Prosecution Would Introduce Testimony Given During the Former Trial: Opposed.

(United Press Leased Wire.)
Los Angeles, Cal., Feb. 1.—Counsel for the Darrow prosecution and defense are preparing tonight for the first finish fight of the trial, which must be decided before a greater part of the evidence the prosecution desires to introduce may be presented.

The ramifications of an alleged plot, which the prosecution would have believed was fathered by Darrow, to corrupt the entire trial of the McNamara brothers through bribery, provide the subject of contention,

The state will make a determined effort to introduce all the evidence presented at Darrow's trial on a charge of bribing George N. Lockwood, a prospective McNamara juror, upon which he was acquitted. The defense is as determined that this shall not be spread before the jurors.

Early Buling Promised. Judge Conley has promised a ruling at the first opportunity. It is believed generally, however, that the court will be compelled to make an independent ruling in each case.

If the state wins its point, evidence touching upon the alleged passing of money to Biddinger, a Burns detective, Lockwood, and the leaving of money at Chicago to provide for the disappearance of David Caplan, wanted as a witness in the McNamara case, will

be introduced. Indications are that the trial, even if the proposed evidence is introduced, will be comparatively brief. Both sides have reiterated their desire for a quick conclusion.
