Judge Gatens of Circuit Court Gives Progressive Men's Club Suggestion for Handling Social Problem.

Judge W. N. Gatens of the circuit court approved the establishing in Portland of a restricted district without... Judge Gatens discussed the causes and... Judge Gatens said his conclusions... Judge Gatens said his conclusions...

Bar Liquor and Dance.

"I am in favor," said he, "of the... Judge Gatens said his conclusions... Judge Gatens said his conclusions..."

Really Dangerous Women.

"I have declared that the non-professional... Judge Gatens said his conclusions... Judge Gatens said his conclusions..."

Problem Hard to Solve.

"Many things cause social evil and... Judge Gatens said his conclusions... Judge Gatens said his conclusions..."

Law Should Be Enforced.

"The officers should be relentless in... Judge Gatens said his conclusions... Judge Gatens said his conclusions..."

CONFESSES THAT HE MURDERED TWO GIRLS

(United Press Special Wire) Detroit, Mich. (Special Wire)—Confession to the murder of Helen Brown, 11 years old, a crime which has puzzled the Detroit police for three years, was made here today by George Brown Spender, a laborer. He also confessed to the murder of 12-year-old Matilda Rehn, whose mutilated body was found near her home last Tuesday night. The body of the Brown girl also was mutilated. Spender is said to have confessed to two other murders, the victim in each case being a little girl.

NURSE STEALS DRAFT FROM PATIENT'S POCKET

Seattle, Wash., Oct. 3.—George F. Quigley, a nurse who had been employed in St. Anne's hospital at Juneau, Alaska, is under conviction of larceny for passing off as his own a draft belonging to Paul Backie, a patient. Backie died at the hospital from a wound inflicted by himself after shooting his wife. Quigley claims he came into the possession of the draft to take care of Backie's remains. The state, however, showed that he took it from Backie's pockets for his own use, cashing it at a saloon.

CONSTIPATED, HEADACHY, BILIOUS, TONGUE COATED?—CASCARETS SURE

Furred Tongue, Bad Taste, Indigestion, Shallow Skin and Miserable Headaches come from a torpid liver and clogged stomach to become filled with undigested food, which sours and ferments like garbage in a small barrel. That's the first step to untold misery—foul gas, bad breath, yellow skin, mental fears, everything that is horrible and nauseating. A Cascaret tonight will straighten you out by morning—19-cent box. From your druggist will keep your Liver active. Bowels clean and regular. Stomach sweet, Head clear, and make you feel bully for months. Don't forget the children.

10 Cents. Never gripe or ache. "CASCARETS WORK WHILE YOU SLEEP."

WOODROW WILSON

Owner of Office Building Says His Electric Light Bill is Too High.

A monthly lighting bill for the Meier & Frank Co., sent by mistake to Charles K. Henry by the Portland Railway, Light & Power Co., has led to the declaration by Mr. Henry that he will bring suit against the company on a charge of discrimination in light rates. In an irate mood this morning Henry told two city councilmen that he has discovered the big light and power company is charging him twice as much for light as it charges two other business buildings.

Letter Got Mixed.

When Mr. Henry opened a letter from the company yesterday he found that the bills of the Meier & Frank Co. and of the Portland Railway, Light & Power Co. had been included in his envelope by mistake presumably. He said that the rate shown on the Meier & Frank bill was 1 1/2 cents per kilowatt hour and that for the Board of Trade building was 3 cents per kilowatt hour. Mr. Henry says the company charges him 2 1/2 cents per kilowatt hour for lighting the Henry building, Fourth and Oak streets. This building is just across the street from the Board of Trade building. Mr. Henry declared that he would bring suit against the company to recover what he alleges has been the overcharge of the company for three years.

Josselyn Doesn't Know.

