

### CAUSE OF WOMEN IS CHAMPIONED BY COAST SENATORS

### Chamberlain, Lane and Poin- dexter Advocate Suffrage Before Senate Committee; Results in Oregon Praised.

(United Press Lensed Wire.)  
Washington, April 21.—With Senators Chamberlain and Lane of Oregon and Senator Miles Poindexter of Washington as the principal speakers, suffrage was given a hearing today before the senate committee on woman suffrage.  
In expounding the cause of equal suffrage, Senator Poindexter said the opponents of suffrage would oppose any franchise based on human right and human need.  
Senator Chamberlain, who introduced the suffrage constitutional amendment two weeks ago, said he thought congress could enfranchise women by a simple enactment and without a change in the constitution. He referred to the superior qualifications of women in educational and other fields, and predicted that the "effete east" could be taught much in development of good citizenship in suffrage states.  
Senator Lane said he could not understand any reason for delay, and would give the ballot to women at once with an apology for the delay.  
Congressman French of Idaho said he never had heard of a case in his state where politics had broken up a home, and believed that society had a right to demand women's help in solving problems.  
May Wright Sewell, honorary president of the International Women's council, said:  
"As an educator I protest against the waste of which the nation is guilty by failing to utilize so great a section of its most carefully educated people. You have spent too much money on us, men have showered too much attention on our upbringing, and you have transmitted too many qualities and abilities of American men to deny the nation the use of this ability."

### WOMAN AIDS LOVER IN ESCAPING JAIL

Giving a guard liquor and holding attention until Frank Anthony, sentenced to the Leavenworth federal prison, could escape, was the story told yesterday by Anna Calkins to Detective Letherland of the local detective bureau, and Captain Daniel W. Hind and Lieutenant George C. Rockwell of Vancouver barracks. The young woman was arrested upon request of the army of officers, who are seeking Anthony, to whom the girl is engaged to marry.  
While she willingly told how she effected his escape, not a word was told of his hiding place or where he could be found. The guard who listened to the woman's temptations is now himself a prisoner. Anthony and the girl were to have been married March 25. He escaped March 23.  
Among the personal effects of the young woman is a diary kept by her since January 1. This diary shows the young woman to deeply regret the life she has been living, at frequent intervals mention is made that a strong desire exists to return home on March 25, the diary reads: "Will the time ever come that I can make my living honestly. If I only had a home situated in my own thinking of mother whom I love. How I long for my friends, sisters and brothers, but will never go home or write."  
At a later date, the diary reads: "Am I not tonight, miserable and tired. Oh how I hate the life I am living. I am thinking of mother, brothers and sisters. Why can't I be with them? I done right while I was with them. Why did I leave it?" March 21, the diary reads: "I am thinking of mother and home. It's hard to be out in the world alone. On the following day, the book closes with: "Am thinking of home and friends. I wonder if they are thinking of me."

### MOTHER SAVES BABE BUT IS KILLED HERSELF

(Special to The Journal.)  
Spokane, Wash., April 21.—From burns received Thursday night while shielding her sick baby from flames caused by an exploding alcohol lamp, Mrs. William Schmidt, 40 years old, died last night in terrible agony. Her husband is also suffering from severe burns sustained in attempting to rescue his wife.  
Mrs. Schmidt was vaporizing crockets over an alcohol lamp when the infant, who was lying on the bed, coughed, setting fire to the baby's bed clothing. She snatched the blankets from the crib, igniting her own clothing, and was deeply burned about the head, breast and arms.

### WOULD RAISE PAY OF CITY COUNCILMEN

A proposed charter amendment to be submitted to the voters of the city at the June election, in the event the commission charter is not adopted next month, provides that councilmen shall receive salaries of \$25 a week instead of \$25 a month as at present.  
"This is a matter of vital interest to me," said Councilman Clyde today, "and I know from experience that a councilman cannot afford to give up his time for \$25 a month. I will introduce an ordinance requesting the city council to place on the June ballot this amendment for an increase in salaries."

