

### GIVES HIS ADVICE ON SPENDING ROAD MONEY

H. A. Darnell, state road lecturer, in an address given at the Evening Star luncheon meeting last Saturday night, declared that he opposed the road plan proposed by the general grange committee, and insisted that the proceeds should say where the money appropriated for road building should be spent. Each locality is better informed on the immediate needs of the community, he said. The meeting was held at the Section Road hall.

Other matters regarding taxation and issuance of bonds were discussed by the speaker. He declared that he doubted the wisdom of issuing bonds.

The annual election of officers of the grange was held at this meeting and the officers will be publicly installed the first Saturday in January. J. J.

Johnson was reelected master for the tenth time. Other officers elected are as follows:

Governor, E. J. Spooner; lecturer, Mrs. Marian Nelson, reelected; assistant lecturer, Mrs. E. A. Niblin and Miss Will-da Buckman; steward, W. N. Green; assistant steward, Mrs. J. M. Hickoy; secretary, Mrs. Jennie R. Smith; treasurer, Mrs. Emma Spooner; Ceres, Mrs. E. A. Niblin; Pomona, Mrs. Lela Elliott; Flora, Miss A. Davis; executive committee, S. H. Covell and E. M. Emery; pianist, Miss Minnie Altman, and assistant, Miss Clara Smith.

### WILL DECIDE ELECTION CONTEST TOMORROW

Circuit Judge Morrow announced that he will decide the motion to quash the contest proceedings instituted by Municipal Judge Taswell against Judge-elect George N. Davis tomorrow morning. Attorney Henry St. Rayner, representing Judge Taswell, submitted a 14 page brief in support of the contest proceedings.

### POINTS OUT NEED OF BETTER DOCK SYSTEM

"We have the most criminal waterfront in the United States if not in the world," declared Ellis F. Lawrence in an address before the Electric club in the auditorium of the Electric building last night.

"It is a crime against the commerce of the Port of Portland. It is a crime against the development of the city. There can be no greater trade extension, there can be no Greater Portland, with such a waterfront."

Views were shown of Portland waterfront scenes—tottering wooden docks; wharf rats' nests, antedated wharfage facilities. Then in contrast, the magnificently developed water terminals and river fronts of European and some of the American cities. The views were recently made of the Portland waterfront and show conditions as they exist today.

Mr. Lawrence said it is a function of the Greater Portland plan to develop the waterfront, give it both utility and beauty. He showed many views illustrating the plan of improvement, and then contrasted its solid betterment with the evil conditions that the people permit today.

He quoted from an address delivered by President Peurose of Whitman college in a recent address in Portland, these words: "I do not know whether you people of Portland have brains enough to recognize the need for a guide for future building of the city."

"That Portland is the first city in the United States to adopt a plan for future growth by popular vote, was asserted by the speaker."

The growth of the city, said Mr. Lawrence, is a menace, if care is not taken to prevent congestion, slums and to increase park area, the convenience of transportation and shipping.

### ASKS ADVICE RELATIVE TO COUNTY PRISONERS

As the result of the passage of an initiative measure at the last election which apparently gives the county court the control of all county prisoners sentenced to labor, the commissioners today addressed a communication to the district attorney asking his opinion in regard to the limits set upon them by the new law. They want to know whether the law gives the county custody of the prisoners at Kelly Butte, whether the court has to provide their food, and has authority to direct how the prisoners shall be taken to the prison from the county jail. They also want to know whether it is the duty of the sheriff or the court to convey the prisoners from the jail to the Butte and if the sheriff has any control over
