

HOW TO BE AN AFTER-DINNER SPEAKER--PROFESSOR SPECKNOODLE WILL SHOW YOU HOW IN ONE LESSON

I DON'T KNOW WHY OUR TOAST-MASTER SHOULD CALL UPON ME WHEN WE HAVE SUCH A DISTINGUISHED ARRAY OF TALENTED ORATORS PRESENT AND I AM SO UNACCUSTOMED TO PUBLIC SPEAKING--(ETC.)

I AM REMINDED ON THIS OCCASION OF A FUNNY STORY ABOUT TWO IRISHMEN, PAT AND MIKE, WHO YOU PROBABLY ALL HAVE HEARD OF AND I AM A POOR STORY TELLER I FEEL THAT I MUST TELL IT--

HAVING NOW THROWN A SOP TO OUR MORE FRIVOLOUS NATURES LET US CONSIDER SOME OF THE DEEPER ASPECTS OF LIFE--

---THUS WE COME FACE TO FACE WITH THE FACT THAT OUR FUTURES LIE ALL BEFORE US AND OUR PASTS ARE BEHIND US--WHAT, IF ANY, IS THE REMEDY--

NOW I KNOW THERE ARE NUMEROUS GREAT SPEAKERS TO FOLLOW ME, YET MY HEART IS SO FULL OF THIS SUBJECT THAT I CANNOT CLOSE WITHOUT REPEATING A FEW VERSES OF POETRY ALONG THIS SAME LINE OF THOUGHT

1--ALWAYS APOLOGIZE TO YOUR AUDIENCE AT THE FIRST--THEY MAY NOT BE THERE WHEN YOU HAVE FINISHED

2--ENGAGE THEIR ATTENTION WITH SOME CLEVER THING NOT OR STORY

3--A VERY FEW SPEAKERS WILL THEN SIT DOWN BUT IT IS NOT AT ALL CUSTOMARY

4--THE MORE ACCEPTED FORM HOW EVER IS TO HARASS YOUR AUDITORS FOR A COUPLE OF HOURS

5--INDICATE THAT YOU ARE THROUGH BY A RECITATION OF POETRY--IF THIS DOES NOT FINISH YOU AS A SPEAKER YOUR CASE IS HOPELESS

The News of Sunday and Sunday Night

Resume of Yesterday's Events Briefly Paragraphed for the Entertainment of the Busy Reader.

Political. Representative Mann of Illinois, who recently visited the Panama canal, is so enthusiastic over the achievements of Colonel Goethals that he will introduce a bill in congress making the Panama engineer a full general in the army with rank corresponding to that of a major general in the navy. The promotion will be for life and will not subject Colonel Goethals to retirement for any cause. All of the Idaho constitutional amendments voted on at the recent election were adopted, according to the figures given out by the state board of canvassers. The vote in favor of the referendum was 42,677; against, 13,464. In favor of the initiative, 38,921; against, 15,877. In favor of the recall, 25,337; against, 14,894. Less than half the voters expressed themselves on the amendments. The movement to bring about the recall of Mayor Alexander of Los Angeles has been abandoned as suddenly as it was begun. The explanation for the discontinuance of the movement was that there was insufficient support, although it was said that the 6000 signatures had been obtained in the brief period in which the petitions were circulated. Chairman Sulzer, of the foreign affairs committee of the house and governor-elect of New York, in a statement Sunday said that a new treaty with Russia was being negotiated and that the United States would "take no step backward" on the question of discrimination against American passports. Women will take a prominent part in this month's city elections in Massachusetts. More women probably will go to the polls than ever before, although the law permits them to vote only for school board candidates. The present restriction is nearly double that of former years.

Eastern. Robert Smille, president of the British Coal Miners' Federation, made an address Sunday at the Chicago Federation of Labor, in which he declared the nationalization of the coal mines and

for the ensuing year, Saturday night, and were met by defeat by the vote of a vote of 21 to 10 in the United States district court of Southern California. Suits pending against the company involve title to land aggregating in value, according to government estimates, \$1,000,000,000. In all cases the government contends that the company sought grants of land which it knew privately to be mineral lands. Solar research at the Mount Wilson observatory nearly caused an epidemic of hysteria last week among the scientists connected with it, all because a mouse with an exploring turn of mind got into the bellows of the spectrohelioscope. Large sun spots were recorded, which nearly caused a panic among the scientists, and it was not until Sunday that the mouse was discovered and exterminated.

Miscellaneous. A cabinet crisis has arisen in Japan over refusal of the minister of war, Lieutenant General Iwano, to accept a cabinet decision rejecting the scheme for increasing the military forces in Korea. James Haughey and George Strakal were so badly burned that they will die when the contents of a ladle containing four tons of molten copper was accidentally spilled upon them at the Washoe smelter at Anaconda, Sunday. Searching parties are scouring the North Fork of the Kettle river in British Columbia, in search of Jesse Blaylock of Cunningham, Wash., and John Keeling, who became separated from hunting parties. They have been missing over a week. The Colorado & Southern and the Denver & Rio Grande railroads have sent notices to all persons concerned recalling passes outstanding. The notice recites that the roads have been indicted by the federal grand jury for free transportation good only through the state to persons or firms making or receiving interstate shipments. With two vertebrae of his neck fractured, George Walker, a member of the University of New Mexico football team, arrived in Tucson, Ariz., Sunday night from Tucson, Ariz., where on last Thursday the New Mexico university played Arizona university.

