### APPLE TRADE IS WEAK EVERYWHERE WITH A VERY LOW QUOTATION

Market Wants Something That Is Not Produced or Else Would Pay Extreme Bottom Price; General Publie Is Not Yet Interested.

> Portland Wholesale Markets. Fresh eggs scarcer. Chickens sell higher. Apple demand slow. heese trade active, Butter very firm. Canned milk fight. Dressed meats steady. Florida grapefruit offered,

The apple market situation shows nothing but weakness coupled with dullness throughout the country.

The great crop of small and mediumsized fruit is flooding the trade with
undesirable sizes, while the only sizes
that really are in demand, are hard to

whims of the trade are fickle as are the whims of the trade are flokie as are the whims of nature. A big crop of large-sized fruit is sure to create an excellent demand for the smaller sizes while the big crop of small fruit is just as certain to turn the bulk of the demand into the bigger

fruit.

The high prices reached by the apple trade during recent years are responsible to a great extent for the present duliness in the American trade, and until the general public becomes accustomed to the eating of apples, little movement can be expected.

Apples are today selling in all American centers at the lowest price in many years. The situation would not be half so bad were it not for the fact that even at the low figures, the call is the most

at the low figures, the call is the most limited in years. This together with the greatest output of apples all over the world for many years creates a sagging disposition in the trade generally, for which growers blame the dealers and dealers in turn pass it up to consum-

Demand for apples at the present time, outside of the limited one for large sized fruit, is for stock that can large sized fruit, is for stock that can large sized fruit, is for stock that can be sold in the retail shops at not more than \$1 per box. For this class of fruit retailers therefore cannot pay commis-sion handlers above 75c or 80c on a squeeze, in fact the bulk of the call would not reach either of these figures. FRESH EGGS VERY SCARCE

Fresh eggs are very scarce in the local market and the real article is safely quoted at 40c a dozen this morning. Receipts are decreasing rapidly and while there are many sales of so-called

Oregon aggs, few are coming.

CHICKEN MARKET HIGHER Market for chickens is higher again Market for chickens is higher again along Front street. Receipts are very light and as high as 14½c a pound has been obtained for fancy hens during the last 24 hours. All sorts of poultry is now in good demand at the prices listed,

BIGGEST CALL FOR CHEESE

The local market is today showing its greatest call for cheese. Orders are coming from all parts of the Pacific coast and inquiries are being received from sections that have heretofore used only the eastern product. No change in the price today but a furchange in the price today but a furchang change in the price today her advance may be anticipated.

FANCY GRAPEFRUIT ARRIVES

First carload of grapefruit of the sea First carload of graperruit of the season from Florida has arrived in the local market and is finding quite a fair demand at \$5.50@6.00 per case. The stock, while rather green, is in good condition, and is much better than initial arrivals last season.

POMEGRANATES OF QUALITY

A very select shipment of pome-grantes from California is offering in the local market. The fruit is the fin-est ever seen in this market and is quoted at \$2.25 per box.

HIDE MARKET IS STEADY

While in some quarters there is an inclination to depress the hide market somewhat owing to the increased run of cattle at eastern points, the general sit-uation is steady and values are holding stationary at most points.

FORECAST FOR SHIPPERS

Weather bureau sends the following notice to shippers:
"Protect shipments as far north as Seattle against minimum temperatures of about 42 degrees; northeast to Spo-kane, 40 degrees; southeast to Boise, 40 degrees; south to Siskiyou, 28 degrees. Minimum temperature at Portland to-night, about 44 degrees."

PORTLAND JOBBING PRICES

These prices are those at which wholesalers sell to retailers, except as otherwise stated:

otherwise stated:

Conditions in the hog trade here are

although a nominal amount of stock sold then a nickel higher.

With hog prices showing a further sharp decline at points east of the Rockies, there is no doubt that the trade here will be forced to a lower level un-

less there is a radical curtailment of shipments. Too many hogs have been marketed at North Portland recently to keep the market at an abnormally high level.
Therefore, a cut in prices is probable

ERRATIC PRICES IN THE CANNED MILK MARKET

Wants of Killers Taken Care of and Pacific Coast Condensed Milk Company Quotes Special Cut of 25 Cents for City Trade Only; Thereby Complicating the Situation.

> The canned milk trade is again erratic it is paying more or less than others for the same goods and brands.

The Pacific Coast Condensed Milk company has again started something that may lead to further complications following the naming of a special cut of 25c a case to jobbers for a single carload of canned milk by the Borden company, the Pacific Coast Condensed Milk company has announced a cut of a similar amount to city buyers. Buyers in the country are therefore forced to pay the old price and this will cause further complications. For some reason, which the trade

itself is unable to explain, there has been a decrease in the volume of canned milk trade locally recently. this is due to the fact that fresh milk supplies in the Pacific northwest have been greater this year than usual la not known but condensary companies are trying to stem this tide by making concessions in the price.
The principal shading has, contrary

to former standards, been done by the big companies while formerly the small-er concerns were the ones to first cur The canned milk trade has quotations. been so badly complicated during the last 18 months that the smaller canners are unable to tell exactly where Fighting brands are being tabooed

by the trade generally because they act only as demoralizers and few of the leading jobbers have been willing to encourage the sale of anything except regular stock recently.

