# Measure Gives Boards Authority to Let Pupils Have Books Free.

(Salem Bureau of The Journal.) Salem, Or., Feb. 21.-Senator Patton Salem, Or., Feb. 21.—Senator Patton of Marion accomplished an unusual thing genterduy when he obtained the passage of his optional free text book bill, which had been adversely reported once, then placed on the table, rera-ferred to the same committee, and finilly reported back without recommenda-

The bill passed the senate by the fol lowing vote: Ayes-Bean, Burgess, But-ler, Carson, Dimick, Hollis, Joseph, Kel-her, McColloch, Miller, Moser, Patton, Perkins, Smith of Coos, Smith of Jos-ephin; and President Malarkey.--16, Noes-Barrett, Calkins, Day, Hawley, Hoskins, Kiddle, Lester, Neuner, Ragsdale, Stewart, Thompson, Von der Hel-len-12. Absent-Farrell, Wood-2. The bill allows school districts to buy

text books for the use of pupils, and to loan these books to pupils of parochial or other schools using the approved texts of the Oregon schools. The bill is as follows:

Section 1. The board of any school district may upon its own motion, and shall upon the petition of five legal voters of any school district of the third class and upon the petition of 25 legal voters of any school district of the second class, or upon petition of 100 legal voters of any school district of the first class, call an election at any annual or special meeting of the voters of the district 'for' or 'against' free text books and the ballots to such ef-fect shall be received and canvassed at such election and if a majority of all the votes cast upon the measure shall be found to be in favor of free text books it shall be the duty of the school board of such districts to purchase at the expense of such district all the books required for the use of all pupils attending school in such school district, and such text books shall be loaned free of charge to the pupils of all schools in the district using regularly the text books adopted by the Oregon Text Book commission, and, except in districts of the first class, following the state's course of

udy. The books to be subject to such custody as the board shall prescribe; provided, that the vote shall be taken separately upon free books for high school grades and for grades below the high school.

"Section 2. When any district has so decided by vote of its electors to furnish free text books to loan to the pupils the school board of said district shall raise and appropriate annually, in same manner as other school money shall be raised and appropriated in such district, an amount sufficient to purchase text books needed for all the students who attend school in said dis-

trict Section 3. The school board shall, at the beginning of each school term, cause all books to be thoroughly disin-

in accordance with rules prefected scribed by the State Board of Health. "Section 4. All laws and parts of laws in conflict with the provisions of

this act are hereby renealed."

# WEST'S NAME GOES PURPOSELY, THEN HOLD UP ROADS FOR DAMAGE

els for the purp uding railroads out of sma alias G. W. Ward, and J. N. Case, alias G. A. Roberts, are in jull here today. Railroad officials from Northern Pacific, Great Northern and Harriman line offices claim to have been trimmed for sums varying from \$10 to \$100 by this pair.

PORTLAND LAGS IN MUNICIPAL OWNERSHIP

Councilman Ralph C. Clyde, who ha returned to Portland after a two months' business trip in California, investigaed many municipal conditions. "I find that Portland is far behind many of the southern cities in the mat. ter of municipal ownership," said he today. "Los Angeles has many municipal projects, the latest being munici pal ownership of natural gas, which

will be distributed to the people at cost, Oakland has public markets that are a benefit to the entire county. San Francisco has made a success of its municipal railway from the very start and the board of supervisors are making arrangements to extend the line into interurban districts. Outside of our free employment bureau, we have nothing here in operation that is worth comparing. I was greatly surprised, in conversation with the motor inspector of Los Angeles, to learn that 52 per cent of the meters were defective and the inspector informed me that the company was the greatest loser instead of the consumer. He informed me that the people preferred, however, to pay for the inspection and know whethe they were being overcharged or undercharged, and that the law had proven a great success during the six years it had been in operation. I have a draft of a similar ordinance to be presented

to the city council. "A meter inspection ordinance is badly needed, and if the state railway commission will do the work, that will be entirely satisfactory to me."

Whild in Los Angeles, Mr. Clyde met Mayor Rushlight and his bride, who were on their way, to the Hawalian Islands. Mr. Clyde asked the mayor if he would be a candidate for reelection and Mr. Rushlight informed Mr. Clyde that he did not know.

corporations.

# PUBLIC USE VALUATION BILL IS LOST, 23 TO 4

(Staff Correspondence.) Salem, Or., Feb. 21. - Senator Mc-Colloch's bill prohibiting the payment

of more than twice the assessed value for property taken for public use under condemnation proceedings, except upon specific finding by a jury of increase in valuation since the last assessment, was lost in the senate this morning, after McColloch and Kellaher had forced the

fight into the "enemy's country." "This was introduced late in the sussion," said McColloon in supporting the bill, "and this may account for the fact that it is unfavorably reported by my colleagues of the judiciary committee. But some day some such law as this ought to be the law of the state. If

the state needs property for the public use it ought not, in justice, to have to pay more than twice the sum at which the owner lists it when he pays taxes to the state."

Joseph opposed the bill on the ground that the whole question of value should be left to a jury to determine. Kellaher, supporting the bill, called attention to the assessment of Ross island at \$31,-000, while the owner wanted \$355,000 for it when the city proposed to buy it. The bill was indefinitely postponed by a vote of 23 to 4, the latter being Kel-laher, McColloch, Neuner and Patton.

President Malarkey did not vote and the absentees were Hollis and Miller.

So bad has become the thieving at police headquarters that Chief Slover
