STREET IN WINTER QUARTERS

Front street went into winter quarters today and very little business passed on the sidewalk. Owing to the cold weather some of the houses have been compelled to keep their fires going all night.

CHEESE MOVEMENT GOOD

There is a very good movement in the cheese market. A message from Tillamook from Carl Haberlach secre-tary of the association, says that conditions are good and as the east is quot-ing firm figures, the outlook for prices is not bad.

Sales of a few carloads of Oregon markets by W. I. Swank, selling agent of the Confederated Onion Growers' asociation. The minimum price is still being held at 75c per cental at country shipping points.

GOOD FOR MEAT SALES

Dealers report a better feeling in the dressed meat situation for country killed offerings today. While the tone of the market has been rather good recently, the cool weather of the last few days has stimulated the call to a con-siderable extent. Prices are showing more strength, but are generally un-changed at the range quoted on Satur-

TO HELP CLEAN STOCK

by Trade Generally-Season to Date Has Been Unsatisfactory to Shippers and Sellers.

Weather conditions are expected to be an aid toward cleaning up some of the surplus in the local apple trade. Receivers have been wishing for a cool spell that would stop shipments for a time and thus allow the market to be placed upon a normal basis. Since the season started there has been no time when apples were not in too heavy supply for the demand, and prices have accordingly suffered.

Regarding the foreign apple situation. Tomand for hops good.

Cooler weather was a first aid to the local erg situation today, and while it is too early to forecast properly what the outsome will be, higher prices were quoted as a general rule along the street coday.

Dealers that were quite anxious to bean up their holdings on Friday or Saturday at 30c a dozen for candled stock are now asking 32c, while others are asking from 32c to 32c.

The weather had much to do with the more liberal buying in the local erg market during the day. Retailers, too, hold better than for some time, and up roots enter about the collection of the collection

The market, while firm in the steer division, with the highest prices ever obtained in effect, was still firmer for the other lines. Bulls came forward rather freely and the way that buyers took hold of offerings was a surprise even to those that had believed in the strength of the trade's position. During the morning bulls sold up to \$5.50 for best offerings. There were no first class offerings in the cow division, therefore prices in that line did not show the great height reached by others.

The market remained very strong in the youngster division of the cattle

The market remained very strong in the youngster division of the cattle trade. Only a few calves have come forward recently, but tops are being eagerly sought at \$3 by local killers.

At Chicago there was a weaker tone in the cattle trade, with prices quoted a shade lower. Run for the day included 29,000 head.

Kansas City cattle market again attracted considerable weakness, with an offering of 13,800 head for the day.

Prices generally were 10c to 15c lower than last week.

There was another firm market for sheep in the North Portland yards during the day. Arrivals over Sunday were rather liberal, totalling 2124 head, compared with 923 a week ago and none either a year or two years ago. A year ago the "silver thaw" tied up the railroads, therefore shipments could not

Shares Cannot Be Secured by its Kolders,

New York, Jan. 6 .- Several decisions were given out by the supreme court to-day which had an effect upon the stock market, principal among which was the Union Pacific-Southern Pacific case. The court held that Union Pacific could not distribute Southern Pacific shares

to Union Pacific stockholders. The stock market was under heavy pressure today, closing with a sharp loss in all of the specialties. Trading was not so active, only 248,-300 shares being sold up to 2 o'clock.

LARGE CONDENSARIES

Pacific Coast Company Gives 25c Off Bids of Millers Strong at 80c for to City Trade, But Country Is Forced to Pay Full Price-Pioneer Makes Uniform Rebate.

With canned mak prices being shaded by the big condensary companies on account of the record operations during the dull months, there is little indication of any improvement in the situation during the remainder of the season.

The Pacific Coast Condenced Milk company has recently placed a new selling basis on the market. While its quotations on Carnation are unchanged at \$3.75 per case of four dozen tins, the company is allowing a rebate of 25c a case on all Portland business, which places the city list really at \$3.50. On the other hand, it is making no change in the price for out of town business, country interests being discriminated against to the amount of the rebate allowed the city buyers.

The Pacific Coast Condenced Milk the leading districts but little snow has fallen and there is practically no covering to protect the grain.

against to the amount of the rebate allowed the city buyers.

The Borden Milk company has placed a rebate of 15c on a case on its sales of Pioneer, although nominally the list price is nominally continued at \$3.75 by the company and jobbers. Nevertheless all business in that brand is being done at a reduction of 15c, which really means a net price to both city and country buyers of \$3.60.

Naming of rebates in the canned milk trade at this time is a condition that is just the reverse of what actually occurs here during normal seasons. At this time prices are generally booming.

San Francisco Grain Calls,

San Francisco, Jan. 6.—Grain calls:

While there was a rather firm tone in the wheat market here today, and buyers were freely bidding the extreme figure for both club and bluestem. The former was quoted on the track basis of 80c a bushel, while the bluestem found eager bids at 85c.

While there was only a few small sales reported, buyers, especially millers, were very eager to take hold. Indications were seemingly for a further advance in the price unless there is a change in the foreign situation. change in the foreign situation.

There was no change in the price of patent or export flour during the day, but both of these lines were quoted firm at previous figures.