"I don't know just what rates we charge," said J. Frank Josselyn, President of the P. R. L. & P. Co. today, "but the figures mentioned by Mr. Henry are probably correct. We base our charges, however, on the volume of light consumed and have a perfect right to make different rates for different consumers. Meier & Frank guarantee us \$500 a month and that has probably something to do with the lower rates they receive. We charge as high as 9 cents a kilowatt hour for some lights and we charge as low as one cent per kilowatt hour for others. The rate depends upon the amount of current consumed. Let Mr. Henry carry his troubles into the courts if he wants to, but he can't settle them in the newspapers."

ASK CLARK TO QUIT IN FAVOR OF BOURNE

A report is persistently circulated today among the politicians that A. E. Clark, Progressive candidate for United States senator, who is campaigning in eastern Oregon, is being subjected to extreme pressure to quit the race in favor of Jonathan Bourne, whose formal announcement is expected not later than Saturday, when the time for acceptance of his nomination by petition will expire. Clark's friends say he can be depended on to stay in the race, and that not even the promise of support by Bourne two years from now for Chamberlain's seat will induce him to quit. But others assert that the backing will come the withdrawal of Clark and the uniting of his forces with Bourne. Bourne's friends are disturbed by the candidacy of Clark, which they figure stands to cut into a vote Bourne otherwise would be a step in the right direction toward permanently eradicating this evil.

DR. LANE OPPOSES ELECTING RICH SENATORS

(Special to The Journal.) Woodburn, Or., Oct. 3.—Dr. Harry Lane of Portland addressed several hundred voters here last evening in the course of his campaign for United States senator, and on national issues. He spoke strongly in favor of the recall of judges. He criticized the building of the Panama canal with nothing but borrowed ships to pass through it, and for the convenience of foreign boats. He questioned the propriety of sending rich men to the United States senate, stating that it was "easier for a camel to go through the eye of a needle than for a rich man to enter the United States senate and do his duty as a plain people," and announced himself as being "for a just government for plain people, with backbone enough to stick to the job" in the event of his election. State Senator M. A. Miller of Lane county followed Dr. Lane and spoke at length on taxation and tariffs, strongly favoring a graduated income tax. He said under the present system that the man of moderate means shouldered the bulk of the tax.

Pickpocket Picked Up.

While Frank Landusby, a recent arrival from Michigan, with his partner, were drinking in the Glisan hotel bar, Tuesday evening, with another man, whose name is believed to be Steve Scanlin, a wallet containing \$200 was taken from the coat pocket of Landusby's partner. Landusby immediately notified the police and Detectives Coleman and Snow started on the case. Scanlin was located in Vancouver, Wash., this morning and Detective Snow has gone after him.

Journal Want Ads bring results.

Foreign. The Mexican government is apparently making no secret of the fact that it is negotiating with Zapata for peace. It is believed that if pending peace negotiations are not speedily successful, the government will renew the war upon the rebels on a scale far more formidable and extensive. Two hundred and five men were killed in a battle between Mexican rebels and federals at Ayra Pass, not far from Monclova, Mexico, Monday evening, according to reports just received. Seven federal officers were reported killed. There were about 500 men on each side, the federals being commanded by General Blanquet. The rebels retreated Tuesday night in the face of federal reinforcements. A telegram from Sofia, Bulgaria, says 15,000 Macedonians are about to return from the United States as volunteer soldiers in the expected Balkan war.

Notes of Wednesday's Happenings

Brief Paragraphs Give Journal Readers the News of Late Yesterday Afternoon and Last Night.

Political. As a result of an investigation made by the department of the interior, the candidacy of John B. Kendrick for United States senator from Wyoming has been nationally investigated. Kendrick, who is a wealthy cattleman and lives near the Montana line, made application a few years ago to cut timber in Montana, setting forth that he was a dry farmer and a resident of that state. A department ruling that he is a bona fide Montana resident might result in his rejection by the Democratic party in Wyoming.

Governor Marshall of Indiana, the Democratic candidate for vice president, shook hands Wednesday morning with President Taft just before the banquet of the supreme council of Scottish Rite Masons at Boston, at which both were guests. President Taft joked with Governor Marshall for a few minutes on the wear and tear of the night, and then both passed into the banquet hall, where they stood side by side in the receiving line.

