

SCHOOL ATHLETES "MAKING GOOD"

Glencoe Pupils Are Taking an Active Part Under New System There.

The Glencoe school, East Forty-eighth and Belmont streets, can well be proud of its system of athletics. Principal Stafford believes in plenty of play for the children, and he also believes that the play should be conducted along right lines. To that end he has appointed different teachers to supervise the athletic and play of the children, and the result is that they are making remarkable progress.

There are three outdoor basketball courts on the school grounds, and these are filled with the pupils throughout the year, good weather permitting. Miss Mrs. Dola has charge of the play of all intermediate girls; Miss Helen Dunham of the senior girls; Miss Fitzpatrick of the smaller boys, while Mr. Stafford has charge of all athletics of the larger boys. Right now he is coaching the school baseball team, with the view of making them serious pennant contenders in the coming interscholastic league.

The pupils recently gave an entertainment in the assembly hall of the school, which netted them \$186.68. The entertainment consisted chiefly of gymnastics and drills, in which many of the pupils are

very proficient. A number of literary and musical selections were also given. The proceeds will be used for the purchase of gymnasium apparatus.

The manual training building for the school is now under construction and will be completed within a short time. When completed it will afford more space than any other building of like nature in the city. Like all shops now designed by J. L. Kerchen, city supervisor of manual training, it will have a metal work department and a forge with two anvils. At present the school is sending two manual training classes of 12 pupils each, to the Mount Tabor school each week. Fifty minutes of the boys' time is required in walking to and from the schools, so the adding of this department to the Glencoe school will be welcomed alike by both teachers and pupils.

LEPPER WILL LECTURE UPON PANAMA CANAL

L. M. Lepper will deliver his interesting "Panama Canal" lecture at the North Albina branch library, corner Killingsworth avenue and Commercial street, next Thursday evening, March 27. Mr. Lepper is an ex-railroad man, and the lecture, which will be illustrated, is certain to be very instructive as well as entertaining. The public is cordially invited.

HALSEY STREET ASS'N WILL MEET SATURDAY

The Halsey Street Improvement association will meet next Saturday evening at the Melvie hall, East Eighty-second and Halsey streets. Several committees from the club are now out making a

special effort to raise the required amount of funds for the extension of the carline to East Eighty-second street. It is stated that this amount will likely be promised by Saturday night.

PLAYGROUND ISSUE WILL BE DISCUSSED

A meeting of the citizens of the district will be held tomorrow evening in the assembly hall of the Glencoe school. The purpose is to more thoroughly acquaint the parents regarding school life and school work.

L. H. Weir will talk about playgrounds; R. L. Sabin will advocate the use of the school as a social center; V. Vincent Jones will also give a talk.

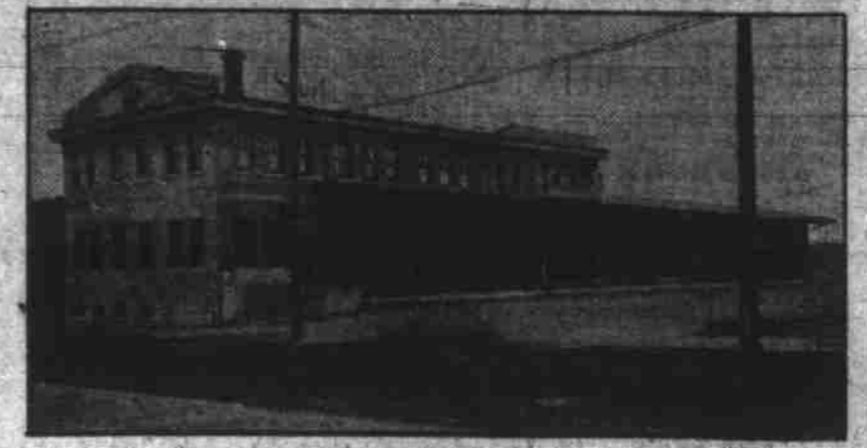

LOMBARD TO SPEAK ON COMMISSION FORM

There will be a joint meeting of the Rossmore and Hancock Improvement clubs tonight at the Presbyterian church, East Forty-fifth street near Sandy Boulevard. Gay Lombard will address the meeting on "The Commission Form of Government." The meeting is open to all citizens of the district, and all women are especially urged to attend.

