Ability and Skill Should be Considered When You Select a Physician to Treat You

C. K. HOLSMAN, M. D. I am just now completing my sixteenth year as a specialist in men's diseases. During these years of close application to a single class of atments I have originated and perfected scientific and certain methods by which these diseases are cured. If I accept your case for treatment, a cure is but a matter of a reasonable time.

My practice is limited to the disor-ders of the male, and is further con-fined to these special and chronic affections of the pelvic tract. These Include Lost Vitality, Varicose Veins, Hydrocele, Blood Disorders, Con-tracted Ailments and Bladder and Kidney Diseases. I have taken up these ailments especially, because thou-sands of lives are ruined and thousands of men are not what they should be because they are held down by chronic weakness, which the average practicing physician does not understand and usually tries to make light of by telling the retires that nature will soon tension.

patient that nature will soon repair My methods are up to date, and are endorsed by the highest medical au-thorities of Europe and America, hence our success in the treatment hence our success of men's diseases.
