CARLOADS OF BANANAS ARRIVE IN TIME TO FILL THE IMMEDIATE NEEDS

Threatened Shortage Is Narrowly President of Oregon Dairy Associa- Few Sales Reported Up to Noon To-Averted; Oranges Included in Receipts From California This Morning; Eggs Move Slowly.

Bananas and oranges arrive. Salmon scarce and higher. Egga moving slowly. Butter and cheese steady. Dressed pork steady. Poultry steady.

Business opened in good shape on Front street this morning, with indications favorable for activity in all lines during the week. The only duliness noted this morning was the egg market, which has been dragging more or less for several days. A year ago egg quotations were lower than today by several cents, and there is some possibility of a decline, although some dealers do not regard this as probable. At any rate the market shows some weakness at prevailing quotations, ranging from at prevailing quotations, ranging from 40 to 42½ cents for the best candled Oregon stock.

BALMON SCARCE

Wholesale fish dealers report salmon scarce and higher, the wholesale price today being 16 cents for silversides and 12 cents for steelheads. And it is said that even at these prices there is less profit than a few days ago when the quotations were 9 and 10 cents. The change in the situation is attributed to the big demand for fish to supply the freezing establishments who are paying big prices.

POULTRY STEADY

While some stock was carried over a Saturday, the poultry market was tried steady this morning, with young birds at 12 cents. The supply of ducks is about equal to the demand, and there are some live geese and turkeys in the market. A few dressed turkeys, too, are to be had on the street,

BANANAS AND ORANGES

few carloads of bananas and oranges arrived on Front street this morn-ing. The arrival of bananas was timely because the supply was rapidly running low. The stock was in very good shape. The oranges were of the havel variety. Japanese oranges have been arriving here for several days.

makers association, and they are preparing for a larger number of exhibits than ever before.

"Under the present methods the dairy man's work is to produce milk or cream for the factory or for direct consumption. His skill is shown by the quality of the raw product he produces, and since present day practices have taken away from him the task of making the should be to produce the very best milk for cream possible. To stimulate the work of improving the raw product the scoring contest of milk and cream has been arranged, the details of which together with the prizes offered, will be announced soon.

"It is a lamentable fact that at the recent dairy show, held at the Union Stockyards, Portland, where prizes were also offered for milk and cream as well as for other dairy products, not a single sample of milk or cream was sneed by any Oregon dairyman. This may be accounted for by the fact that it was new, it beling the first scoring contest of milk and cream ever held in the state.

"Rules and announcement of prizes offered will be published in the various farm papers in time for the contest but to make doubly sure that you will be informed write at once to the secretary, F. L. Kent, Corvallis, Or., secretary,

English country markets steady. French country markets steady.

Wheat continues arriving here at a lively rate from the interior for shipment, the quantity so far recorded being almost one third greater than up to the corresponding time last year. Barley receipts for the season so far are greatly in excess of those of last year, and as for oats, receipts have been a little less than 100 cars in excess of the number received here up till this dats a year ago. Receipts of hay are lighter here by about 500 cars than up to this time last year. Dealers, however, say that the supply is equal to the demand for the present. A falling off in hay receipts is attributed to some extent to the car shortage, every available tent to the car shortage, every available

tent to the car shortage, every available car being pressed into service to handle grain shipments to tidewater.

New York, Dec. 2.—The best authorities look for a slightly more active market during December, with a tendency toward increasing firmness. One of the leaders on the conservative side made the prediction Friday that movements would assume great breadth immediately after the new year and that values then would begin to reflect the enormous crops, great industrial activity, increased railroad earnings and the ty, increased railroad earnings and the business expansion which are being re-corded in the current commercial re-

ports.

OREGON ELECTRIC FILES NEW TARIFF; NEW RATE LAW MAKES IT INVALID

First Formal Conflict Comes as Result of Perplexing Initiative Measure.

(Salem Bureau of The Journal.) Salem, Or., Dec. 2. - The inevitable clash between the state railroad commission and the railroad companies of oregon was precipitated today when the Oregon Electric attempted to file a new freight tariff not in conformity with the Medford freight rate bill, passed by initiative vote of the people at the recent election. The new tariff contained the existing rates of the Oregon Electric, but in addition showed rates over the company's extension from Al-bany to Eugene. The commission refused to file it and is returning it to the company with notification that it does not conform with the Medford rate bill, which so far has puzzled

As this measure has been in effect O'Connell, first vice president, were since election day, every railroad that mitted to President Taft by Samuel has shipped a carlead of freight in violation of the act is subject to a fine son, secretary of the A. F. of L., as of \$100 for each carload. This especially suggested labor members of the new pertains to shipments of groceries, as there is remarkable reductions in rates on this class of carload shipments. In order to enforce the new law or ferred with President Taft Friday, is get it into the courts for interpreta-believed to be President Taft's choics tion, it is likely the railroad commission will at once ascertain what carload shipments have been made contrary to the new rates and bring a grist of suits. At the rate of \$100 per carload, if the fines should be col-

lected, they would amount to a tidy Rate experts here declare that the railroad companies are almost helpless in trying to make freight tariffs in conformity with the new law, as they declare it is practically impossible, but at the same time the railroad commission is taking a determined stand to attempt to enforce the law. The legislature may repeal the meas

"DYSPEPSIA CURE" PUT ON PORCH; BOYS EAT IT

Vancouver, Wash., Dec. 2 .-- A tributor of patent medicines passed the home of Mr. and Mrs. V. H. Limber, 1111 Main street, a few days ago and tossed a package of sugar coated tabets onto the porch. The two little Limber boys, 21/2 and 1 year old, respectivey, wert playing on the porch and when Mrs. Limber appeared later the children were devouring the last of the pellets. Dr. Chalmers was summoned and administered an emetic, which undoubtedly saved the lives of the children. The package was labeled "Dyspepsia Cure."

REAL LIFE TRILBY IS WONDER OF DOCTORS

(United Press Leaved Wire.)
Philadelphia, Pa., Dec. 2. - Physiscians and nerve specialists are much interested in the peculiar case of 14-year-old Margaret Varley, who, while in a state of coma, sings like a prima donna but who in her normal state cannot sing at all.

Three years ago the child was frightened into a hysterical fit when she awakened to find a negress standing over her bed. From hysteria she lapsed into coma and has since been subject to frequent attacks. When in them she sings divinely.

The Louvre famous for its high class entertainment! Philip Pels and Russian court orchestra; Harry Glynn, barltone; Mrs. Philip Pelz and Helen Horn, soloists. Nightly, 6 to 8, 10 to 12.
