

### HALF OF VOTERS IN TOWN ARE TO SIGN RECALL IN SEASIDE

Already Many More Signatures Than Necessary Have Been Obtained but Petitions Are Still Being Circulated.

(Special to The Journal.)  
Seaside, Or., March 25.—Owing to the fact that it is the desire of those circulating the recall petition against Mayor Alexander Gilbert of the city that public sentiment be thoroughly analyzed before drastic steps are taken, the petition is still in circulation, but each day the names are being added until the list totals 110. These names were all secured within one week.

About 30 signers are women who know their names on the petition are of little importance because they are not registered voters, but are willing, nevertheless, to go on record as opposing the executive's alleged indiscretions in conducting the mayoralty affairs.

If one half of the voters of the city sign up this week the petition will be filed. It is thought that if that many voters are opposed to the present state of affairs that a charge should be sought for. The voting strength of Seaside is about 200.

No prospective candidates have entered the field against the present mayor, other than E. N. Hurd, who asserts that in the event of a more popular man being elected for the office he will gladly withdraw his name and boost for the other fellow. He has stated he would prefer another should run, but has mentioned no names.

### WILL MOVE BRICK HIGH SCHOOL FOUR BLOCKS

(United Press Leased Wire.)  
San Francisco, March 25.—For a month the big brick High School of Commerce building here will resemble a private car, with its own specially constructed track and other equipment. It will take about 30 days for the building to complete its journey from the civic center to a location four blocks distant, moving at the rate of 50 feet a day.

