

### PAVING OF PATTON HIGHWAY IS SOUGHT

At the semi-monthly meeting of the Portland Heights Improvement club last evening in the Heights clubhouse a movement was started to secure a district improvement to supplement the effort that is being made to improve Terrace Road, and make all a part of the same project.

For a long time property owners of the well built up Greenway district have been trying to get sewers and hard surface paving. Now their long-desired sewer is being laid in the form of an extension of Marquam gulch sewer. It is proposed to pave Patton Road, from its junction with Ravensview Drive westward, Isabella street, Talbot Road, Terrace Road, Lamson Avenue, the upper section of Montgomery Drive to its junction with Patton Road, and a number of small connecting streets where paving is desired by the middle-class residents.

Greenway property owners voiced strong objections to the manner in which the Terrace Road improvement has been initiated for the reason that it would levy a heavy assessment upon the entire Greenway district without giving that district any improvement. The proceeds from the assessment, amounting to about \$28,000, would go exclusively to the improvement of Terrace Road, where there are about 100 lot owners, all well-to-do people and able to pay for their own paving.

Greenway district residents say they would welcome a district improvement. A committee was appointed, consisting of five property owners in various parts of the district, to ascertain as far as possible the sentiment in regard to the extent of the proposed district. On the committee are Messrs. Hyskell, Miller, Meyer, Vorse and Professor Daniels.

When a man discovers that he has but a lone nickel in his pocket after boarding a downtown car in the morning, it's a sign his wife is a frenzied financier.

### MRS. WILSON PICKS SOCIAL SECRETARY

Miss Isabel L. Hagner.

Washington, Jan. 4.—Capital society has unanimously sanctioned the choice of Miss Isabel L. Hagner by Mrs. Woodrow Wilson to act as her social secretary when the president-elect and his family take possession of the White House. Miss Hagner was social secretary to Mrs. Roosevelt for seven years. She is now connected with the department of state in Washington and was generally adjudged a success in her management of the social side of the Roosevelt administration.

### Kills Self in Police Station

Los Angeles, Feb. 11.—Choosing the central police station as a setting, G.

### DISCUSSES RELATION OF COLLEGE TO BUSINESS

Dr. Ogburn, professor of economics at Reed College, addressed the members of the East Side Business Men's club at their weekly luncheon at the Clifford grill yesterday noon.

The subject of his address was "The Relation of the College to Business." Dr. Ogburn laid stress upon the fact that any college influenced to a great degree the community in which it is placed, and in order to better the community, the citizens must give their united effort to the upbuilding of the college. He gave numerous statistics to show that this was so, and gave the University of Wisconsin as the best example of how a college influences business life.

Dr. Foster, president of Reed College, will address the members in the near future.

### PIONEER RESIDENT OF OREGON PASSES AWAY

George R. Johnson, one of the pioneer citizens of Oregon died at his home, 221 East Twenty-seventh street yesterday evening. He had been in feeble condition since a paralytic stroke two years ago. Mr. Johnson was the father of G. F. Johnson, president of the Greater Portland Plans association, Arthur F. Johnson and Mrs. C. O. Boyer, all residents of Portland. His widow survives him. Until last year he lived at Tigard in Washington county, when he removed to the city. He came to Oregon from the middle west by ox team 30 years ago. He was 72 years old.

### Receiving Praise

Many letters have been received regarding The Journal's Saturday poultry feature. The information given through these columns is eagerly read and used to good advantage. Many have also found it an excellent medium to dispose of their eggs and stock.

### WOMEN OBJECTING TO BONDING PENINSULA

Organized opposition to the scheme of bonding the Peninsula district and St. Johns for the purpose of raising money to dredge Columbia slough to make it navigable is being legitimated among the women residing in the district. Opponents to the plan are being led by Mrs. L. Christensen of 1339 Atlantic street. Several meetings have been held already and it is understood petitions will be in circulation soon against the bonding scheme.

While opposition will be made to the proposed slough bonds, the women behind the movement will favor the proposed bonding of the district for the construction of trunk sewers to empty into the Columbia slough, which it is estimated will cost approximately \$750,000.