### RUSHLIGHT TO START HIS CAMPAIGN TONIGHT

Mayor Rushlight will tonight make the first of a series of campaign speeches to be undertaken by him when he will address an audience at the Sons of Hermann hall, Barco street and Washington street, at 8 o'clock. State Senator Gus C. Moser and W. H. Fitzgibbon will also attend.

### BAKER ORIGINARY CASE IS JUDICIAL

### William R. Mead's Guilt Was at First Disbelieved Even by Police.

(Special to The Journal.)  
Baker, Or., April 21.—When William R. Mead in circuit court entered a plea of guilty to setting fire to the White photograph studio on two different occasions, the climax of an unusual case was reached—unusual both because of the nature of his crimes and the character of the man.  
The petitioner is a young man who has been a resident of the city for the past seven years, engaged in photography with great success. He made friends and prospered, invested his savings in sound enterprises and was doing well. He owned an auto.  
Shortly before 913 a gallery was opened by C. J. White, who by strenuous advertising did a large business. During the holiday season his studio on Second street burned down, and little would have been thought of it had not the loss of his camera, valued at \$175, been missing. White claimed incendiarism was the cause of the fire, but few believed him. He moved his quarters to another location, and soon it too was fired, the incendiary pouring alcohol under the back door and touching fire to a rag soaked in alcohol run under the door. The evidence was there and this time White's statement was believed.  
Suspicion pointed to a young lad named Hermesen, who had been around the place seeking employment. Hermesen is 18 years of age, and the son of a prominent resident. He was finally arrested and at once confessed, implicating Mead as the one who had done the actual work of firing both places. Mead, when arrested, broke down and confessed, and the stolen lens was found in his studio. When indicted, he was admitted to bail in \$2000, and a few days ago returned to face the charges, after having been several weeks in the east visiting relatives. He and Hermesen both entered pleas of guilty.

### RIVER CLYDE WIDENED TO FLOAT AQUITANIA

(United Press Lensed Wire.)  
Glasgow, April 21.—After the river Clyde had been widened to permit her to slip safely from the ways, the Cunard liner Aquitania, said to be the largest vessel afloat, was launched here today. The Countess of Sherry christened the monster vessel.  
The Aquitania is 400 feet over all with a 22-foot beam. She is 50,000 tons register, and carries 50 turbines of 1000 horsepower each. She will accommodate 4000 passengers and will carry a crew of 1100.  
Scores of lifeboats and two motor launches are provided for the giant liner.

### MAYOR PARDONS 56 I. W. W. S IN DENVER

(United Press Lensed Wire.)  
Denver, Colo., April 21.—Following a pardon granted them by the mayor today, the 56 Industrial Workers of the World who were put in the bull pen here after a demonstration against the police, were given their liberty. The mayor agreed to grant them permits to speak in the streets, provided they do not abuse the police or city officials.  
The men declare the Denver local of the I. W. W., deceived them in regard to the present situation here. Most of them intend to leave the city.

### ATTEMPT TO BLOW UP TAMMANY CLUB IN N. Y.

New York, April 21.—The second attempt in two years to destroy the Tammany club, a Tammany organization, was made here early today when an exploding bomb wrecked the basement and the first floor, and threw clumbers on the fourth floor off their feet. The stained glass windows of Grace Episcopal Protestant Episcopal church nearby were ruined.

### FOES OF MAYOR GILLIS TRYING TO RECALL HIM

Walla Walla, Wash., April 21.—Recall petitions against Mayor A. J. Gillis and Commissioner Struthers and other improvements Struthers are being circulated and according to statements of men backing the movement, more than 700 signatures have been secured. According to the Allen bill 1228 signature is necessary before an election is called.  
Local option adherents are preparing to circulate petitions for another wet and dry election, it being their opinion that if a recall election is to be held the liquor question can be voted upon at the same time. It is said that the special election, should the petitioners be successful in securing enough signers, will cost in the neighborhood of \$2000. Mayor Gillis and Commissioner Struthers say they do not fear the result of a recall election, should one be held.