The steamer River Meander, New York for Naples, has been abandoned at sea and probably has foundered. Her captain and crew of 30 men were on board the steamer Iktal, which entered Halifax harbor Sunday night. The new system of paying all persons on the federal pension rolls direct from Washington instead of through the 18 pension agencies is being inaugurated by the pension bureau. Checks are being sent \$50,000 pensioners in the sections heretofore covered by the agencies. Fletcher Preston, who represented himself as a private detective, was locked up in the city jail at Salt Lake City Sunday night, after he was said to have offered to sell Alfred Gordon for \$50,000. Gordon recently was tried and acquitted on the charge of killing Thomas McQuinn last spring.

Six miles of grade at the upper end of the branch is ready for the steel, and only two weeks' work is required to finish the heavy rock work through the glen at Priest Rapids. It is expected by officials of the road that the road will be ready for train operation about the first of February.

(Special to The Journal.) Cottage Grove, Or., Dec. 2.--The funeral of Henry Destel Lincoln, who died Wednesday, was held yesterday under the auspices of the I. O. O. F., of which he was a member. The ceremonies were conducted by Rev. T. J. Moore. Burial was in I. O. O. F. cemetery. Mr. Lincoln was born in Springfield, Mass., July 1, 1870. He moved to Iowa with his parents in 1878, and to Oregon in 1889, living on a farm west of this city until 10 years ago, when he went into the meat market business. He was married December 23, 1894, to Miss Dora Rice. His widow survives him, but is herself near death's door. The mother, Mrs. Mary J. Lincoln, survives, and there are three sisters. Pacific Coast. Confronted by two masked highwaymen, each armed with a revolver, five girls were saved from being robbed near Spokane Sunday night, when Miss Katherine Langlois, aged 19, who was driving the buggy in which they were riding, lashed one of the outlaws across the face with her whip. The highwayman cringed under the blow and fled into the brush. Skamania county, Washington, went dry at the recent election, and as Stevenson is the only incorporated city in the county, was not included in that vote, and the city did not realize until it was too late to include local option in the coming city election, December 2. However, the drys called a convention to nominate a dry council

Brogan of Brogan, this county, has just returned, after six months in Philadelphia, Pa., and brings back with him a party of eastern capitalists, whom he has interested in Malheur county irrigation enterprises. With his return it is assumed that all work planned on the Bully creek project will be completed on schedule dates, and that water on the 30,000 acres tributary to Vale will be available to settlers by the spring of 1914.

HOT WINLOCK ELECTION CENTERS UPON LIQUOR

(Special to The Journal.) Winlock, Wash., Dec. 2.--Winlock is having a strenuous municipal campaign. The city went dry at the last election by a two to one vote, and the drys are wanting a dry council elected for the ensuing term, and the wets are just as anxious to have a wet council. The drys called a caucus and the wets came in and prepared the nomination of one wet councilman. The wets then called their caucus for Friday night, nominated a ticket of the necessary dampness, then went to bed and slept over it. The next morning they went to the city clerk to file their certificate of nomination, but were met there with a dry delegation, who objected to the certificate being filed, for the reason that it was less than the statutory three days before the election was to be held. On the advice of the city attorney the clerk refused to file the petition. The wets secured an attorney and threatened mandamus proceedings. The wet ticket is: Councilmen, Clyde Kennedy (Indorsed), A. Nutria and W. L. Morgan; treasurer, George P. Wall. The dry ticket is: Councilmen, Walter Toy, P. J. Erckenbrack, Clyde Kennedy; treasurer, Jake Yanson. Altogether the election promises to be an exciting one, and one that will be a record-breaker as to the number of votes cast.

Julius Kessler Reiterates His Proof
"THE WORLD'S FINEST WHISKEY" has again scored an incontestable victory.
For months we have reproduced in these columns the undisputable proof without even a whisper of denial from The Trade that the "highest quality and oldest bottled in bond whiskey on the market is W. H. McBRAYER'S CEDAR BROOK 2,956,944 (Bottles) Bottled in Bond 1911
--Most whiskeys bottled in bond are only 4 to 5 years old.
--More 7 to 8-year old W. H. McBrayer's Cedar Brook Whiskey was bottled in bond (2,956,944 bottles) in 1911 in our one Cedar Brook Distillery than all other brands combined, including all advertised popular brands made in Kentucky, Maryland, Pennsylvania, and all over the U. S.--bar none.
--Cedar Brook is therefore the oldest and best on the market.
