

RECEIVE HAYWOOD ARMED WITH CLUBS

Akron Citizens Warn I. W. W. Leader When He Gets Off Train, to Be Careful.

(United Press Leased Wire.) Akron, Ohio, March 12.—More than 200 Akron citizens, armed with clubs, met William I. Haywood, an organizer for the I. W. W., when he stepped from a train today. Police Captain Guillet told Haywood: "You probably have heard. Haywood, that a strike is in progress among employees of Akron rubber concerns. I merely wish to inform you that any attempt on your part to incite the strikers to acts of violence will be met with your immediate arrest and deportation. Do you understand?" Haywood said that he did, and then accompanied a committee of strike leaders to Union headquarters. Up to 2 o'clock this afternoon no serious disorders had been reported. More than 1000 Akron citizens were sworn in today as deputy sheriffs, and are aiding the police in keeping the streets about the rubber factories cleared.

ROSE FESTIVAL FUND GAINS NEW RECRUITS

More than 1200 individuals who were never before approached and asked to contribute towards Rose Festival funds are now coming forward and asking that their names be placed on the list for contributions.

This was the statement today by Hy Eilers, chairman of the general committee which has charge of the campaign which is to open Monday for the purpose of raising funds for this year's Rose Festival. Plans are about completed for a systematic canvass of the entire city. While the Royal Rosarians are taking an active interest in the preliminary work, they are not the only ones. In fact, according to Mr. Eilers, practically every organization in the city has promised the association support. With the members of these organizations at work it will mean that at least 200 men will be enlisted in the cause. Besides these, 15 or 20 women will start in canvassing Monday.

AMERICANS FORBIDDEN TO FIRE OVER BORDER

(United Press Leased Wire.) Washington, March 12.—According to instructions sent today to General Bliss, in command of the Mexican border forces, by Secretary of War Garrison, American troops are forbidden to return the fire of Mexican troops except on specific orders from the war department. It is hoped thereby to remove one of the principal causes of the friction between the border forces of both countries. The order applies especially to Nogales, Ariz., and vicinity.

URGES AMENDMENTS TO HEATING FRANCHISE

In a letter submitted to the city auditor today City Attorney Grant recommends a number of amendments to the proposed heating franchise of the Northwestern Electric company. Principal of these amendments is one providing that the company shall remain under bond of \$25,000 until after it has expended \$150,000 on the plant and distribution system. The estimated total expenditure is \$300,000. Another amendment recommended by the city attorney is that the company put up a cash bond of \$1000 to insure the refunding of all payments torn up in order to install conduits. The proposed heating plant will serve all the business section of the city, the steam for heating of buildings to be transported through underground pipes from a central station, at which the steam will be produced. Officials of the company have expressed their willingness to comply with the amendments suggested.

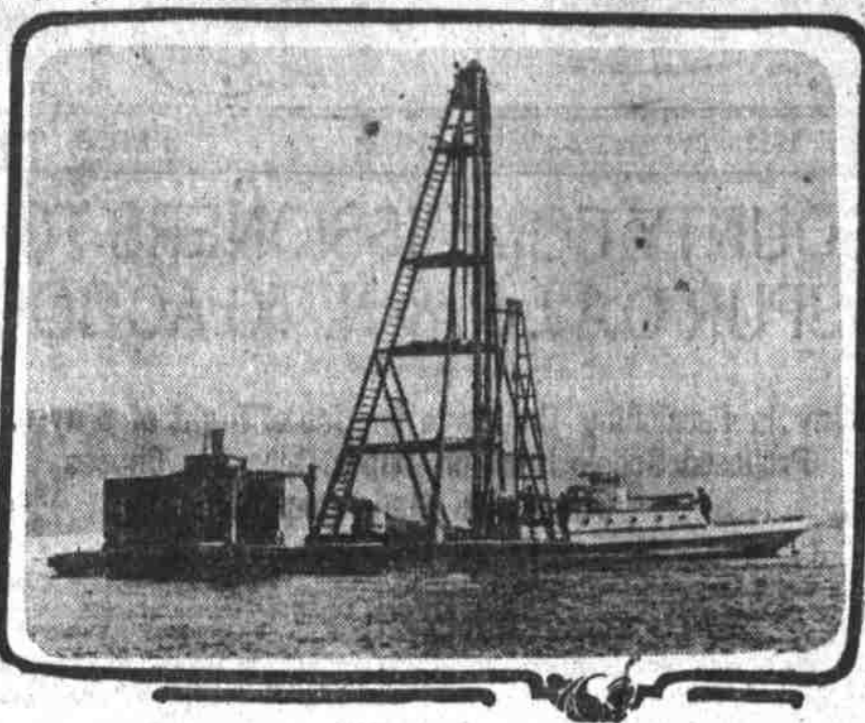

SEE THAT CURVE Holding Off

or delaying attention to the slightest indication of eye trouble frequently invites grave consequences. If the defect is corrected now, you will save yourself money and annoyance. When you have to hold your reading matter farther from or closer to your eyes than 14 inches it's a pretty sure sign you need glasses. We take pardonable pride in our ability to either examine your eyes and make your glasses or to make and fit your glasses from an oculist's prescription. Accuracy guaranteed.

THOMPSON OPTICAL INSTITUTE

209-10-11 Corbett Bldg., 2d Floor

BEGINNING COOS BAY BRIDGE

Taking soundings for piers for Southern Pacific bridge across Coos Bay at North Bend.

(Special to The Journal.) North Bend, Or., March 12.—The first actual work done on Coos Bay in the way of building the new Southern Pacific bridge is the sinking of castings to make soundings. A pile driver and force of men are engaged in the work. Soundings are to be taken with a view to ascertaining what must be done in order to build the piers for the bridge. The work of making the soundings has only just started so no reports have been given out as to what depth of water has been found. In addition to this work on the bay the Southern Pacific is continuing the clearing and grading work for the right of way in North Bend.

"BOY BANDIT" AGAIN MAKES HIS ESCAPE

Leo Berggren, the 12-year-old boy who would be a bandit and who was arrested Tuesday night for robbing an Alder street grocery, is one of the most slippery youths ever handled by the juvenile court. He slipped away from the Frazier Home yesterday morning and was caught in company with another boy with about \$15 worth of goods which he had taken from counters of the Meier & Frank store. He was sent back to the Frazier Home last night to be held for the session of juvenile court next Saturday. This morning he complained of the stomach ache and asked for a hot water bottle. Superintendent Baker went for the bottle and while he was away the boy sneaked out again without shoes, stockings, coat or hat. Mr. Baker and others took up the chase but could not capture the lad and search is on now for him.

After he was caught last night he confessed that he had learned the "art" of shoplifting from older boys in St. Paul, Minn., and that there are regular teachers of shoplifting among these older boys. He came here about three weeks ago and has lived with his sister, Mrs. Hilda Lyons, 323 Clay street. Since he came here he has done considerable shoplifting and the juvenile officers expect to find several stores from which he has stolen goods. When he held up the grocery store he was armed with a loaded 32 caliber revolver, a billy club, a bunch of keys and a purse, which he had stolen. If arrested he will be taken before juvenile court next Saturday morning.

ROBERT DOLLAR LOSES RUDDER; TAKEN IN TOW

(United Press Leased Wire.) San Francisco, March 12.—Officials of the Robert Dollar Steamship company announced here this afternoon that their steamer, the Robert Dollar, was disabled yesterday off the Straits of Juan de Fuca. It was said that the tug Coliath has the disabled vessel in tow and will take her to a Puget Sound port.

TRENKMAN ESTATE IS VALUED AT \$200,000

The will of Herman Trenkman, whose death occurred March 1, was admitted to probate this morning by Probate Judge Cleaton, and the estimate of the estate given in the petition places the value at \$200,000. Mrs. Elizabeth Trenkman, the widow, and Bernhart Trenkman, the only son, were named executors by the will. Mr. Trenkman left \$10,000 in trust for his son, with the provision that it be used to pay off any indebtedness against the home of the son, and the balance be turned over to the son. To a niece, Ernestine Birch, of Oakland, Cal., he left \$1000, and to a nephew, Eddie Hirsch, of the same place, he left \$500. Two nephews, Herman and August Taubert of Portland, were each bequeathed \$250. The residue of the estate was left to Mrs. Trenkman. In accordance with the policy of making County Clerk Coffey or a deputy an appraiser of estates on which inheritance taxes are to be collected, Judge Cleaton appointed T. F. Saville, a deputy county clerk, as one of the appraisers of the estate.

TO CONSIDER OPENING OF NAVIGABLE WATERS

The Columbia & Snake River Waterways association will meet at Pendleton Monday and Tuesday, April 14 and 15. Delegates will attend from all parts of the basins of the Columbia and Snake rivers and the Inland Empire. The Portland Chamber of Commerce and the Portland Commercial club will have representative delegates at the meeting, so it was stated this morning upon the receipt of official notice announcing the meeting. The purpose of the meeting will be for the further consideration of matters pertaining to the opening of the navigable waters of the Inland Empire. Wilson Nominates Three. (United Press Leased Wire.) Washington, March 12.—President Wilson today nominated Franklin Roosevelt of New York to be assistant secretary of the navy; John Skelton Williams of Virginia to be assistant secretary of the treasury, and Beverly Galloway of Washington, D. C., to be assistant secretary of agriculture.

Are Your Chickens Profitable?

If you are not satisfied with the results you are getting from your chickens, the Poultry Editor of The Journal may be able to give you some advice that will increase their productiveness. You will find it worth while to keep in touch with the poultry feature which appears in The Journal every Saturday.

KLAMATH VOTES FOR NEW CHARTER

Backers of Measure Believe City's Legal Tangle Is Now Solved.

(Special to The Journal.) Klamath Falls, Or., March 12.—Since the adoption of the new charter by a small majority, the present administration and its supporters are promising a prosperous season for this city. It is expected by those who supported the instrument that it is positively legal and that bonds can readily be sold under it. The plan is to immediately proceed to get bonds voted so that the city can get on a cash basis. It is also proposed to take the necessary steps to sell bonds to build a city hall that was planned some two years ago. In addition to this it is talked to improve several of the more frequently used streets in the residence sections by grading and macadamizing. The charter was adopted by a small margin and many of those who voted for it did so merely because they felt that it might have a tendency to solve the legal tangle of the city. The saloon men took an active interest in the matter, throwing their influence in favor of the adoption of the charter. It is likely that their action in this matter will hasten the wet and dry election for which the prohibitionists have been preparing for the past two years.

LABAREE SCARED OUT OF COAL LANDS GRAB

(United Press Leased Wire.) Chicago, March 12.—O. G. Labaree, of Spokane, Wash., was a witness today in the trial of Albert C. Frost, of Chicago, and six others accused of swindling the government out of \$10,000,000 in Alaska coal lands. He declared he was a former business associate of Frost. After admitting that he was a promoter for the Alaska Central railroad, Labaree testified he met Duncan Stewart in 1905 and persuaded him to interest Frost in railroad property. Frost, he said, went on an expedition into Alaska to investigate possibilities there, the expedition finding valuable coal lands and deciding to buy the railroad outright. Labaree said he withdrew from the coal land ventures on the advice of attorneys, who warned him the scheme might get him into trouble with the government.

DR. FRIEDMANN WILL TREAT 50 AT BELLEVUE

(United Press Leased Wire.) New York, March 12.—Under the personal supervision of Surgeons Anderson and Stimson of the United States marine service, Dr. F. F. Friedmann will treat 50 selected patients here upon his return from Canada, according to an announcement this afternoon by Dr. John Brannan, who is in charge of Bellevue hospital. On the result of these tests, it is said, will depend whether the Friedmann cure is to be admitted or barred from the United States. The demonstrations will be made at Bellevue hospital. "It is a distinctly understood," said Dr. Brannan today, "that in lending equipment for the tests Bellevue hospital is not endorsing or sanctioning Friedmann's cure. It remains neutral, simply assisting Surgeons Anderson and Stimson, as a public hospital, in better fitted to further a fair test of the cure."

"THIS IS LOVE" SAYS NOTE ON DEAD BOBIES

(United Press Leased Wire.) San Francisco, Cal., March 12.—Ay shooting and killing his affinity, Aloy Vobroben, and then himself, W. J. Sosin, keeper of a small grocery store here has today escaped the vengeance of his wife who had located him here after a five years' search. The double tragedy occurred in a cheap downtown hotel and in a note left by Sosin, a suicide pact is suggested. The note said: "This is love." Five years ago Sosin married Julia Radiamoff in Russia. He found his wife with an admirer one night and is said to have killed the man. Then he escaped to America with his wife in close pursuit. Later he met the Vobroben woman and came here.

Close Call for Rancher.

(Special to The Journal.) Prairie City, Or., March 12.—A serious accident befel H. O. Meader, one of the oldest ranchers of the John Day valley, living four miles east of this place. Yesterday, as he was felling a large tree a heavy limb struck Mr. Meader and crushed him to the earth. By a seeming miracle he escaped with several scalp wounds and lacerations of the face. It was at first thought that his right eye was destroyed, but today physicians say the right will probably be saved.

President Young to Be Guest.

(Special to The Journal.) Cottage Grove, Or., March 12.—President J. H. Young of the Oregon Electric has accepted an invitation extended by the Commercial club to meet with it at some time within the near future when Cottage Grove's resources will be gone into detail to bring to the attention of Mr. Young Cottage Grove's future as a freight producer, thus offering him encouragement to extend the electric line to this city. Prairie City No Longer in Dark. (Special to The Journal.) Prairie City, Or., March 12.—This town is again ablaze with electric light from the new plant just completed to take the place of the one recently destroyed by fire. The Prairie Power company contemplates the reconstruction of the flouring mill at an early date, power for which will be furnished by the light plant. I. W. W. Get 70 Tailors Out. (United Press Leased Wire.) Seattle, Wash., March 12.—In an effort to get the I. W. W. out of the city, the I. W. W. succeeded today in calling out 70 men from nine shops. Shops in which union tailors are not affiliated with the I. W. W., were not affected.

ALVEY AUGUSTUS ADEE

Washington's Only "Indispensable."

Washington, March 12.—Administrations may come and administrations may go, but Adee can hold his job as long as he likes. This is the opinion of official Washington holds in regard to Alvey Augustus Adee, second assistant secretary of state. Handling the nice affairs of the world powers is a kid glove job. It matters not whether the matter be the sending of a note of condolence to a nation or king or a declaration of war. The proceedings must follow precedent, and official Washington believes that Adee is the only man who cares to or who can handle that job.

WAS BABY WHEN IRON DUKE WON

Forest Grove's Oldest Citizen Ascended Mount Hood at Age of Ninety.

(Special to The Journal.) Forest Grove, Or., March 12.—James Luck, the oldest resident in Washington county, celebrated his ninety-ninth birthday last Sunday. Mr. Luck has always been in vigorous health until the past few weeks. At present he is in rather poor health, his great age having begun to tell upon his iron constitution. James Luck was born in Suffolk county, England, March 9, 1815, just three months before the battle of Waterloo, when the Iron Duke defeated the great Napoleon. He was five years of age when George IV was crowned king of England, and attended the coronation ceremonies of William IV when he was 15 years of age. When Queen Victoria was crowned he was a young man of 22. Luck came to America in 1829, and married a New England girl in 1844. He cast his first ballot for Zachary Taylor. For some years he lived in New York, but decided to locate farther west and moved to a farm in Oconomowoc, Wis. He had learned the milling business in Wisconsin, and his neighbors in the Wisconsin town persuaded him to establish a mill there. He followed this occupation for 40 years, and retired from active business at the age of 75 years. Mr. Luck has always been a man of extraordinary vigor, and at the age of 90 he ascended nearly to the summit of Mount Hood with a party of friends. The climate of western Oregon is so nearly like that of England, with its gentle rains and soft winds, that Mr. Luck has always felt at home in Forest Grove, where he has lived for a score of years with his daughter, Mrs. John Bailey.

SISTER OF WEALTHY MERCHANT WITH CONN

(United Press Leased Wire.) San Francisco, Cal., March 12.—That one of his companions, Mrs. Kitty Pope, had nothing to do with his robberies, and carried none of his gains away with her, is the assertion of Owen D. Conn, the "100,000 burglar," who was captured here after being caught in the act of looting an apartment. A country wide search for Mrs. Pope is on, as the police place little credence in Conn's tale. They believe she was the brains of Conn's exploits. Certain San Francisco residents have identified Mrs. Pope as the sister of a prominent Detroit merchant. The police are entertaining the opinion that she may be hidden in the home of this relative. Conn's victims from many points in the central and southern part of the state continue to arrive to claim recovered jewelry. A pathetic letter from Mrs. Clarkson, wife of the Chicago minister, who deserted her husband and their five children to live with Conn, was found among the prisoner's effects today. It is dated Milwaukee, March 6.

HAVING TROUBLE GETTING JURY IN HENRY CASE

(Special to The Journal.) Albany, Or., March 12.—Promptly at 4 o'clock yesterday afternoon the work of securing a jury to hear the evidence in the case of Ralph Henry, indicted for slaying George Dodd on the Linn county side of the Willamette river near Corvallis on October 31, 1912, was begun. Examination of jurors was resumed at a night session and again this morning at 9 o'clock. It will probably be late this afternoon before the jury is finally secured and if this proves to be the case, the opening arguments will be made at a night session to be held this evening. From questions asked the jurors by the attorneys, it seems probable that the defense will base its case on temporary insanity. General Beers Dies. (United Press Leased Wire.) Washington, March 12.—General Edmund O. Beers, 84, a distinguished officer of the New York engineers' corps in the Civil war, and afterward a major general in the national guard of that state, is dead at his home here today. He was promoted a number of times for bravery in action.

WOMAN PRESENTS ALLEGED INSULT

Councilman Baker and Others Scored for Smoking in Women's Presence.

Mrs. A. E. Clark, a member of the Political Equality league, who was a speaker at a meeting of the league, held yesterday afternoon, took occasion to score George L. Baker, president of the city council, who was also a speaker at the meeting, and other members of the city council, for "insulting" the women by smoking in the committee room in the city hall on the occasion of a recent call made by Mrs. Clark and others. Following the talk by Mr. Baker, Mrs. Clark was called upon. She touched upon an alleged scandal in connection with the closing of the legislature. Suddenly she turned the topic to a call she had made recently on a council committee, declaring that when she entered a room there, she found all the members of the committee smoking, whereupon she and her companion withdrew in a furious state of mind. "I don't know whether it was a meeting of the council or not, but we were insulted and we don't propose to stand for that," Mrs. Clark said.

Mr. Baker then arose and said: "That was not a council meeting, but a committee meeting, for the men are not allowed to smoke during a session of the council. We do smoke, however, in committee, where we are sometimes obliged to sit for hours. If women intend to mix in politics, that is what they will have to expect." "That is not true," declared Mrs. Clark. "We shall insist on not being confronted by the spectacle of men smoking, and being made ill by the fumes of tobacco."

Mr. Baker then stated that he would not think of insulting his wife or daughter, and that they permitted him to smoke in his home, whereupon Mrs. Clark asserted that his private life, nor the private life of any of the officials was not any of her concern, but that the women did demand that they be shown respect when they confronted the officials.

ALLIES ARE AWAITING ADRIANOPLE'S FALL

London, March 12.—Reply by the Balkan allies to the peace proposals from the allies was delayed again today, presumably because the allies hope for the immediate fall of Adrianople, thus eliminating from the negotiations all consideration of the city's fate. The Bulgarians hope to occupy Adrianople tomorrow at the latest. Constantinople expects that Sherrif Pasha has sent wirelesses that he cannot hold out more than a week. Denies "Paving Trust" Allegations Made by Independent Firms. (Continued From Page One.)

pavements have not the quality of others. They are better. In ten years 135 miles of bitulithic pavement has been laid in Portland. It is today as completely perfect. It hasn't cost the city a dollar in repairs. No other pavement can show such a record. Take, for instance, Fifth street. The pavement was laid in 1904. It is of bitulithic on a bituminous base. No other pavement in Portland compares. Heavier load. It is good today as when laid. In the meantime, Sixth street and Fourth street, paved with asphalt, have had to be resurfaced. "I think I have shown that if we had a paving trust here we would not have let the expense contract of the year—the Rosemead contract—go to a firm in which we have absolutely no interest. I think I have shown that our work is permanent and good. I will further state, and I challenge denial, that Portland is now getting better paving at less cost than any other city in the country."

Denies Control of Situation. "The whole scheme of the association of Western Portland Cement Manufacturers is to force Portland to use a concrete base, buying the cement at the association's price. The records will bear me out that last year cement cost \$1.65 a barrel. It is now \$2 a barrel, and you can go to the six California companies and the two Washington companies and you can't get it for a cent less. There isn't a bigger trust anywhere so far as the northwest is concerned. "And we don't control the situation here. The records will show that fully 70 per cent of the paving awarded last year was to independent companies in which we have no interest. "In getting out specifications the city engineer has no choice but to make competition open to standard paving under the Ellis amendment and competition is open. That is the chief cause of complaint on the part of those who by false statements would make a case against us."

NOGALES ATTACKED BY REBELS; AMERICANS VIEW FROM SIDELINES

(Continued From Page One.) thronged with spectators in spite of orders issued by American cavalry officers. Almost the entire American cavalry patrol was deployed along the border to be ready to enforce orders that there should be no firing across the line. Captain Smith, commanding the American troops, declined to mix in action he would take in the event of violation of this order. Shortly before noon word was brought to Nogales that the advance guard of General Ojeda's forces which evacuated Agua Prieta yesterday, is within 20 miles of Nogales. Ojeda's force comprises almost 500 men, and may be strong enough to swing the tide of battle against the rebels. According to constitutionalist sympathizers here, the rebel leaders have about 800 men at their command. They are said to be exceptionally well armed and provisioned. The force includes many American soldiers of fortune and border cow men. Diaz Not Coming. (United Press Leased Wire.) Naples, March 12.—General Diaz, former president of Mexico, arrived here today from Egypt, aboard the liner Adriatic. He said he would not return to his native land, but would remain in Europe. Diaz expects to assist in efforts to restore Mexico to a normal condition, chiefly by advising his nephew, General Felix Diaz.

ADMIRAL EATON MAY HAVE BEEN POISONED

(United Press Leased Wire.) Rockland, Me., March 12.—To either disprove or establish the theory that Rear Admiral Joseph G. Eaton was mysteriously poisoned, Professor William Whitney of Harvard is analyzing the contents of Eaton's stomach here today. Eaton's widow insists he was sick for a year before his death. The authorities declare he was ill but a single day. District Attorney Barker, Medical Examiner Gogob and Dr. Joseph Frain, who attended Eaton, refuse to make a statement today. Mrs. G. Eaton, mother of Mrs. Eaton, declared today that she is expecting her daughter's sanity to be examined into as a result of the Eaton investigation. Professor Whitney may report to the district attorney this afternoon.

WILLIAM CAUTHORN OF BENTON COUNTY DEAD

Wells, Or., March 12.—William Cauthorn, a pioneer of Benton county, age 78 years, died here yesterday. Mr. Cauthorn was born at Cross Roads, Essex county, Va., in 1835. His parents moved to Meigs, Mo., in 1850, and he removed to Corvallis with them, and his family, in 1868, and farmed until sickness and old age forced him to retire. He leaves a widow and seven children. Check Raisers to Prison. (United Press Leased Wire.) San Francisco, March 12.—Fred Johnson, alleged to be leader of a gang of bill raisers, was sentenced to serve 20 years in the federal penitentiary at McNeil's Island, and William Monteth was sentenced to three years at the United States district court. Counterfeiting was the charge in each case.

AMUSEMENTS
