### GATEWAY FARMS GROW OWN APPLES

#### First Product of Crook Region Stimulates Planting of More Orchards.

(Special to The Journal.) Gateway, Or., Nov. 8.—The success of the many new orchards coming into bearing during the past two or three years in central Oregon, has acted as a great incentive in the ordering of fruit trees by the farmers of this section, one company from the Willamette valley having just delivered to the depot at this place, a shipment of young trees amounting to nearly 700.

These young orchards have supplied to their owners all apples for home needs, and in some cases the owners have had enough left for sale, which commanded a ready market. Plums and prunes, wherever planted, have also borne well in this section.

These apples have not only been of excellent quality and color, but are free from worms or other fruit pests.

One rancher about seven miles from this place, received the first prize on two varieties of apples at the International Dry Farming congress recently held at Lethbridge, Canada.

### EXPRESS RATE HEARING AWAITS U. S. ACTION

(Salem Bureau of The Journal.) Salem, Or., Nov. 8.—The hearing on express rates in this state, set for yesterday, was postponed until further notice by the state railroad commissioner in order to give the commission opportunity to ascertain the stand to be taken by the interstate commerce commission on its order creating express zones and a new schedule of rates. The four express companies were represented yesterday by E. M. Whittle, superintendent of the American Express company; Harvey Beckwith, general agent of the Wells-Fargo; M. G. Hall, superintendent of the western division of the Northern Express; L. Waring, superintendent of the Great Northern Express company.

### HOW TO DESTROY THE DANDRUFF GERM

By a Specialist.

That the dandruff germ is responsible for nearly all the diseases to which the scalp is heir, as well as for baldness and premature gray hair, is a well-known fact, but when we realize that it is also indirectly responsible for many of the worst cases of catarrh and consumption, we appreciate the importance of any agent that will destroy its power. We are, therefore, particularly pleased to give herewith the prescription which an eminent scientist states he has found, after repeated tests, to completely destroy the dandruff germ in from one to three applications. It will also almost immediately stop falling hair, and it has in numerous cases produced a new hair growth after years of baldness. This prescription can be made up at home, or any druggist will mix it up for you: Six ounces Bay Rum 2 ounces Lavona de Compose, one-half drachm Menthol Crystals. Mix thoroughly, and, after standing half an hour, it is ready for use. Apply night and morning, rubbing into the scalp with the finger-tips. If you wish it perfumed, add half a teaspoonful of To-Kalon Perfume, which unites perfectly with the other ingredients. While this preparation is not a dye, it is unequalled for restoring gray hair to its original color.

Caution: Do not apply where hair is not desired, and be sure to avoid tonics containing poisonous wood alcohol.

### GRAVEL FILL NOW SPANS EXPENSIVE LAKE LABISH

(Special to The Journal.) Chemawa, Or., Nov. 8.—Falling to find any trestle work secure against settling and loosening at the joints, the Southern Pacific company has made a gravel fill entirely across Lake Labish, a distance of almost a mile, thousands of tons of gravel being used for the purpose. This bit of road has cost the company a small fortune, having been watched constantly since the wreck 20 years ago, when a trestle gave way beneath a passenger train and several lives were lost and scores of damage suits brought against the company.

### WOODROW WILSON TO PAY OREGON A VISIT

Because of a promise made even before his nomination, one of the first trips Woodrow Wilson will make as president of the United States will be to Portland. Some time ago, Dr. Henry Collin Minton, president of the National Reform association, secured from President-elect Wilson the definite pledge that, whether he was elected or not, he would come to Portland next summer and deliver one of the addresses before the World's Christian Citizenship conference, the date of which is June 25-July 4.

Those who are in charge of arrangements have no doubt that Wilson will keep his promise. Dr. Minton has sent this message: "I am certain that Wilson will keep his pledge."

The world conference will also bring to Portland another man who was greatly concerned in the Democratic success last Tuesday. It is expected that at that time he will be secretary of state, but he has promised to come to Portland anyway. William Jennings Bryan, the man who was responsible for Wilson's nomination, in spite of the bores, has formally accepted an invitation to address the great gathering.

With the certainty of having the world's most prominent men as speakers, preparations for the month are being made on a scale that insures, it is said, the greatest gathering ever held in the west. Thanksgiving day all the Christian preachers of the world are to preach on the conference and its importance. On that day Portland will be the center of thought of the Christian universe. During the winter the date and place of the conference will be systematically advertised everywhere.
