

ARIZONA TARTAN & FEW CARLOADS FANCY POTATOES VALLEY

Small Amount of Stock Is Passing With Dealers Paying Up to 50 Cents per Hundred, f. o. b., Country Points at Present.

Portland Wholesale Market. Chickens lower. Eggs firmer. Cheese out of market. Butter very firm. Peach trade steady. Grapes hold firmly. Tomatoes steady. Dressed meats steady. Potato trade nominal. Hop prices mixed.

A few carloads of potatoes are being shipped by local parties to Arizona, but the market is generally quiet. Prices continue very low and this, together with the unsatisfactory demand as well as the fear of quality, has given the trade a very quiet appearance.

For the few carloads that are being sent forward, dealers here are paying 50c per cental, f. o. b. country shipping points. They say they are not expected to have a heavy demand at this figure.

Advices from the country state that the blight is even more severe than has been anticipated. Most of the late potatoes are said to be affected, although only in isolated instances have the early growth been touched.

CHICKEN MARKET IS LOWER. Lower prices are being named for chickens in the front street trade, with a weaker feeling and increased offerings.

BEST EGGS HOLD AT TOP. While receipts are very small, there is a liberal demand for best quality eggs at 35c a dozen along front street.

SELLING APPLES DIRECT. Some complaint is being made by the trade regarding the selling of apples direct to retailers by a food retailer.

DAMSON PLUMS SELL WELL. There is quite a fair demand for Damson plums in the local market. Receipts are small, but quality is generally good. Sales are being made from 6c to 7c a pound.

BIG ADVANCE IN LEMONS. Owing to the shortage of supplies in the south and the higher prices asked there, a substantial advance was made in the local market today. Lemons that were quoted at \$6.00 a dozen are now quoted firm at \$5.50.

SOME ACTIVITY FOR HOPS. Some activity is showing in the hop market and quite a number of deals were reported during the last 24 hours at 18c a pound, the latter was paid for best offerings available.

SCARCITY OF CATTLE SUPERIOR IS ONLY PRESENT DRAWBACK

Henry Hahn Says That She Stuff Must Be Brought in From Outside; Holdings of Hogs Are Showing an Increase.

That much she stuff must be imported into the cattle country before any material improvement can be made in cattle supplies is the opinion of Henry Hahn of Wadham & Co., of this city, and head of the Prineville Land & Livestock company.

Mr. Hahn has just returned from a 12 days' inspection trip of his ranch near Shaniko, and with the exception of the small stock of cattle, is much pleased with the outlook.

"There is plenty of grass in the interior," says Mr. Hahn, "and both cattle and sheep are fat. I believe that there are more hogs in the Shnako country than I have ever before seen, and this is a very good fact."

General conditions in the interior are very good, but I regret very much to say that there is a great shortage of corn. I do not doubt in my mind that no material improvement in the situation can be shown until more she stuff is imported from other sections.

For the Shnako country is gaining in population, with the principal increase close to the railroads. This is natural because it does not pay to haul produce very far from a railroad.

CHEESE IS AGAIN OUT OF THE MARKET WITH A FIRMER UNDERTONE

Market Is Again Bare of Offerings and a Further Advance May Be Forced; Even Packers Are Willing to Make Purchases.

Another shortage of cheese supplies is shown in the local market. One leading dealer is without supplies at all. Orders are not being filled for the reason that there is no cheese in sight.

With the market at this moment decreasing and with the demand greater from all markets, the outlook is for a further advance in the price, although until more cheese is available previous quotations are nominally continued, viz: Tripoli, 17c; Swiss, 17c; daisies, 17c; and Young American, 16c per pound.

Butter market is showing little strength, but no further rise is showing in prices. Stocks on hand are very small, in fact not as good as demand justifies.

STOCK MARKET MORE ACTIVE FOR THE DAY

New York, Sept. 25.—While call loans advanced today to 5 1/2 per cent, the market was more active than it has been in many weeks. Up to 2 o'clock 648,300 shares had been traded on the N. Y. exchange.

At the opening, London was a moderate seller of stocks and this influenced the local market. There was generally a few fractions lower than yesterday.
