him. Efforts of the sheriff to locate the hold-up were of no avail.

The attempted hold-up occurred about three miles from the Lounsberry ranch.

DIVORCE PAPERS NOT YET FILED AGAINST LEPER

(United Press Leased Wire.) Tacoma, Wash., Sept. 4.—According to Dr. E. M. Brown of Tacoma, who performed an operation for abdominal troubles upon Mrs. John Early, wife of the leper John Early, who was charged about this county and finally given a position as watchman at the Diamond Point quarantine station near Port Townsend, Wash., Mrs. Early signed the first papers for divorce about August 17, while in the hospital here, alleging extreme cruelty. The papers have not yet been filed. No one except the Earlys themselves knew of any condition other than of entire harmony between the leper and his wife. During the month's time during which Mrs. Early had been in the hospital practicing for the operation, a letter came to her from the leper, begging her to visit him in his island exile home.

Hunter's Jaw Partly Shot Off.

(United Press Leased Wire.) Tacoma, Wash., Sept. 4.—Raiph W. Shepard of Ellensburg is suffering today in the Northern Pacific hospital here from an accident which occurred while hunting in the Cascades. Accidental discharge of his shotgun carried away part of his jaw. He was brought here last night and is expected to live.

FEEL SHAKY, BILIOUS, HEADACHY, OR CONSTIPATED? TAKE CASCARETS

Sick headaches! Always trace them to lazy liver, delayed, fermenting food in the bowels or a stork stomach. Polymous, constipated matter, gases and bile generate in the bowels, instead of being carried out of the system, is reabsorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, sickening headache. Cascarets remove the cause by stimulating the liver, making the bile and constipation poison move on and out of the bowels. The effect is almost instantaneous. Ladies whose sensitive organisms are especially prone to sick headaches, need not suffer, for they can be quickly cured by Cascarets. One taken tonight will straighten you out by morning—a 10-cent box will keep your head clear, stomach sweet, liver and bowels regular and make you feel bright and cheerful for months. Children need Cascarets, too—they love them because they taste good and never gripe or sicken.

CANDY CATHARTIC Cascarets

WORK WHILE YOU SLEEP

NORTH IDAHO BARLEY BLEACHED; WHEAT HURT

(Special to The Journal.) Lewiston, Idaho, Sept. 4.—With less than 25 per cent of the north Idaho crop in the warehouse and with rains that have fallen for the past five days almost incessantly, farmers are now beginning to show considerable alarm and it is feared that a large percentage of the crop will be severely damaged. The spring crop of barley and wheat is yet standing in the field, and if the weather does not settle within the next three days the crop will suffer great damage.

The barley crop has been badly bleached, and No. 1 brewing barley is out of the question in this locality this year, stated Robert Abel of the Pacific Coast Elevator company of Portland. Just how much the quality will be lowered is not definitely known but is likely to be considerable.

YOUTH FOLLOWS 2 GIRLS AND SAVES THEIR LIVES

(United Press Leased Wire.) Tacoma, Wash., Sept. 4.—Two adventurous girls, Gladys Plankett, daughter of a local attorney, and Hazel Holmes, are none the worse for their experience Monday when they narrowly escaped drowning in the sound. The girls were spending the day at Manzanita beach near here and despite warnings, they ventured out on the rough water in a canoe. Fearing a tragedy, J. Clyde Gazeley, an Oakland, Cal., youth, visiting at the summer resort, put off in a skiff and followed the girls. Shortly after he left shore the canoe was caught by a big wave and capsized. Neither girl could swim and both owe their lives to the prompt action of young Gazeley.

SHIP OREGON LUMBER FOR NEBRASKA HOME

(Special to The Journal.) Ontario, Or., Sept. 4.—Leo Sherer is shipping to Nebraska direct the lumber for a house which he is to build at Wood River. The bill of lumber at a local yard cost \$500 and the freight charges were nearly \$200. Yet Mr. Sherer thinks he can handle the lumber at a saving as against prices in Nebraska. The order includes doors and windows. According to Mr. Sherer a person wishing to build a good house in Nebraska could afford to take a short vacation, pay his expenses to eastern Oregon or western Idaho and return, by buying his lumber in this section of the Snake river valley and shipping it back to Nebraska.

OLD MINER'S LEG BROKEN WHEN STAGE OVERTURNS

(Special to The Journal.) Grants Pass, Or., Sept. 4.—The stage coach en route to Crescent City from Grants Pass was overturned off the grade three miles beyond Waldo Monday night, and William W. Brown, a passenger, had his left leg broken just above the ankle. The auto stage attempted to pass the coach on the grade, crowding it off the embankment, causing it to turn completely over. Brown's leg was crushed beneath the coach, the broken end of the bone protruding from the flesh. Dr. Smith was called from this city, and brought the injured man to the Good Samaritan hospital. Brown is a veteran of the Civil war, 67 years of age, and has been engaged in mining in the Patrick creek district, for which point he was bound at the time of the accident.

GOT INDIGESTION? STOMACH UPSET? BELCHING UP GAS OR SOUR FOOD?

You don't want a slow remedy when your stomach is bad—or an uncertain one—or a harmful one—your stomach is too valuable; you mustn't injure it with drugging.

Pape's Bismepin is noted for its speed in giving relief, its harmlessness, its certain uplifting action in regulating sick, sour, gassy stomachs. Its millions of cures in indigestion, dyspepsia, gastritis and other stomach trouble has made it famous the world over.

MAKES DISORDERED STOMACHS FEEL FINE IN FIVE MINUTES. CURES INDIGESTION, DYSPEPSIA, SOURNESS, GAS, HEARTBURN.
