The annual report of City Inspector of Buildings H. E. Plummer, filed yesterday at the city hall, says the building outlook for the present year is the most promising in the history of Portland. Mr. Plummer expects to see the \$20,000 .-000 record of 1910 eclipsed. He says there will be a great revival in the con-

struction of office buildings, factories and department stores. "One of the lines of greatest activity will be in connection with the new freight sheds and passenger stations which will be constructed by the railroads," reads the report. "There will probably be some extensive, work in connection with docks and wharves along the waterfront, as it is imperative HURTING WHEAT CROP that work of this kind be commenced so as to take advantage of the opening of the Panama canal.'

ing, Agent. Mr. Plummer calls attention to the increased efficiency of the building in-spection department during _the past year recounts the work fione by the dirferent inspectors. He says the council should call a halt on the issuance of special permits for building. These disrupt the building code and hamper the efficient working of the building in-the efficient working of the building in-the structure department.

At Chicago face was a firmer tone in the hog trade with an advance of a nickel in the price. Tops reached \$7.70, thereby overtopping the North Portland

market for the first time in a very ex-tended period. Run for the day was 23,000 head compared with 47,000 a year Eugene, Or., Jan, 30 .- Fred Barr, aged about 26 years, and whose home is in
