

## GERMAN DOCTOR REPUDIATES CURE

Head of Public Health Department Doesn't Like Friedmann and His Methods.

(United Press Leased Wire.)  
Berlin, Feb. 11.—That Dr. Frederick Friedmann, discoverer of a tuberculosis cure, attempted to have the government buy his culture outright without its first undergoing government tests, is the statement made by Professor Kirchner, head of the government health department.  
"The German government has no further interest in Friedmann or his cure," Kirchner stated.  
"Friedmann wanted the government to designate a hospital wherein he might try the remedy," Professor Kirchner added. "He also stipulated that he conduct the experiments personally, no other physicians participating. Of course we declined, saying the government has no right to turn sick patients in state institutions over to experimenters."  
"We offered to make test experiments at the government's medical institute in Frankfurt-on-the-Main, but this Friedmann refused. He then proposed that the government acquire his bacilli—in effect that we purchase the remedy outright. This was so ridiculous in the face of Friedmann's refusal to allow the government to test his cure that I did not answer the proposal."  
Friedmann announced today that he had booked passage to New York on the liner Kron Princesisa Cecilia, sailing February 18.

## CONFESS ARSON PLAN; ALLOWED TO GO FREE

Although confessing that they had planned to burn a rooming-house at 435 Alder street, H. S. Huntley, proprietor of the place, and Ben Ellis, cannot be prosecuted under the state law. Both men therefore are allowed to go free. The object in setting fire to the building was to secure \$2000 insurance.  
Word reached Captain John Dillane of Engine Company 3, at Sixteenth and Washington streets, that the two men had planned the fire. City Detectives Hill and Litherland arrested Ellis Saturday night in the rooming-house. Huntley had gone away, as the place was to have been fired that evening. He returned yesterday and was taken into custody.  
The two men had drilled holes through inner walls on the second floor. Rags had been stuffed in the holes and these saturated with oil. In an adjoining room were found two quarts of oil, while in another room were found four quarts. It had been arranged that a blaze starting in the rags would soon eat its way to the oil.  
Both men admitted planning the affair, giving their story to the detectives and the district attorney's office. The insurance policy was taken out January 19 in the name of Huntley. In the collection of this Ellis was to have received \$200 for setting fire to the place in Huntley's absence. There are 20 rooms in the building, which is a three-story structure owned by Dr. J. W. Cornelius. Eleven of the rooms were occupied. The insurance company holding the policy was notified and immediately revoked it. Huntley and Ellis were required to sign their admissions and were discharged.