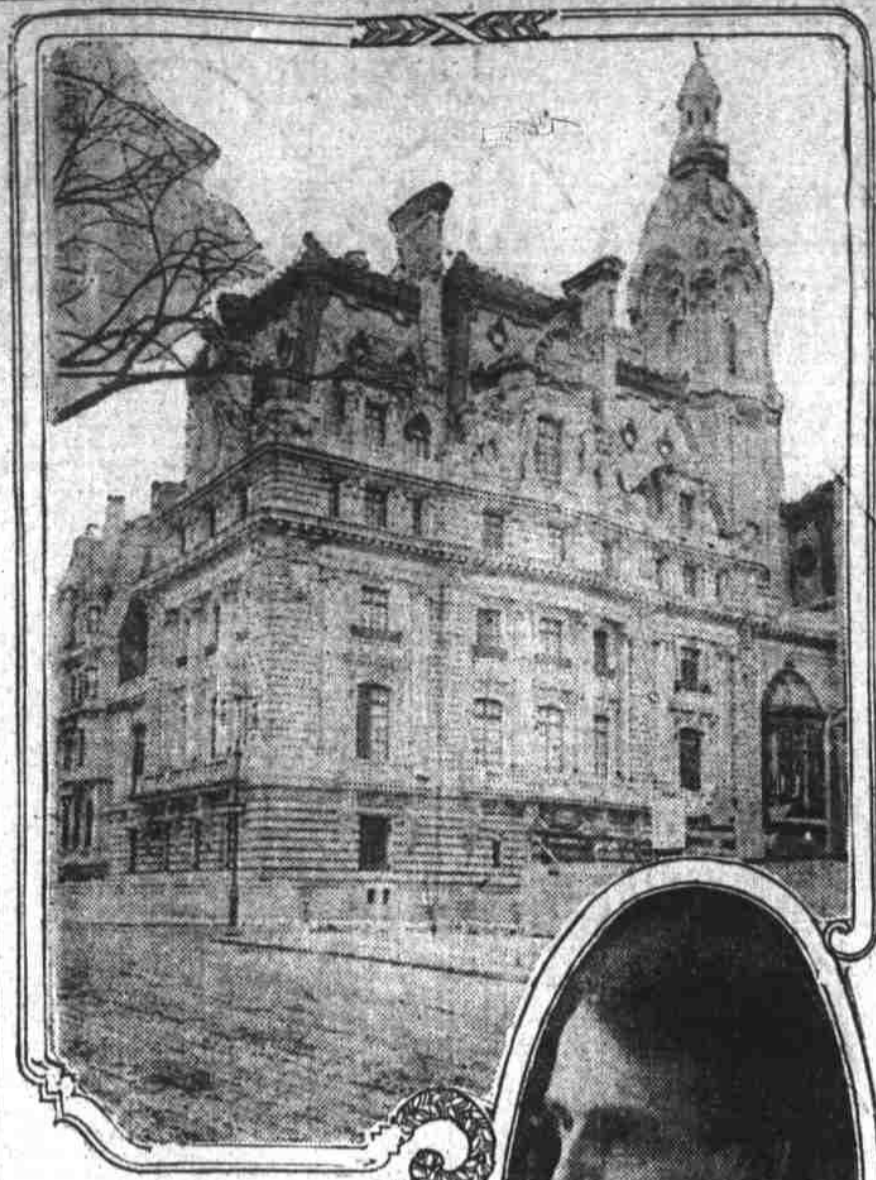

The structure weighs about 85,000 tons, making its removal by horse-operated house moving apparatus impossible. Therefore steel rails for a special track are being laid today for the rollers on which the building will be placed. A battery of donkey engines will do the rest.

### SCORES OF LETTERS ASK ABOUT OREGON

Letters from people eager to gain information about Oregon and its resources are coming in large volume to the Portland Chamber of Commerce. This morning's mail brought 36, and they were from every section of the country.

The east is represented by inquiries from Providence, R. I., New York city, and Washington, D. C. The south contributes letters from Atlanta, Ga., and Richmond, Va. The great mass of inquiries emanate from the middle west, Coffeyville, Kansas; Pawnee, Ill.; Avoca,

### LIVES IN \$7,000,000 HOME

Iowa; Arcadia, Kansas; Releigh, Ill.; Hatton, N. D.; Glasgow, Mont.; Oak Hill, Ill.; Mio, Mich.; Mionok, Ill.; Mapanee, Ind.; Grayville, Ill., and Omaha, Neb.

As the names of the towns indicate the inquiries come from the smaller communities and are from farmers who wish to take advantage of the rich soil of Oregon. Even the Pacific coast furnishes inquiries for the Chamber of Commerce to answer. Southern California furnishes inquiries from Los Angeles, Pasadena, and the National Soldiers' home. British Columbia has some people from Vancouver and New Westminster who desire to emigrate to Oregon. Even the state of Washington has some people who desire to make their future homes in this state.

The register kept in the exhibit of Oregon's resources of the chamber points to the same conclusion and also indicates that Oregon is drawing for its population very heavily from the middle west.

### CLUB PRESIDENT BUT THREE YEARS OF AGE

(United Press Leased Wire.)  
London, March 25.—The town of Old Warden, Bedfordshire, boasts the youngest club president in the world. Richard Ormonde Shuttlesworth, aged 3, has just been chosen to succeed his father, recently deceased, who for many years was president of the Reading and Recreation club of that village.

### PATENT MONOPOLY IS UPHELD BY U. S. COURT

(United Press Leased Wire.)  
Washington, March 25.—Slightly strengthening the monopoly established by patentees by its recent decision in the Dick mimeograph case, the United States supreme court has affirmed a decision of the Illinois federal court in

E-Senator William A. Clarke, the copper king, and his New York palace.

(Special to The Journal.)  
New York, March 25.—Members of the Society of West Virginia are still talking over the experience enjoyed during a tour of inspection through what is probably the most remarkable private dwelling in the world, the \$7,000,000 home of William A. Clarke, copper king and former senator from Montana. For three hours the privileged West Virginians feasted their eyes on the magnificent beauties of this great pile, which is built of marbles from all of the great quarries of the world, trimmed with 1,000,000 pounds of bronze, and decorated with paintings by the masters and tapestries, ancient and modern, gathered from all parts of the world.

awarding damages for patent infringement on a gas heater. The lower court denied the right to the Fair store of Chicago to sell the heaters at a less price than the patentees fixed.

Cut out the fizz and fuss and fill up on zeal and zest.

### CORVALLIS HAS O. E. SERVICE NOW

Officials of Road Are Welcomed to City at Luncheon Held Today.

