Weather Conditions.

Portland, Or. Feb. 22, 1913.—The lakes' storm is drifting northeastward and is central this evening over New York and the St. Lawrence valley. Moderately low pressure obtains over the Pacific slope, while the pressure is high over interior Canada, the plains states and Mississippi valley. Within the last 24 hours precipitation has occurred in western Washington. California, the Basin states and the most of the states east of the Rocky mountains; also in Canada. The passage of the eastern storm has been attended with high winds over the later region, Ohlo valley and middle Atlantic states. The weather is warmer in north-central California and New Mexico, and it is colder in the Missippi and Ohlo valleys; guifasfates, take region and interior Canada. Except on the Appalachian highland, temperatures in general are below normal throughof the country.

The indications are for occassional rain or snow Sunday in western Washington and north-western, Oregon, and for generally fair weather throughout the remainder of this district. No decided temperature changes are expected, and generally southeasterly winds will obtain.

The work will be very inexpensive, as there is a wide parking and wooden curbs along most f the street, and it is the plan to cut M. Baumer & Co., the biggest little off two feet of parking from either side of the street.

The Sellwood Board of Trade will meet Tuesday night to discuss the advisability of hard surfacing East Thir teenth street, through Sellwood. This is an improvement which has been agitated, off and on, for some time, but no definite step has yet been taken; but it is the plan of the Board of Trade to take up the matter in a systematic and push the improvement

> The Electric Pencil. From Harper's Weekly.

A novelty in a penholder permitting one to write in the dark, since it is provided with an e'ectric light. The tube through which the point of the pencil goes is fitted with a small accumulator and an electric lamp. The latter throws a disc of light over the point where the writing is being done. This luminous pencil has been invented for the use of doctors, reporters, detectives, etc., whose work necessitates the taking of notes in the street and in darkness.
