

# DAIRY INDUSTRY IS ENDANGERED BY COURT'S DECISION

## Unconstitutional to Prosecute Man Who Brings Tub Butter From Michigan, Labeled Made in Oregon.

The supreme court's decision that it is unconstitutional to prosecute the creamery man who brings butter from Wisconsin in a tub here to be sold under a dairy wrapper as "Made in Oregon," clears the way for sending \$7,000,000 of Oregon money annually away and continues the opportunity to deceive the people, according to the biennial report of the Oregon dairy and food commissioner, J. W. Bailey, now succeeded by J. D. Mickie.

It is predicted that if the practice continues the dairy industry of Oregon will be destroyed, because Oregon dairies cannot compete with the cheap tub butter, renovated after reaching Portland and sold at the high market rate.

### Will Paralyze Industry.

This, in its turn, it is stated, will paralyze development of Oregon, because men will not attempt to operate dairies and subside land who make a loss of it because of unfair competition.

The report states that during two years the dairy industry has made material gains in the state, that food regulations have been successful in keeping nearly all adulterated stuff off the market, and that the embalming of meat is almost a dead practice. Prosecution of vendors of adulterated lard has compelled some necessary reforms. Inspection of dairies has been less in number and efficiency than during years previous, and this is charged to the fact that the dairy commissioner's inspector only worked half of the period. But three dairymen were fined for dirty dairies and separators.

### Many Prosecutions Successful.

One section of the report is occupied by the report of the chemist, A. S. Wells, who made a large number of examinations of food products during the two years, and another section is occupied by reports of Deputies Dunham and Nelson.

Bailey credits himself during two years with 123 prosecutions, of which 115 were successful. Fifty-nine condemnations were made during prosecutions, of which 23 were dairies, and which resulted in the condemnation of 18 cans of cream, 3 veals, 3 slaughter houses and 2 boxes of grapes, together with the confiscation of 6 milk pails, as the work of the dairy and food commissioner in two years.

## WOMAN VICTIM CAUSES ARREST OF SALESMAN

W. B. Proctor, claiming to be a jewelry salesman, was lodged in the county jail yesterday upon his return from San Francisco, where he was arrested for defrauding Mrs. Louise Stevens of Portland out of \$600. The man is genteel, about 50 years old, using his clever manners to win the hand of the woman, who now complains against him. Proctor last week asked Mrs. Stevens for the money, saying he would purchase tickets for them to California, going there to be married. The money was given over. Instead of securing two tickets, Proctor boarded the steamer Elder alone. He did not return that evening, whereupon the detective department began investigating. They found he had taken the boat. San Francisco officials were notified to arrest him. Captain Baty of the Portland bureau went after him. His reports have reached the detectives that Proctor has worked the same game with other women on the coast.

## AUTOMOBILE ACCIDENT FATAL TO AGED MAN

As a result of injuries sustained New Year's eve, when he was struck by an automobile while crossing Morrison street near Seventeenth, P. W. Taggart, 65 years old, of 569 Marshall street, a resident of Portland for 25 years, died at the Good Samaritan hospital yesterday afternoon. His death came shortly after the arrival of his daughters from Spokane, who came here when it was learned that his condition was serious. Funeral services will be held Thursday morning from St. Mary's cathedral and burial will be in the Mount Calvary cemetery. Mr. Taggart was born in 1847 in Ireland, where he lived for 20 years before coming to New York. In 1877, a few years after his marriage to Mary Ann Costello, he came to Portland and engaged in contracting and building work.

## 25 CENT "DANDERINE" FOR FALLING HAIR AND DANDRUFF—GROWS HAIR

Don't pay 50 cents for worthless hair tonics—Use old, reliable, harmless "Danderine"—Get results.

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scurf. There is nothing so destructive to the hair as dandruff. It robs the hair of its luster, its strength and its very life; eventually producing a feverishness and itching of the scalp, which, if not remedied, causes the hair roots to shrink, loosen and die—then the hair falls out fast.

Get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter, and after the first application you will say it was the best investment you ever made. Your hair will immediately take on that life, luster and luxuriance which is so beautiful. It will become wavy and fluffy and have the appearance of abundance; an incomparable gloss and softness, but what will please you most will be after just a few weeks' use, when you will actually see a lot of fine, downy hair—new hair—growing all over the scalp.

