

UNDISCOURAGED BY UNFAVORABLE DECISION "DAKOTA DAN" IS MAKING SECOND ATTEMPT TO PROVE SELF DANIEL RUSSELL.

Boston, Mass., Oct. 7.—The trial of the Daniel Blake Russell identity case in East Cambridge has now passed its fiftieth day of the actual proceedings and the end is not yet in sight.

The Russell case is probably the most notable identity case ever tried in an American court. It rivals in interest and resembles in many respects the famous Tichborne case, which ran for 170 days before Lord Chief Justice Cockburn in England some 30 years ago.

In the first trial Judge Lawton decided against "Dakota Dan," who claims to be Daniel Blake Russell, son of the late Daniel Russell of Melrose, and who also claims his share of the \$500,000 estate now held by William C. Russell, another son of Daniel Russell.

Persons in daily attendance at the present hearing in the East Cambridge court have been much impressed by the story told by "Dakota Dan" and the evidence of the witnesses who have testified in his behalf.

Persons in daily attendance at the present hearing in the East Cambridge court have been much impressed by the story told by "Dakota Dan" and the evidence of the witnesses who have testified in his behalf.

To support his claim as Daniel Blake Russell a large number of witnesses have appeared at the present hearing to identify the claimant as the son of Daniel B. Russell.

Not the least remarkable feature of the contest has been the part played by the man called "Fresno Dan" who has seriously appeared on the scene when the first trial of the case was near an end.

CELILLO CANAL ALONE WILL NOT OPEN RIVERS

(Special to The Journal.) Lewiston, Idaho, Oct. 7.—At the second annual convention of the Columbia-Snake River Waterways association, Dr. N. G. Blalock of Walla Walla, one of the first promulgators of the open river movement, struck a keynote of the meeting when he said:

"I want to offer for consideration a resolution, the object of which is to open the Columbia and Snake rivers aside from the improvement of the Celillo canal. There are many dangerous rapids in the Snake and Columbia rivers, and I want to see action taken here which will look to the damming of the river at important places and installing adequate locks for raising the river to permit still water navigation, power for irrigation and sites for generation of electricity.