Kisses Sister, Shoots Himself.

(United Press Leased Wire.) San Francisco, March 25.—After kissing his sister goodbye with the declaration that he was going back to his home in Sacramento, James Alfred Hall, 19, retired into another room in his apartments here, and put a bullet through his heart, dying almost instantly. The body was shipped to Sacramento for interment.

Hall had been subject to epileptic fits since childhood.

SOUTHERN PACIFIC EAST MORRISON PASSENGER DEPOT

The Southern Pacific Passenger Depot is located between East Morrison and East Alder streets and occupies a space 30x44 feet. It is built of concrete blocks and cost \$28,000. The grounds and depot cover about 47,500 square feet.

The depot building is divided into three compartments. The center being the waiting room proper, contains a floor space of 1017 square feet. The baggage room is located on the north end of the building and covers a floor space of 588 square feet. On the south end are located the ladies' dressing room and men's smoking room.

The ticket office is located in the center of the main waiting room fronting east, and occupies a space 15x13 feet. The ticket windows are so located that access can be had from both sides.

All classes of tickets are handled, local and interline, and all trains except the Shasta Limited and No. 15 leaving Union Depot at 1:30 A. M. stop at East Morrison Street Depot.

The Southern Pacific offers the same passenger facilities and accommodations at East Portland as are available at central stations in the large cities on its lines.

SOUTHERN PACIFIC NEW EAST SIDE FREIGHT DEPOT

The new freight depot recently erected by the Southern Pacific in central East Portland at a cost of \$106,000 is located between East Oak and East Ash and between East First and East Second streets. It occupies a full city block. The building is of reinforced concrete construction, two stories in height with basement. It is 200 feet long by 41 feet wide, having a total floor space of 2100 square feet. The office proper occupies a space of two floors in one end of the building.

Total area covered by the loading tracks for freight house service is 2 1/2 acres with a length of 830 feet. Door space for loading and unloading teams 190 lineal feet. There is a special platform having two tracks for loading and unloading heavy machinery and automobiles. Streets are planked between tracks so as to permit direct loading to cars. Total capacity of house tracks at one loading is 65 cars.

The Southern Pacific offers the same facilities for handling freight in East Portland as are available in the larger cities on its lines.

THE SOUTHERN PACIFIC RY.

Realizing the strategic location of EAST PORTLAND, is expending \$12,000,000.00 in ELECTRIFICATION and EXTENSIONS—340 miles of INTERURBAN LINES in WILLAMETTE VALLEY; so that "The MARKETS will be only 30 minutes from the FARMS"—bringing the FARMS close to PORTLAND; with 100 TRAINS DAILY. THREE distinct ROUTES reaching every portion of the valley.

The thousands of tons of agricultural produce, grape and citrus fruits, hops, dried fruits, potatoes, onions, lumber, wool, mohair, brick, tile, canned goods, livestock, comprising the principal products of the Willamette valley, and moving to and via Portland, must all pass through East Portland; the trains today bringing in this traffic are broken up in their East Portland Yards—This alone is sufficient to indicate that East Portland is the logical location and destined to be the GREAT JOBBING MARKET; and RETAIL CENTER of PORTLAND, and the many other advantages enjoyed by the central East Side, insures this in the near future.

You should encourage this development by TRADING on the EAST SIDE. Get ready for this GROWTH—GET THE HABIT—Begin now by trading with East Side merchants. Tomorrow, Wednesday Will Be BARGAIN DAY on the EAST SIDE. SAVE MONEY. Each article a bargain as advertised below.