Out of the 52 candidates for presidential electors in California, 11 each from the Prohibition, Socialist, Democratic and Republican parties, 11 are women, as shown by the tentative sample ballot just prepared by Secretary of State Jordan. The Prohibitionists have 11 women, the Socialists 10, Democrats two and the Progressives one.

Miscellaneous. A joint demand upon China for immediate payment of arrears on the Boxer indemnity amounting to \$50,000,000, has been proposed by Russia to the other five interested powers. No official intimation has been given as to what will be the attitude of the United States, or of the other powers, Germany, France, Great Britain and Japan, toward Russia's invitation for a conference, but it is said the European governments are likely to look with favor upon the proposition.

Eastern. A corner in the available supply of butter, which promises to carry the price to the high level of last year and possibly higher, confronts the consumer of this product in Chicago. The dealers here are supposed to be the interests engineering the deal. The effect of the control of the available supply of butter is already being felt and the price is now 2 1/2 cents higher than a year ago at this date, despite the fact that supplies are 11,000,000 pounds greater than last year.

Preliminary reports received by railroads operating westward from Chicago indicate that colonial travel in a fall will be much heavier than last year. A report issued by the Rock Island road shows that 127 colonists left over the lines of that company last Tuesday night for Pacific and north Pacific points. The total amount of fare from Chicago to the Pacific slope is \$38. From St. Louis it is \$37 and from Missouri river points \$30.

Because President Taft laid the cornerstone of the new home of the Boston Young Men's Association Wednesday, Chicago Bricklayers' Union No. 23 has been asked to withdraw the card of honorary membership it recently gave him. The request was voted by Boston Bricklayers' union No. 3, on the ground that the building was being erected by nonunion labor.

Police Commissioner Waldo of New York has a hard job. He announced Wednesday that within the last week he had received a stack of letters as high as Ty Cobb's, explaining to anxious parents scattered over the country as far west as the Rockies imploring him to look for Johnny and Jimmy and Joe, who have left their happy homes and are headed straight for the Polo grounds for races. Rear Admiral Lucien Young, former captain of the Mare Island navy yard, near San Francisco, died in New York Wednesday, after a brief illness. A deficiency of blood, brought on by a ruptured blood vessel in the stomach, was given as the cause of death. He was 60 years old and has a record of distinguished service as a naval officer.

REGISTRATION LIGHT; REPUBLICANS LEAD

The registration for this morning numbered 19 divided as follows: Republican 10, Democratic 2, Independent 6, Prohibition 1, Progressive 1. The registration to date since the primaries is: Republican 955, Democratic 454, Socialist 172, Independent 242, Prohibition 55, and Progressive 49.

DEMOCRATIC SPEAKER NOT COMING TO CITY

While William J. Stone, United States senator from Missouri, is speaking for Woodrow Wilson in eastern Oregon, he will not come to Portland or visit the western part of the state, so far as the Democratic state committee. There is no definite information as to what eastern speakers will visit Portland and the western slope.

STOMACH MISERY JUST VANISHES.

Time It! No Indigestion, Gas or Sourness Five Minutes After Taking "Pape's Diapensin." If what you just ate is souring on your stomach or lies like a lump of lead, refusing to digest, or you belch and crumple and eat, undigested food, or have a feeling of dizziness, heartburn, fullness, nausea, bad taste in mouth and stomach headache—this is indigestion. A full case of Pape's Diapensin costs only fifty cents and will thoroughly cure your out-of-order stomach, and leave sufficient about the house in case some one else in the family may suffer from stomach trouble or indigestion. Ask your pharmacist to show you the formula plainly printed on these fifty-cent cases, then you will understand why dyspeptic trouble of all kinds must go, and why they usually relieve sour, out-of-order stomachs or indigestion in five minutes. Diapensin is harmless and tastes like candy, while the law contains no poisonous element to digest and prepare for assimilation into the blood all the food you eat; besides, it makes you go to the table with a healthy appetite; but, what will please you most, is that you will feel that your stomach and intestines are clean and fresh, and you will not need to resort to laxatives or liver pills for biliousness or constipation. This city will have many Diapensin cranks, as some people will call them, but you will be cranks only if you don't try a little for indigestion or gastritis or any other stomach misery. Get some now, this minute, and forever rid yourself of stomach trouble and indigestion.