"We oppose bonding the district for the dredging of Columbia slough on the ground that it should be done either by the Port of Portland or the government," said Mrs. Christensen. "We do not think it right that the district should be called upon to pay for the dredging of a 15-mile canal, which would not benefit us, despite the fact that we would be called upon to pay as much in ratio as those who own property fronting the slough."

According to government estimates the canal would cost about \$680,000 to dredge, and when completed a 14-foot channel would obtain.

### FEBRUARY 17 WILL BE CHILD WELFARE DAY

(Salem Bureau of The Journal.)  
Salem, Or., Feb. 11.—Governor West has issued a proclamation setting aside Monday, February 17, as Child Welfare day, and calling upon the people of the state to join with the National Congress of Mothers in its most laudable work. The day has been fixed as one of national observance by the National Congress of Mothers and its affiliated organizations in connection with child welfare work.

Washington, Feb. 11.—Dr. Carl L. Alsborg, who has been appointed chief of the bureau of chemistry, to succeed Dr. Wiley, has been connected with the United States department of agriculture for the past four years. He has been devoting special attention to the bureau

of plant industry and has conducted a notable series of experiments in the endeavor to learn the cause of disease in food plants. Dr. Alsborg made a discovery of great value to stockmen when he found the presence of prussic acid in certain kinds of grass that has poisoned thousands of cattle in the southwest. Dr. Alsborg is a native of Germany, but received his degree from Columbia university. After a three years' course at the Universities of Berlin and Strasbourg, he was appointed instructor of chemistry at the Harvard Medical school, from which position he was appointed to the post he has just vacated. Dr. Alsborg is 25 years old.

### MOTORCYCLE RIDER GAVE INJURED WOMAN AID

J. B. Weber, son of Mrs. A. Weber, who was run down by a motorcycle ridden by G. S. Abbott, states that an error was made in a report in The Journal that Mr. Abbott ran away right after the accident without making any effort to ascertain the extent of his victim's injuries or to assist her, if possible. Mr. Weber says that Mr. Abbott showed every consideration for Mrs. Weber after the accident; that he acted in a considerate and gentlemanly manner, assisted her to the home of a friend, and has inquired as to Mrs. Weber's condition several times since the accident.

Mr. Weber says that Mr. Abbott would be done an injustice were he placed in the same category as speed maniacs who harass pedestrians, and who have apparently no feeling whatever for the rights of others.

### Mrs. Langtry Has to Dig

(United Press Leased Wire.)  
San Francisco, Feb. 11.—Mrs. Lily Langtry will doubtless not consider the well-digging business when she quits the stage as a result of her being forced by the courts here to make final payment of \$50 on a well boring job in Nevada. George McLaughlin, who did the job several years ago, first sued for \$50, but was satisfied with the court's award. The well was sunk on a ranch formerly owned by the "Jersey Lily."

Men who judge others by their own standard often measure less than 30 inches to the yard.

### POPE CANNOT LEAVE TO SEE DYING SISTER

(United Press Leased Wire.)  
Rome, Feb. 11.—Adherence to the tradition that no pope shall leave the Vatican alive until the temporary sovereignty of the church is acknowledged by the quinal was announced today in the decision of His Holiness not to leave the Vatican to go to the bedside of his ailing sister.

### Edison is 66 Today—He Works

(United Press Leased Wire.)  
New York, Feb. 11.—Thomas A. Edison is not taking time off from his work on a new kinetophone to celebrate his sixty-sixth birthday today. There will be a special dinner tonight.

### An Unfailing Prescription For Kidneys and Bladder

The following simple prescription has proven one of the best remedies known for weak, deranged kidneys or bladder: Get six ounces good pure gin, add to it one-half ounce Muxax Compound, one-half ounce fluid extract Buchu. Take one to two teaspoonfuls of this mixture after each meal and at bedtime. It is surprising how quickly this stops backache, rheumatic pains in the joints, dizziness, pains in the groin or other frequent annoying symptoms that are well known. For best results, good pure gin should be used in this prescription, also genuine Muxax Compound, which comes only in sealed wooden tubes. Any substitute will not work so well. Almost any good drugist has these ingredients. Anyone can mix.

Bright's disease, chronic rheumatism or dread diabetes come from neglected kidneys. Treatment should be given at first sign of disorder to avoid the serious forms of kidney disease.