### SAN DIEGO WILL GET STATE BUILDING

Sacramento, Cal., April 21.—The senate, by unanimous vote, today passed Assemblyman Hinkle's bill providing for an appropriation of \$200,000 for a state building at the Panama-California exposition in San Diego in 1915.  
The bill, which already has passed the house, now requires only the signature of the governor to become a law.

### Guards Mutiny; Join Strikers.

Brussels, April 21.—One soldier was killed and several others injured today when two detachments of troops, sent to guard a factory at Fontaine Leveuve, mutinied and joined the suffrage strikers. The military patrol pursued the strikers and the mutineers fired on the patrol and fled.

### BOY KILLS THE KILLED 3 PERSONS

### "Children Made Too Much Noise," He Said; Shot Mother, Brained Two.

(United Press Lensed Wire.)  
Elgin, Ill., April 21.—Confession that he killed Mrs. Manny Sleep and her two small children on the Sleep farm near here is made here today by Herman Coppel, 16, a feeble-minded boy who had been employed by Mrs. Sleep.  
The bodies were found in an abandoned cistern. Mrs. Sleep had a bullet hole in her head. The eyes of the children were broken and their skulls fractured.  
Coppel was held today for the action of the grand jury. He probably will be tried at the May term of court.  
Mrs. Sleep and her children were buried this afternoon.  
"When I came home from school," said Coppel to the police, "in explaining the murders, 'Mrs. Sleep asked me if I was hungry. I didn't answer. I just drew a gun and shot her. Then I killed the kids. They made too much noise, anyway. I could not shoot them when they looked up at me, so I got an axe and struck them from behind.'"

### ANTI-ALIEN BILL IS UP THIS AFTERNOON

### It Will Probably Take All Week for California Legislators to Agree on Measure.

(United Press Lensed Wire.)  
Sacramento, Cal., April 21.—Unless action is delayed by the introduction of new amendments, the senate substitute anti-alien bill probably will be taken up in the senate this afternoon.  
Opposition, both to the bill and the amendments protecting European capital and exempting lands used for oil, mineral, lumber and shipping purposes, is expected.  
Senator Wright of San Diego has announced that he will fight any anti-alien land bill that is presented, and other senators have declared their opposition to the two proposed amendments.  
Determined efforts are being continued by powerful interests in the state to secure the passage of an amendment that will allow European capitalists to hold land. If such action is taken it will be done in haste, in such a way as to avoid the words "ineligible citizenship" which President Wilson has requested be not used.  
The general unfamiliarity of the members of the California senate with the details by which anti-alien legislation may be expected to be worked out along the policy defining the bill, was today given as reason for anticipating further delay in securing final action.

### SIX MEN ON GUARD AT GRAVE OF TORNOW

(Special to The Journal.)  
Montesano, Wash., April 21.—Five men, accompanied by a deputy sheriff, all armed, watched over the little cemetery which held the body of John Tornow last night to prevent invasion of the grave by ghouls. It was feared by the brothers of the body would be removed and they requested the guard.  
The bodies lie in the family burying ground adjoining the Tornow homestead just over the line in Mason county. Many friends attended the services and a great crowd was present. Men taken from the Tornow homestead, many being those planted by the outlaw before he left his home, were laid on the grave or thrown on the casket.

### BAKER, OR., IS TRYING TO BE SPOTLESS TOWN

(Special to The Journal.)  
Baker, Or., April 21.—Baker is now a spot and span city, ready for spring and as neat and clean as the efforts of practically all citizens Saturday could make it. Saturday was the occasion of the annual spring clean up, inaugurated jointly by the council, the Alpha club and the Commercial club, three years ago. The Alpha club, a women's organization, was the prime factor in instituting the custom.  
The city takes away all rubbish from premises free of charge, where the occupants do not care to bear the expense, the only end sought being that all do their share. A great many residents anticipated the official clean up, and did their work earlier. Lawns and curbs are being parked and the appearance of the city is rapidly improving over a few years ago.

