If He Does Not, It May Go to Thomas Nelson Page, William Church Osborne, or Frances.

(United Press Special Wire.) Washington, March 22.—If Charles W. Eliot of Harvard, has written a letter to the president declining the proffered appointment of ambassador to Great Britain, it had not reached the White House at the close of business today. Then followed a 13-year-old girl in the third stage of the disease, a blonde haired girl of 25 and a little Italian girl with tubercular glands.

She grimaced with pain when the cloth brace was tightened about her arm, but looked at Dr. Friedmann with the confidence with which children seem to regard him.

Friedmann injected a tenth of a cubic centimeter in this child's arm and one half of a "C. C." into her thigh. After one incipient case had been rejected at the suggestion of Dr. Brannan, three more girls of women were treated.

Dr. Friedmann announced today that he will probably return to Berlin in a couple of weeks for the purpose of treating patients in his private hospital.