Stock Deal in Court.

The hearing of the case of Alma Hochstrasser against the Clearview Orchard company to recover \$1400 paid for the company for stock which was never issued, was taken up by Circuit Judge Kavanagh this morning. Attorneys Glitner and Sewell represent Hochstrasser, and Thomas O'Day the company. Hochstrasser states that he has purchased the stock which was purchased a year ago, but issued, but that the company has refused to do so.

The average girl never gets more than one proposal of marriage—because she is always afraid she will not get another.

S. W. WASHINGTON

FAIR BREAKS RECORD

Owing to the successful crops produced in southwest Washington this year the variety and quality of exhibits displayed make the Southwest Washington fair at Centralia and Chehalis this week the most successful of any of the four years of the fair association," said J. J. Sayre, who, with a number of Portland people, attended the fair yesterday. He returned this morning. "The fine weather of the past two days was responsible for the largest attendance in the history of the association. One of the notable features of the exhibit was the display of dairy products, including such varieties as the Clair geau and Duchess D'Angouleme, and the exhibitors have decided to plant 60 acres to these varieties for commercial purposes. These varieties have made Medford and other pre-producing districts famous. In the livestock exhibit the most attractive feature probably was the famous Jersey cow, 'Olympia's Fern.' In the past five months she has given 20445 pounds of milk, which has produced \$13.37 pounds of butter. This cow is only 4 years and 10 months old. "As for the fruit display as a whole, R. N. Miller, deputy state fruit inspector, told me it was the best ever collected in western Washington. "I was told that more people are going into dairying in southwestern Washington every year and that the production of dairy products has increased materially during the past year, despite the number of head of dairy cows has not increased. O. C. Van Houten, who is in charge of the dairy exhibit, told me that a campaign of education is bringing about this result. It is urged that good results for the farmers to save their calves instead of selling them for veal in spite of the high prices paid for veal."

8TH GRADE TEST DATES ANNOUNCED FOR 1913

(Salem Bureau of The Journal.) Salem, Or., Oct. 3.—State School Superintendent L. R. Alderman is issuing circulars of information concerning the eighth grade examinations for next year. The examinations will be held January 16 and 17, May 8 and 9, June 5 and 6 and September 4 and 5. The sources of questions will be as follows: Arithmetic—Sylvana, Burket & Hill; Arithmetic—Practical Arithmetic (Smith). Follow outline as given in State Course of Study. Civil Government—United States Constitution. See outline in State Course of Study. Geography—State Course of Study; Redway and Hinman's Natural School Geography. History—(Doubt.) List of topics from History Outline in State Course of Study. Grammar—Beuler's Modern English Grammar, no diagramming. Follow outline as given in State Course of Study. Physiology—Graded Lessons in Physiology and Hygiene (Krohn).

REPUBLICANS LIKELY TO SETTLE TROUBLE

At a meeting of the Republican county central committee, called for tonight at Republican headquarters, the factional troubles which resulted in splitting the committee last Thursday night will again receive attention, and peace-makers will be called upon to settle the matter. The split came at the last meeting over a motion for adjournment, which Chairman R. C. Wright declared carried. This was before the committee had transacted any but routine business. Declaring Chairman Wright was unfair, part of the committee remanded and formed a new temporary organization. Members of the insurgent faction declare they have no desire to divide the committee and will merely stand for a "square deal," which they assert has been denied them by Wright. They will repeat the motion of the last meeting by demanding the roll call at the outset. Then they will ask all except members to retire to the spectators' space, as they assert that persons not members assisted Wright in the voting at the last meeting.

