First Floor—New Building—Mail Orders Filled

**Acorn Oak Heaters for \$15**

COMFORT in winter depends largely on the method of heating the home. The selection of the Heating Stove is made a difficult problem from the number of inferior makes on the market. The Acorn line is known and popular the world over—sufficient recommendation is the mention of the name. The Acorn Oak Heater, where both wood and coal are used, is the symbol of economy. Substantially yet ornamentally constructed. The fire pot, made heavy and corrugated to allow for the heat contraction and expansion, thus does not warp nor burn out. The body is of heavy polished boiler steel. Top and base cast from the best grade of refined iron. The Acorn Oak Heater is fully nickel trimmed and has an ornamental urn on top.

- Acorn Oak Heaters, 14 size, priced at \$12.50
- Acorn Oak Heaters, 16 size, priced at \$15.00
- Acorn Oak Heaters, 18 size, priced at \$18.00
- Acorn Oak Heaters, 20 size, priced at \$20.00