(Special to The Journal.)  
Corvallis, Or., March 25.—The Oregon Electric railway was officially welcomed to Corvallis at a noon luncheon given today at the Commercial club. A delegation consisting of city councilmen, Commercial club officers, and representatives of the local newspapers

journeyed to Gray station on the main line, where they met the railway officials who came from Portland this morning on the Eugene Limited. The party arrived at Corvallis at 11:40 o'clock and went immediately to the Commercial club to attend the luncheon.

### INSPECTING PROPOSED SCENIC RIGHT OF WAY

Assured by the O-W. R. & N. company that it will enter negotiations with Multnomah county in respect to the encroachment of the proposed Portland-Hood River road on its right of way, officers of the county court today are guests of the company viewing several places where the road will conflict with the railway.

Accompanied by J. P. O'Brien, vice president and general manager, and other railroad officials, County Judge Claxton, Commissioners Lightbar and Hart, Road Supervisor Chapman and County

Surveyor Holbrook left Portland on a special train at 9 o'clock this morning. They will return this afternoon.

The commissioners yesterday appointed Alma Hollingsworth assistant telephone operator at the courthouse at a salary of \$40 per month, the appointment becoming effective February 23. A contract to furnish the sheriff's office was awarded the Mosler Safe & Lock company, which bid \$90, the lowest one made.

An order was signed granting the petition of the justice court to continue E. J. Carr and E. W. Morgan as clerks for 30 days more. The appointments were made effective from March 13.

### RUSSIAN BOYCOTT OF AMERICA IS FAILURE

(United Press Leased Wire.)  
St. Petersburg, March 25.—The proposed boycott of American made machinery in Russia is meeting with small

success. Reports received here from several outgoing districts of the committee say that the Zemstvo are unanimously in refusing to sanction the move.

The boycott was first advocated by M. Gutchkoff, the Octoberist leader, as a measure of retaliation for the denunciation by the American government of the Russo-American commercial treaty on account of the Russian government's refusal to honor passports issued to Jewish-American citizens.

Judge Nathan Goff, the new United States senator from West Virginia, has had a most distinguished career. In the Civil war he served in the Union army and was brevetted brigadier general. President Grant made him district attorney in West Virginia and President Hayes appointed him secretary of the navy. President Harrison appointed him circuit judge in 1882 and last year President Taft made him judge of the United States circuit court of appeals.

## The First Step Away From Coffee Troubles

Fill in this Coupon and Mail it.

**POSTUM CEREAL CO., Ltd.,**  
Battle Creek, Mich.

Enclosed find 2c stamp for trial tin of Instant Postum.

Name \_\_\_\_\_

Address \_\_\_\_\_

Grocer's Name \_\_\_\_\_

When the burden of troubles from coffee drinking becomes too great, and irritable heart, disordered digestion and "fussed-up" nerves are Nature's warning to halt, the natural, easy way back to health and comfort is to stop coffee and use

## INSTANT POSTUM

This pure food-drink much resembles mild Java in flavour, but is free from the coffee drug, **caffeine**—the coffee drinker's cause of trouble.

Postum is made of Northern wheat and the juice of Southern sugar-cane.

**Instant Postum requires no boiling**

A spoonful in a cup of hot water, with sugar and cream to taste, and you have "quick as a wink" a delicious drink.

**"There's a Reason" for POSTUM**

Sold by Grocers Everywhere.

## A Good Reason Why You Should Use The Northern Pacific Service

**Dr. Harvey W. Wiley Says:**

"The Northern Pacific Dining Car service is superior to anything that had come under my previous observation. The food seems pure and wholesome. The other railroads could do well to emulate the methods of the Northern Pacific. I am told that nearly everything used on their dining cars is grown on their own farms and that it is carefully selected and ably prepared in the company's kitchens. It was a pleasure for me to eat while traveling on this road.

"I ate some of the GREAT BIG BAKED POTATOES and they are all that has been claimed for them."

## After That Don't You Want Northern Pacific Service?

**Twice Daily**  
A 72 Hour Train  
**To Chicago**  
From Portland  
None Better

**Tickets**