## 26,000 Rabbits Killed in Drive on 640 Acre Tract in Harney

Scenes of recent rabbit drive in Harney county. Top—Crowd assembled near Burns, just after successful drive. Dead rabbits are shown in foreground. Center—Animals being herded by horsemen and footmen. Bottom—Another view taken after drive which netted 5000 of the little pests.

Great fun attended the recent rabbit drives in Harney county, said George W. Young, who came as a delegate to the irrigation congress, which closed Saturday.

"Two hundred people joined in the four drives which were held on one section at intervals of a week," said Mr. Young. "There were a dozen horsemen and the rest were on foot. Twenty-six thousand rabbits were captured as the result of the four drives, and fully as many escaped. We were not allowed to use guns or dogs. Clubs only were used. We organized with a captain in charge. At one drive 8000 rabbits were captured. If 26,000 rabbits were taken from one 640 acre tract, how many do you suppose are in Harney's 10,000 square miles?"

retiring from active business about 10 years ago. He was a prominent member of the Joiners' and Shipbuilders' union when in active life. He leaves five children. They are: W. J. Taggart, telephone operator in the fire department; James Taggart, also of this city; Misses May and Alice Taggart and Mrs. E. J. Ellis of Spokane.

### Centralia Opens New Library.

(Special to The Journal.) Centralia, Wash., Jan. 14.—Centralia's new \$15,000 Carnegie library, recently completed, was thrown open to the use of the public yesterday. The new building is one of the finest of its kind in southwest Washington.

## PLANS DEATH OF TEXT COMMISSION

Upton Introduces Bill Providing New Way of Selecting School Books. (Staff Correspondence.) Salem, Or., Jan. 14.—To abolish the state text book commission and do away with the present custom of making a clean sweep of the text books of the public schools every six years for other books is the purpose of a bill introduced in the house by Jay H. Upton of Multnomah.

The bill proposes to make changes only "whenever geographical, historical or scientific progress" shall make the change advisable to keep up with the times. Moreover, it would make the county school superintendents of the state the judges of when such a change is necessary, and then only such books shall be changed as they recommend.

## "PEA POOL" GAME IS RAIDED BY SHERIFF

Three men were arrested yesterday by Deputy Sheriff Rogers in the Lotus poolroom, on Sixth street near Washington, as they passed chips around on the completion of a game of "pea-pool." These were the first arrests made since Sheriff Word's edict against gambling went into effect.

The men were released after being lectured severely by the sheriff, who ignored the fact that they had an attorney to represent them. Deputy Rogers is one of the aides who has been doing sleuthing work for Sheriff Word, and was sitting watching the game as the men played. The men hold positions with well known firms in the city.

### Flakes of Gold for Wheat Growers.

(Special to The Journal.) Walla Walla, Wash., Jan. 14.—Walla Walla's heaviest and first snow storm of the season fell Sunday and with it came general delay of all traffic. Wheat growers are jubilant over the snow, saying the nine inch carpet will serve as great protection for their fall sown crops in case of cold weather. There has been little snow on the grain this fall and its need has been felt on several occasions.

The widower, being a man of experience, is apt to dodge the boarding house that advertises all the comforts of a home.

## EDITOR IS GUEST AT PRESS CLUB DINNER

Arno Doech of New York, one of the early editors of the Pacific Monthly, and a well known writer and sociological student, was guest of honor at a small dinner at the Press club last night, at which the other guests were mainly former associates of Mr. Doech in newspaper work in Portland. It was practically the first private dinner that has been given in the press club and was something of a revelation as indicating the success with which the club is meeting in its aims to fill the needs of the members.

Recently, with the installation of a steward, the club has been helping solve the high cost of living problem of members by serving lunches that have immediately jumped into fame as the Press club's "bit lunches." These have become remarkably popular, not only because of the excellence of the service, but because of the opportunity given men from the various papers, as well as other members, to meet at the noon hour. With the extension of the dining room service which enables the club to serve dinners, such as that tendered Mr. Doech last night in the club rooms, with their congenial and interesting surroundings, promise to be the scene for many similar affairs, rivaling in their unusual qualities, those given in the literary and Bohemian clubs of New York and San Francisco.

### Snow Stops Logging.

Aberdeen, Wash., Jan. 14.—Suspension of work in the big State Lumber company mill was ordered at noon yesterday owing to a scarcity of logs due to the snow in the timber belt. Other mills will be forced to do so if the weather conditions continue. A good many of the big logging camps are running with half a force and other camps have been closed awaiting a change of conditions. In many camps the fall of snow is from 10 inches to two feet. The price of logs is advanced.