### PENLETON WOMAN AND SON HURT; AUTO UPSETS

(Special to The Journal.)  
Pendleton, Or., April 21.—In the first automobile accident of the year in Pendleton, Mrs. J. Rogers of this city suffered a bad cut over the eye and many bruises and one of her small sons was quite severely injured. Another son was driving the car last evening when it turned turtle. All the occupants were thrown from the machine except the driver, who was pinned beneath the car, but escaped injury.

### Captain of Liner Fined.

San Francisco, April 21.—That the treasury department has a heavy hand to lay on all sorts of smugglers and their agents was evidenced here today when Captain Rogers Allan of the Pacific Mail steamer China was fined \$400, following an opium seizure on that vessel. The original fine recommended by Collector Stratton was \$2500.

### MOVIE-GIRLS SAVE NOUDY IN LOS ANGELES

### Alleged Pursuit of Moving Picture Actress by Millionaire Precipitates Wholesale Investigation by Police.

(United Press Lensed Wire.)  
Los Angeles, April 21.—A white slave inquiry of far reaching scope is promised today by Chief of Police C. E. Seabastian and Deputy District Attorney Ralph Graham, following sensational revelations by Katherine Phillips, aged 19, a beautiful moving picture actress. Miss Phillips, the police say, told them of her pursuit by a wealthy southern California man, whose name they refuse to divulge.  
Forty-one other girls, under 21 years old, are being interrogated by the police, and four already have made affidavits implicating the unnamed millionaire as a contributor to the delinquency of at least six of the minors.  
Deputy District Attorney Graham, it is stated, will ask the county grand jury to make a thorough inquiry of the complaints which recently resulted in the arrest of Mrs. Josie Rosenthal, who resided on South Hill street at Mrs. B. Goodman.

### Woman Blames Police.

Washington, April 21.—Declaration that the police of the country are largely responsible for white slavery evils was voiced today by Mrs. Kate Richards O'Neil, editor of the Rip-saw, a Socialist publication.  
"The country's police," said Mrs. O'Neil, "is a part and parcel of the white slave traffic because of their methods for its regulation and the graft prevailing."  
"More than 125,000 women of the underworld die of disease or commit suicide every year, and the same number of healthy girls take their places."  
"The white slave vice is due to economic conditions, and the low wages paid men workers are fully as much to blame for the social evil as the low wages paid women. Men are unable to support their families alone and the women are compelled to work. Their downfall frequently follows."

### Draft New Wage Bill.

Springfield, Ill., April 21.—Bills providing a minimum wage commission as a result of the recent investigation into the wages paid in this state to girls and women will be introduced in the state legislature, according to tentative plans made by a legislative committee. State Senator J. J. and Lieutenant Governor O'Hara are drafting this legislation.  
The bill will provide for a commission of five members, consisting of two employers, two wage earners and a sociological expert. At least one member of the commission will be a woman.  
The bill provides for a term of apprenticeship, not exceeding one year, during which the employer may pay the wages he sees fit.

### MUTUAL LOAN BODY FORMED TO HELP JEWS

(Salem Bureau of The Journal.)  
Salem, Or., April 21.—For the ostensible purpose of loaning money without interest to Hebrew workmen, a number of Portland Jews have organized the Mutual Loan association and submitted articles of incorporation for filing under the law governing charitable societies. Corporation Clerk Babcock refused to accept the articles unless full fees were paid as required of organizations engaging in a money-making business.  
"It appears to be a move to combat the Portland Remedial Loan association incorporated last week," said Mr. Babcock, "but that association came in and paid the regular fees."  
While the articles state the money is to be loaned without interest, the funds are to be raised by dues, donations or assessments and it is pointed out that there is no obstacle in the way for the officers of the association from drawing salaries that would fully compensate for the lack of direct interest charges. Those signing the articles are Philip Jacob, Victor Kritishevsky, David Cleland, A. Lachinsky, S. Freeman, H. Pender, A. Spivak and W. Rossmay.

