About Keeping a Good Figure

The well supported and properly corseted figure always retains its youthful line the longest. While it is imperative to get Corsets that support and mould the figure, it is equally important to get Corsets that are comfortable. Very frequently the item of comfort is overlooked and we have the example of the woman who keeps for wear about the house an old Corset that has lost its shape. Such a corset, for the very simple reason that it has lost its shape, has absolutely no figure-supporting qualities and is worse than no corset at all. There is much more of interest that might be said on this point, and valuable suggestions may be had from our fitters for the asking. Let them show you how you can get perfect support with perfect comfort in the "Mme. Mariette." Expert corsetiers to serve you. Hospital or home fitting if desired.