Notwithstanding the dullness in the trade here, there is considerable activity shown at Southern Pacific coast points. California interests have been trying to line up southern Oregon condensaries, agreeing to take their en-tire product at the market price. As a rule canners have not been favorably inclined because they realize that only by general distributation can they make a success of their brands.

New York, Oct. 22 .- Stock market was higher for the day with some recovery fused to participate in the formal cere-in the specialties. There was some monies tonight when the chimes are to weakness in railroad shares but the be accepted, Run was 22,000 head, compared with 26,000 a year ago.

Kansas City hog market was 10c lower for the day with tops at \$8.95. Run for the day was 12,000 head.

Hog shippers today: J. H. Kelley, Wastuchna, 1 load; Hugh Cummings, Independence, 1 load, Halsey, 1 load; Fred B. Decker, Gervals, 1 load.

B & O. E. NEWEST PAPER RAILROAD OF NEW TAX

Proposed by Portland Incorporators.

(Salem Bureau of The Journal.) Salem, Or., Oct. 22 .- Articles of incorporation for the Bandon & Oregon Eastwith price cutting on all sides and the today, the incorporators being Roscoe C. is named as the principal place of business.

The company is organized to struct a railroad from Bandon, in Coos curry and Josephine to Eagle Point, in Jackson county, and also branch lines from Bandon to Marshfield, and from Bandon to Port Orford,

The articles also state that the purpose of the company is "to facilitate and to assist in the construction, building, extension, equipment and operation of any railroad line or lines in states of Oregon, Washington, California, Idaho and Wyoming."

Seattle, Oct. 22 .- A row in the University of Washington has resulted from the protest of certain students against the acceptance of the \$12,000 chimes presented by Alden J. Blethen, publisher of the Seattle Times, which they term a "tainted gift," An open letter referring to Blethen in scathing terms was on the press of the student publication, the University Daily. yesterday afternoon, when President Kane of the university ordered the whole issue suppressed. This aroused the students, and the open letter was printed in circular form and spread last night and this morning over the cam-

Andrew Eldred, editor of the paper, declares there will be no issues of the paper until the open letter is permitted to be run. The student board of control is meeting this afternoon to take up the question of having the paper printed downtown instead of by the university press. President Jerry Riordan of the student body has flatly remonies tonight when the chimes are to MILLER APPEALS FOR

Funeral of John J. Ott. Vancouver, Wash., Oct. 22 .- The fun-

eral of the late John J. Ott will be held at 10 o'clock tomorrow at Brush Prairie. A prayer will be said at Limber's undertaking parlors at 10 o'clock and the regular funeral services will be held at Brush Prairie by Rev. John Ovall, Interment will be made in the Brush

### SWINE AND MUTTONS ARE CAUSE OF WORRY Bandon to Eagle Point Line Is H. P. McCoy Returns to Portland After 5 Months' Stay

Single tax as a benefit to the laboring man appealed to H. P. McCoy of Portland, who has just returned from a ern Railroad company were filed here five months' stay in Vancouver, B. C. where he has been employed in elecbuying public unable to tell whether Nelson, N. D. Simon and J. V. Beach, trical installation at the new Swift The capital stock is \$100,000 and Bandon Packing company plant recently erected in that city.

in Vancouver.

"From my own observation," Mr. McCoy this morning, "and from what I learned in conversation with county, through the counties of Coos, Vancouver citizens, I am satisfied that single tax as it is applied in Vancouver is of inestimable benefit to the laboring man and business man alike.

"The general prosperity of the city is one of the most striking circumstances that immediately attract the stranger's attention, and the taxpayers or 'ratepayers,' as they call them thereb told me that single tax is credited with being responsible for the greater part of this prosperity. There is plenty of work for all classes of mechanics in Vancouver and the wages, with an elast hour day, are uniformly better there than in Portland.

"The city as a city is evidently prosaperous and progressive from the circumstance that the fire fighting apparatus of the city are all motor pro-pelled, and they have as much of it. with half the population, as we have in Portland. There are banks galors there, and the clearings all show that the people manage to accumulate some savings out of their wages.

"The streetcar company sells tickets at the rate of eight for 25 cents, these to be used from 7 to 9 o'clock in the morning and from 5 to 7 o'clock in the evening, the hours when the laboring men are going to and from their work. In every way, in fact, the condition of the working people is entirely satisfac-tory, and as I say, these conditions are all credited to the operation of the sin-"Vancouver is built up solidly. There

are no vacant corners and no churches nor residences in the downtown district. There is building of every kind going on, business houses, office buildings, and apartment houses, and there seems to be a steady demand for workers of all classes." Mr. McCoy says that the citizens of Vancouver have no desire whatever to

OLD DAYS OF JEFFERSON

try any other method of taxation, being

altogether satisfied with single tax.

Hood River, Or., Oct. 22 .- Senator M. A. Miller addressed a good sized audience at the commercial club rooms here last evening on the issues of the day, ncluding rule of the people, truste, tariff, campaign contributions, etc. pleading for the return of the government to the days of Jefferson and Jackson. His speech was well received,
