

CHICKENS LOWER IN FRONT STREET TRADE WITH LIBERAL STOCKS

Supplies Heavier Than During Any Other Year at This Period; Price Is Down to 13c Cents Generally for the Day.

PORTLAND PRODUCE TRADE.
Eggs steady.
Chickens outlook poor.
Butter market weaker.
Cheese lower.
Apples all better.
Small fruit lower.
Pork canisters offered.
Small potato movement.
Excellent call for hops.

The market for chickens is down again today. Sales are now being made down to 13c a pound; it being impossible to clean up at the higher figure quoted yesterday.

Receipts of chickens along Front street during recent weeks have been a great surprise to commission men. It is not usual for big supplies to come forward at this season of the year. The increased showing therefore indicates that the industry is growing exceedingly fast.

For some weeks it has not been necessary to bring in a pound of poultry from the east because home offerings were ample for all the needs of the trade. In former years quite a few carloads were brought forward at this period and still there was not enough stock available to fill the trade.

The great increase in chickens is followed by a similar showing in other fowls. Ducks and geese are in greater supply than for some time and turkeys are coming forward in abundance again; although the regular season for marketing is over. Demand for turkeys is good and the best dressed stock is finding a liberal call around 25c a pound.

EGG MARKET HOLDS STEADY

Market for eggs is holding steady with practically unchanged prices in effect. Receipts continue liberal and the bulk of the business in candied stock is reported at 25c to 26c a dozen.

HOP SITUATION HOLDS STRONG

Situation in the hop trade is holding strong with little business passing. Ideas of the trade are in a deadlock; growers being unwilling to accept present values either for spot or contract goods. Outside markets are strong but quiet with limited offerings.

DRESSED HOGS VERY WEAK

Market for country-killed hogs is very weak along Front street. Receipts continue to pile up and every express adds greatly to the volume. Sales of good stock are being made generally at 5c a pound with some business a fraction below or above this figure.

LOOKING FOR POOR ORANGES

Local officials are looking for frosted oranges that are said to have been brought forward from the south. They say they will be found as soon as discovered; thereby making the shipment very unprofitable. As a rule commission men are aiding the officers.

BEEF HURT BY RABBITS

Front street men attribute the present agitation against jackrabbits by local officials to the fact that the beef trust is being hurt as a result of the sale of this stock at low prices. Since jackrabbits became so plentiful the buyers are able to secure their meat supplies for less.

SMALL POTATO SHIPMENTS

Small shipments of potatoes are being made to the south and southwest but extreme low prices are still in effect. While an occasional offer of 40c to 45c per cental is received for extra good stock; the shipping trade in general is not offering above 50c for anything.

FORECAST FOR SHIPPERS

Weather bureau sends the following notice to shippers: As far north as Seattle against minimum temperatures of about 34 degrees; northeast to Spokane, 15 degrees; southeast to Boise, 5 degrees; south to San Antonio, 25 degrees. Minimum temperature at Portland tonight, about 31 degrees.

PORTLAND JOBBING PRICES

These prices are those at which wholesalers sell to retailers, except as otherwise stated:
