

ATTEMPT TO FREE U. S. PRISONERS

Police at Tacoma Find Men at Work on Window Twice in Two Days.

(United Press Leased Wire.) Tacoma, Wash., March 21.—Two well defined attempts to liberate prisoners confined in the federal tank at the Pierce county jail, where Peter Miller, the Seattle convicted burglar and habitual criminal is quartered with ten others, have been frustrated during the last two nights by the combined efforts of deputy sheriffs and the police. About 3 o'clock Thursday morning Dr. James Carroll discovered a man in hiding over a woodpile at the rear of the jail. Dr. Carroll notified Jailer Carlson and an investigation was made. Tracks in the snow showed where a man had been working about the window. Peter Miller's cell is nearest to this window. Later in the day a steel rod about four feet in length and which had been sharpened was found where the man had dropped it. Last night two men were discovered at the same spot, but they were frightened away before the police could surround and capture them. Among the prisoners in the federal cells is Dr. Lyman, under indictment at Los Angeles for the alleged sale of lands to which he had no title.

KILLS COUNTRYMEN WHO LAID FOR HIM

(Special to The Journal.) North Yagima, Wash., March 21.—Naked except for breechcloths, J. Swalk, C. N. Cym and C. E. Yun, Koreans, last night at their home in Moxee Valley, several miles from this city, awaited their countryman, C. S. Sho, prepared to kill him. Sho opened fire at their first threat. He shot Swalk through the lungs, killing him, and Cym in the neck. He also will probably die. Yun fled. Then Sho rode his bicycle to the county jail at midnight and surrendered. Later he accompanied officers to the place to plot a sargon. The men had been living together and quarreling frequently.

SLAYERS INDIFFERENT OF TOMORROW'S FATE

(Salem Bureau of The Journal.) Salem, Or., March 21.—Silent, sullen and nervous, Charles and George Humphrey are passing their last day in the death cells. Tomorrow morning at 8 o'clock they will be executed for the murder of Mrs. Eliza Griffith in Benton county. Everything in the death chamber is in readiness. Governor West repeated his statement today that there would be no clemency for the condemned men, whose crime is one of the most vicious recorded in Benton county. The condemned men display indifference in their actions today, according to the warden, and show no signs of breaking down.

No Easter for Boston. Boston, Mass., March 21.—Homes made Easter gowns will be the vogue here as the result of the strike of 1000 ladies' tailors. Sixty shops are affected.

For tourists and traveling men there has been invented an electric light with stand and shade, all of which fold into the base for carrying when not in use.

ALICE DREXEL TO BE PRESENTED AT COURT

Miss Alice Drexel.

London, March 21.—Miss Alice Gordon Drexel, daughter of Mrs. John R. Drexel of Philadelphia and Newport, will be presented at court and introduced to London society before she and her mother return to Newport. Miss Drexel is in Egypt at present with her mother. The young woman has won great popularity among the winter visitors on the Nile.

The states that have furnished the largest number of presidential cabinet officers, named in their numerical order, are as follows: New York, 39; Massachusetts, 25; Pennsylvania, 30; Ohio, 24; Virginia, 22; Maryland, 18; Kentucky, 15; Illinois and Tennessee, 10 each, and Connecticut, Indiana and Missouri, 9 each.

DANCE HALL MEASURE GETS A RECOMMEND

Single handed, Mrs. L. G. Baldwin, head of the department for the public safety of young women, appeared before the health and police committee of the city council today and succeeded in having the committee recommend her dance hall ordinance for passage. Waldemar Seton and Gus G. Moser, representing Swedish, German and Swiss social organizations, sought to have the ordinance amended to eliminate a provision prohibiting the holding of Sunday dances. The committee, however, sided with Mrs. Baldwin on this score and if the council passes the measure no dancing on Sundays will be permitted hereafter.

The ordinance also prohibits the serving of liquor at public dances or the holding of such dances in buildings connected with saloons. Many other provisions looking to the protection of young girls from contaminating influences are incorporated in the ordinance, which has been developed in length at a number of public hearings during the past few months.

REMOVE CARD TABLES ON SHERIFF'S ORDER

Since Sheriff Word visited the Commercial club Tuesday night all card tables have been taken out of the club rooms and card playing has been discontinued, according to a statement made this morning by Mr. Word. This was in accordance with orders given to club officials after he had heard that card playing was allowed in the place and had paid a visit to the club. "I have also notified officials of several other prominent clubs that card playing would have to be stopped," said Mr. Word. "I issued these orders after I had heard that money had been lost in gambling games in certain of these places, by men who were not members, but had only been taken into the place by some friend."

PENDLETON WILL GO AHEAD WITH PAVING

(Special to The Journal.) Pendleton, Or., March 21.—More street paving in Pendleton is to be started soon, following the rejection by the council of the remonstrance to the proposed improvement of West Webb street, from Cobble to Tutuilla, a distance of 18 blocks. But 98 per cent of the property in the district was represented on the protest, and it was rejected unanimously.

CARNEGIE MONEY NOT "TAINTED" TO PENDLETON

(Special to The Journal.) Pendleton, Or., March 21.—Pendleton will make application for a \$25,000 Carnegie library. This has been determined upon by a special committee which has

been investigating for several weeks, and it recommended to the council that steps be taken to secure the appropriation. The committee reported that \$25,000 would be sufficient to erect a building suitable to the needs of the city and the library board promptly endorsed the recommendation. There has been some adverse sentiment aroused because of the "taint" to the Carnegie money, but none developed into open protest at the meeting.

CONTINUES HER FIGHT ON TOBACCO HABIT

In furtherance of her campaign against the use of tobacco, especially in public places and by public officials, Mrs. A. E. Clark read a paper in connection with the matter before the Political Equality league at its Wednesday's meeting in Eilers hall. After quoting from various authors in reference to the use of tobacco, Mrs. Clark called upon the women to stand

by her, declaring that "the growing tide of disrespect for women must be met and driven back." She said, in part: "The only opposition to this movement will be from women who either have this habit (the tobacco habit) themselves, or who are willing to pander to the lowest in men for their own selfish reasons. "If there are those who wish to see womanhood held more cheaply than it is now, they have only to applaud all that is least worthy in men. Their work is pitifully easy."

Two File Petitions. Bankruptcy petitions were filed in the office of the federal clerk yesterday by William Lowit and Tom Thompson, both of Portland. Lowit, who gave his occupation as a manufacturer, listed liabilities of \$1539.95 and assets of \$1722.74. Thompson's liabilities are \$3737 and assets are \$905.

Uruguay will establish a public stock yard and 19 public slaughter houses.

The cordial, home-like atmosphere with which Phil Metchan has filled the Imperial Grill is largely responsible for the ever-growing popularity of this charming hostelry. The Sunday dinners are really a delightful, informal function, where Portland men and their wives or sweethearts enjoy a change.