MARSHAL GRIFFITH BUSY AT ROUNDUP

Deputy United States Marshal Will Griffith returned to Portland Wednesday afternoon with five prisoners gathered up at the Pendleton Roundup. Three of the men are charged with selling liquor to Indians and the other two with violating the white slavery act. Homer Farley brought a woman from Yalmer, Idaho, to Pendleton. As witnesses in this case, Dora Williams and M. F. Williams of Vollmer, Idaho, were brought along by the marshal. William Rogers trafficked in Idaho, Washington and Oregon and will be taken to North Yakima, Wash., for trial. E. L. Jarrett, Everett Johnson and William Metz were arrested for selling whiskey to Umatilla Indians. J. R. Carroll and G. A. Bundy of Pendleton accompanied the party as guards and Mrs. Ira Hughes as matron.

AUTOMOBILE SPEEDERS GIVEN \$25 FINES

Despite the work of the police to curb automobile speeders, owners and chauffeurs still persist in traveling faster than the law allows. W. H. Armstrong and E. J. Frohman, who were arrested last night by Patrolmen Schirmer and Wardle, were each fined \$25 in the police court this morning. Armstrong's sentence was suspended. C. E. Youngquist and Dr. F. S. Smith, who were arrested yesterday afternoon by Patrolmen Evans and Coulter, on Union avenue near Alberta street, were also fined \$25 this morning by Judge Tawell, in the police court. Dr. Smith's sentence was suspended.

OLD MAN, RETIRING, STUBS TOE, BREAKS LEG

(Special to The Journal.) Walla Walla, Wash., Oct. 3.—As he was getting into his bed Tuesday evening, J. W. Vance, 72 years, a pioneer harnessmaker of this city, stubbed his toe in such a manner that his left leg was broken just below the hip joint. Mr. Vance did not know his leg was broken and went to bed thinking he was suffering from a sprain. Yesterday morning he awoke in great pain and was removed to the hospital.

State Measures on Ballot—Article No. 7

Traveler's Protective Association Proposes Bill to Establish Office of Hotel Inspector—Rules Laid Down.

The Traveler's Protective association is sponsor for a bill under the initiative under which the office of hotel inspector is proposed to be established and a large number of rules laid down for hotels and lodging houses, dealing with safety and sanitation. The proposed act contains 20 sections, occupying four pages of the voters' pamphlet. Incidentally, it repeals the famous "nine-foot" sheet law championed by Senator Dan Kellahan, and permits the use of a sheet five inches shorter than nine feet. Details of the bill cannot be given in the scope of this article, and those particularly interested are referred to page 130 of the official pamphlet. The purpose of the act is thus summed up in an argument by C. D. Frazier: "That all hotels shall be equipped with iron fire escapes of approved pattern, on all floors above the first story, and rope ladders from the first story to the second floor, of sufficient length for the guest to reach the ground in safety. That hotels of more than two stories shall be provided with halls and cross halls, so that guests may reach fire escapes with ease, and that printed notices be posted in all rooms, and halls, calling attention to, and directing the way to fire escapes. That all hotels shall be provided with efficient chemical fire extinguishers, and equipped with 10 inch fire hoses, with all beds for the accommodation of guests be provided with a sufficient supply of clean bedding, and that clean linen be provided as often as same shall be assigned to different guests. That wash rooms shall be provided with clean towels. That any room that has been occupied by any person having a contagious or infectious disease, shall be disinfected, thoroughly before being again occupied. That every hotel shall be properly plumbed and drained according to sanitary rules and other laws, and to provide a hotel inspector to see that the law is enforced."

Noted Hope Required.

