

BECKER INSISTS OWN TESTIMONY WOULD CLEAR HIM

Thinks Attorneys Blundered in Not Letting Him Go on the Stand; Calls His Conviction "Legal Butchery"—Broke.

(By the International News Service.)
New York, Oct. 26.—Charles Becker, the convicted lieutenant of police, in his cell in the Tombs, spent the greater part of the day talking with his relatives and John W. Hart, his attorney of record. Becker frankly stated that he has every confidence in the ability of his lawyers, but he thinks they blundered in refusing to let him take the stand in his own defense.
Becker declares he could have explained to the satisfaction of any jury his associations with Rose, which are believed to have had an important bearing upon the verdict. He also claims to be able to prove that his meeting with Rose, Webber and Vallon in Harlem concerning a matter which had no bearing on the alleged murder conspiracy.
"All you can say is to emphasize that my conviction is nothing but a legal butchery. I see that the newspapers say that my defense cost me \$25,000. This is \$2000 more than I ever possessed or ever will possess. This fact could have been proven if I had only been allowed to take the stand and tell my story. I will say that hardly any of what I did have is left and that little will not last very long."

CHAMPION ECONOMIST LIVES IN NEW YORK

The champion economist of the United States lives in New York. His success in saving and abstaining from needless expense is not at all lessened by the fact that he is an inventor. He wrote to G. E. A. Bond, manager of the Pacific Northwest Land Products show to be given in Portland November 18-23, what was the price for exhibit space at the show. Mr. Bond answered that exhibit space was 50 cents a square foot. The economist wrote again saying he wanted just one square foot to demonstrate a patent gate appliance of his own invention. He enclosed a money order for half a dollar.
"Thereupon Mr. Bond wrote the inventor, saying: "By careful measurement I find the foot room needed by the average man is but two thirds of a square foot. As we do not like to charge you for room you would not need, I take pleasure in returning to you order for 1 cent, and will reserve space as you request."
Contract is to be let at once, it was announced today for machinery hall at the land products show. The building will be put up on Belmont street, its dimensions 200 by 30 feet. The council has granted permission to close Belmont street so that the building may be erected adjoining the Oregon Moline Plow company building at East First and Belmont, where the main show is to be held. On November 9 the main offices of the show will be moved to this building and the work of installing the exhibits will be actively commenced.
A. P. Bateman, president of the Horticultural society, predicted today that the attendance at the Land Products show from out of Portland will be 20,000 people. He is certain that the exhibition of products there will be the greatest ever shown in the northwest. All over the country from which exhibits have been drawn interest in becoming, he says, more and more intense and there is a certainty of a really phenomenal attendance from beyond the city.

THINK WOMAN WAS KILLED FOR REVENGE

(United Press Leased Wire.)
Bridgeport, Conn., Oct. 26.—That the murder of Jennie Cavallieri, a young Italian woman, which occurred on a lonely road near Stratford, where she went with five men in an automobile recently, was an act of revenge upon her for having betrayed the secrets of "white slave" leaders is the belief of Captain of Detectives Arnold here today.
Arnold declared the five men implicated in the murder came to Bridgeport for the express purpose of killing the woman because she had betrayed the organization's code, which provides disfigurement or death to any person untrue or any woman who leaves the man who takes her earnings.
Every indication seems to link the woman with the "white slave" traffic in Chicago, New York and New Haven, according to the police. They also assert that the woman's death is connected with the recent "vice crusade" in Chicago.

FLIGHT ON FREIGHT TRAIN FAILS TO SAVE BOY OF 15

(Special to The Journal.)
Grants Pass, Or., Oct. 25.—Judge Jewell, who occupies the position of juvenile judge for Josephine county, left for Salem last night with Floyd Overstreet, a 15-year-old delinquent, whom he was taking to the state training school for an indefinite period. Overstreet was found guilty of having broken into a boxcar on the siding here and stealing various articles of merchandise consigned to local merchants. When Chief McLean attempted to arrest Overstreet the boy made a run for a freight train just pulling out of the yards, and boarding it, made his way as far as Merrill, where he was arrested. Young Overstreet has already served one term in the training school, and has been before the juvenile court on numerous occasions.

AVIATOR BRYANT COVERS FATAL PARMALEE COURSE

(Special to The Journal.)
North Yakima, Wash., Oct. 26.—Covering the same course that was followed by Phil Parmelee in his fatal flight June 1, Aviator J. Milton Bryant, of New York, this afternoon made two short exhibition flights in a Curtiss plane at the State Fair grounds. He was in the air 15 minutes in all and attempted nothing spectacular as he was feeling the air currents for more extended flights tomorrow.
