

# BEAUTY MARRED BY OLD SHACKS

## Dignity of New Court House Lessened and Fire Danger is Pictured Out.

That the costly new courthouse is endangered and lessened in dignity by the wooden shacks that surround it, and that the fire danger at Portland's public buildings and hotels is doubled by reason of violations of the law requiring exit doors to open outward, were assertions in addresses by E. M. Underwood and Judge Robert G. Morrow before the monthly meeting of the Credit Men's association at dinner at the Metropolitan hotel last night.

### Fire Danger Seen.

Judge Morrow said the Good Samaritan hospital, Portland hotel, Y. W. (Y. A.) and other well known buildings have doors opening inward in violation of the city law. He said that the Y. M. C. A. conforms to the law at its main entrance, but that the Taylor street entrance opens inward only. He condemned as a fire menace a high board wall on Jefferson street. The address

# LESS BOWEL TROUBLE IN PORTLAND

Portland people have found out that A SINGLE DOSE of simple buckwheat bark, glycerine, etc., as compounded in Adler's, the German bowels and stomach remedy, relieves constipation, sour stomach or gas on the stomach INSTANTLY. This simple mixture became famous by curing appendicitis and it antiseptizes the digestive organs and draws off the impurities. It is surprising how QUICKLY it helps. The Richmond Drug Co., 151 Third street.

had been preceded on the part of Judge Morrow by a personal investigation of conditions.

The Credit Men's association, together with the 80 other organizations of the kind throughout the United States, said Mr. Underwood, is engaged in promoting fire prevention measures. The method is by arousing the people to the necessity of doing away with the fire hazards.

The meeting last night was presided over by President Knapp of the association. He submitted two resolutions for adoption—that approving Joseph N. Teal for appointment as secretary of the interior, and another strongly condemning the attack on the Y. M. C. A. Both were unanimously adopted, expressions from the resolution concerning the Y. M. C. A. reading as follows:

"The recent scurrilous and infamous attack made on the local Young Men's Christian association by the News, an alleged newspaper published in Portland, is strongly resented and is sincerely deplored by the Portland Association of Credit Men.

"The Portland Association of Credit Men regards the Young Men's Christian Association as one of the bulwarks of honest commerce and good citizenship, and from every viewpoint—ethical, moral, educational and commercial—it is regarded as one of the most valuable institutions in the world. In the struggle of the associations of credit men throughout the country for the betterment of conditions along ethical and educational lines and for moral advancement, the Young Men's Christian Association is considered as one of the strong allies of the credit men, and the local Y. M. C. A. is one of the best in every respect.

"The directors, officers and members of the local Y. M. C. A. have the entire confidence and respect of the Portland Association of Credit Men."

# INSURGENTS IN NATIONAL GRANGE

## Affairs at Spokane Somewhat Resemble Some June Days at Chicago.

Spokane, Wash., Nov. 21.—Battle lines are being closely drawn between conservatives and insurgents in the National Grange, now holding its annual convention in Spokane, and decision on a number of vital questions will be reached.

One of the principal demands of the insurgents is reinstatement to membership in the national body of George B. Hampton, of New York, and James Helm, of Michigan. While the executive committee, the "regular" authority, was meeting in one hotel, a caucus of insurgent delegates, under the name Conference of Progressive States, held a session in another hotel, presided over by State Master W. T. Creasey, of Pennsylvania.

The conference is making a determined campaign to secure revocation of a rule adopted at the Columbus convention last year, empowering the National Grange to expel members from subordinate granges.

The first victory for the insurgents came in the unanimous adoption of a resolution congratulating states that have gained suffrage to women.

One of the important acts of the convention is adoption of a recommendation that immediate steps be taken to secure physical valuation of all railroads in the United States, upon which valuation freight rates may be based. Postal express and government ownership of telegraph lines also was favored by the adoption of a report of the transportation committee, headed by State Master C. B. Kegley, of Washington.

National Master Oliver Wilson, of Illinois, reported that in a little more than a year \$18,000 had been devoted to extension of the grange.

"The use of this fund," said Mr. Wilson, "has accomplished more this year than in any year since 1870. One new state, Montana, has been organized, and Wyoming is about ready to follow. It

is likely the same extension work will continue the coming year."

New Hampshire was awarded the next annual convocation. The grange has decided to end its sessions tomorrow night.

# HOOD RIVER WILL HAVE DAY AT SHOW

Tomorrow night will be Hood River night at the Pacific Northwest Land Products Show. A special delegation from Hood River will arrive here tomorrow morning to augment the Hood River forces already here, and a special program, including many unique features, will be presented by the Hood River people in addition to the regular program provided by the show management.

"The program is being completed today and it is said it will be perhaps the most interesting of the show so far. J. F. Batchelder and R. E. Scott, secretary of the Hood River Commercial club, are at the head of the Hood River delegation.

"The Hood River Commercial club has two exhibits at the show," said Mr. Batchelder this morning, "and we are intensely pleased with the success. On the main floor we have the general agricultural display, put up in the shape of a country store. It contains everything raised in the Hood River valley, including byproducts, such as preserves, jams and jellies. On the second floor we have the artistic apple display before a background in the shape of a relief map showing the valley and Mount Hood and all the topographical features."

### Citizens' Ticket Wins in Dayton.

(Special to The Journal.) Dayton, O., Nov. 21.—City election was held in Dayton, Monday, and the following officers were elected on the Citizens' ticket: Edward H. Wadway, mayor; W. H. Tucker, recorder; O. B. Rippey, treasurer; J. G. Lewis, marshal; and for councilmen, James Borryhill, L. J. Shippey and H. H. Burnham. Many women of the city exercised their right of franchise and Mrs. R. E. Harris holds the distinction of being the first woman to vote, under the new law, in the state of Oregon.

# ASK WAGON ROAD TO MARBLE CAVES

## Hotel Men Want Josephine County's Natural Wonders Made Accessible.

(Special to The Journal.) Grants Pass, Or., Nov. 21.—"See America First, especially Oregon," is the slogan of the Oregon Hotel association, and at a recent meeting of members of the committee on legislation of the association held in Portland, a movement was started to make the Oregon marble caves, located in Josephine county, more accessible to tourist travel.

"These caves are 90 miles from Grants Pass, the nearest railway point to the great natural wonder. For 20 miles there is an excellent road over which an automobile can travel at nearly all seasons of the year. The last few miles of the distance must be made over pack trail, however, and it is this fact that keeps many tourists from visiting the caves.

The State Hotel association will attempt to interest the coming legislature and will ask for an appropriation for the completion of the wagon road. To this end the hotel men have adopted the following resolutions:

"Whereas, it is the policy of this association to aid in every legitimate way the spreading of the propaganda of 'See America First, Especially Oregon.' Resolved, That the legislative committee of this association be instructed to confer personally with such members of the legislature as they may be able to reach, and others by mail, looking to the building by the state of a highway from the most convenient point on the Southern Pacific railroad to the caves of Josephine county."

# BIBLE BEST GUIDE FOR NEWS STYLE, SAYS PIPER

(Special to The Journal.) University of Oregon, Eugene, Or., Nov. 21.—"If you want to know how to write a news story, read the Bible."

This was the advice given by Edgar B. Piper, managing editor of the Oregonian, to the students of journalism at the university. The editor's address formally opened the new department of journalism at the university. As part of this opening address he read a whole chapter of the Bible. His point was that the secrets of newspaper style were known almost 3000 years ago by those who wrote the Bible.