Section 1 under the act all hotels and lodging houses are required to transmit guests. Section 2 requires that all such places over two stories high shall be so arranged that each room opens into a hallway and reaches fire escapes on buildings over three stories, or from a lobby or other preventing obstruction to fire escapes by storm doors or windows unless they contain glass openings of approved size. The provisions of this section do not apply to Portland or other cities of the state in which hotels and lodging houses have complied with the requirements of city ordinances. Section 3 provides for equipping each room in two story hotel or lodging house with a knotted rope long enough to reach the ground, as to how it shall be fastened, size, strength, and other details. Other sections require a chemical fire extinguisher for each 2500 square feet of floor area, going on each floor to alarm guests in case of fire where a fire alarm system is not already installed, and with like detail the rules are given for plumbing, change of linen for each guest, and other regulations. These rules are necessary, say the traveling men, for the protection of those who encounter unsanitary and unsafe conditions when they take transient accommodations. Every owner, manager, agent or person in charge of a hotel failing to comply with the law is made subject to a fine of from \$10 to \$100, and each day of such failure is made a separate offense. The bill provides for a hotel inspector to be appointed by the governor for a term of four years, but subject to removal when this is deemed "for the public good." The inspector to receive a salary of \$2400 and traveling expenses. He is required to give a bond of \$5000. Deputy Is Provided. A deputy inspector is provided, to be appointed by the inspector and removable at his pleasure, at a salary of not more than \$125 per month and traveling expenses. His bond is fixed at \$2000. An appropriation of \$7000 annually is made by the bill to cover expense of inspection. The inspector or his deputy is instructed to inspect every hotel at least twice each year, to keep a record of his inspections, and to make complaint and cause the arrest of persons failing to observe the law. The inspector is given police authority to make inspections at reasonable hours, and he must furnish certificates of inspection to be kept posted in each building. It is made a misdemeanor to obstruct the work of inspection, and no inspector certifying falsely to the condition of any hotel is made subject to fine, imprisonment and disqualification to hold the office in future. These are the general provisions of the law. There appears to be no organized opposition to the bill, which will find chief application to the smaller cities of the state and to the cheaper class of hotels and lodging houses in the large cities. It will be observed that \$7000 is made an annual appropriation to carry out the law, and two new officials are created.

BOY INJURED AT REFORM SCHOOL

(Salem Bureau of The Journal.) Salem, Or., Oct. 3.—Frank Seay, a 13-year-old boy confined at the state reform school, lost all the fingers of his right hand one day this week, when the member was caught in the mangle in the laundry at the institution. He was regularly employed at the mangle. Superintendent Hale says the accident was due to the boy's carelessness. This accident has brought to light the fact that the plants or factories at the state institutions are not inspected by the state labor commissioner or his inspectors. They are probably the only plants in the state where the lives of workmen are endangered by machinery which are not inspected by the labor commissioner.

Rheumatism

A Home Cure Given by One Who Had It. In the spring of 1908 I was attacked by Muehlen and inflammatory rheumatism. I suffered as only those who have it know, for over three years. I tried every remedy, and doctor after doctor, but such relief as I received was only temporary. Finally I found a remedy that cured me completely, and it has never returned. I have given it to a number who were terribly afflicted and even bedridden with Rheumatism, and it effected a cure in every case. I was every sufferer from any form of Rheumatism, and I will send it free to try it after you have tried every other power. There's good news! Simply mail your name and address and I will send it free to try it after you have tried every other power. I do not want your money unless you are perfectly satisfied to send it. Don't delay. Why suffer any longer when relief is thus offered you free? Don't delay, write today. Mark H. Jackson, No. 166 Albany bldg., Syracuse, N. Y.

CLEANS THE HAIR AND MAKES IT BEAUTIFUL—25 CENT "DANDERINE"

In a few moments your hair looks soft, fluffy, lustrous and abundant—No falling hair or dandruff. Surely, try a "Danderine Hair Cleanse" if you wish to immediately double the beauty of your hair. Just moisten a cloth with Danderine and draw it carefully through your hair, taking one small strand at a time, this will cleanse the hair of dust, dirt or any excessive oil—in a few moments you will be amazed. Your hair will be wavy, fluffy and abundant and possess an incomparable softness, lustre and luxuriance, the beauty and shimmer of true hair health. Besides beautifying the hair, one application of Danderine dissolves every particle of Dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair. Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating, stimulating and life producing properties cause the hair to grow abundantly long, strong and beautiful. You can surely have pretty, soft, lustrous hair, and lots of it, if you will just get a 25 cent bottle of Knott's Danderine from any drug store or toilet counter and try it as directed.