### EX-KING IS BETROTHED TO GERMAN PRINCESS

(United Press Lensed Wire.)  
London, April 21.—Reports that former King Manuel of Portugal is betrothed to Princess Augusta Victoria, daughter of Prince William of Hohenzollern, were confirmed today by Manuel's private secretary.  
Prince William does not belong to the same branch of the Hohenzollerns as the Kaiser. Manuel is now a guest in Sigmaringen castle, Prince William's home, in Germany.  
The progress being made by the tariff bill in the house Democratic caucus also is pleasing to the president, and he is confident that it will not meet with any difficulty either in the house or senate.  
He intends to back up the sugar and wool provisions to the end, and expects the senators now objecting to them to recognize that the party is pledged to enact such laws. He does not sympathize with the view in some quarters that the reciprocity sections of the bill cannot be worked out.

**STATE S. S. CONVENTION  
BEGINS AT BAKER TODAY**  
Baker, Or., April 21.—The twenty-eighth annual convention of the Oregon State Sunday School association began in this city at the Methodist church today. The session will continue for three days. Two hundred delegates are present. All the Protestant denominations are represented except the Episcopal. A union rally to precede the convention was held by all the city churches last evening.  
A parade of Sunday school children of all ages will be held Tuesday afternoon. They will march through the streets carrying banners and singing.

### FIRST BOOZE GOT THEIR 1.5 PER CENT

### Bunko Gang Head Implicates Captain, Detective, Lieu- tenant, 2 Patrolmen.

(United Press Lensed Wire.)  
San Francisco, April 21.—Following charges by Maurice De Martini, a member of the notorious De Pietro gang of swindlers which secured \$100,000 here, that Police Captain Eugene Wall, Detective Sergeant Arthur McPhee, Acting Lieutenant James McQuinn, and Patrolmen Frank Esola and Louis Groulet took "protection money" from this gang, a grand jury investigation of the police department was ordered today. It is stated that De Martini in a confession made to a party of disinterested citizens and selected by Superior Judges Dunne and Cabaniss, declared that the police exacted 1.5 per cent of the profits of the bunko ring to allow the ring's activities to continue.  
The accused members of the police department declare the accusations are made in retaliation for their unceasing warfare upon the bunko operators here. Chief of Police White denies knowledge of the alleged confession.

### SCIENTISTS CAN'T GET JOBS PER SE

### President Says They Must Have Executive Ability as Well.

(United Press Lensed Wire.)  
Washington, April 21.—During his weekly audience with the newspaper correspondents today, President Wilson was asked whether he intended to deal with scientists separately in considering their claims for federal positions. He replied that merely because a man was a scientist would not insure him a job, but that he must be a practical man of affairs.  
The president believes that where scientists are needed the government should have the best, but also must have executive ability. He refused to discuss the removal of Professor Willis L. Moore as head of the government weather bureau.  
President Wilson declared he had received no further advice from California, but said he believed Governor Johnson and the California legislature realized the gravity of the situation, and that they would see that there is no discrimination. The president is well pleased because Secretary of State Bryan's telegram was so well received in Japan.

### JAPANESE SPEEDER ASSESSED \$20 FINE

### "Motorcycle Mike," the cycle rider who has terrorized various parts of the east side, was fined \$20 this morning in the municipal court for violating the traffic ordinance. His right name is Henry Konishi, a Japanese employed by a local hotel as butcher. The rider was arrested by Patrolman Burke.

More than a dozen reports have been made to the police against Konishi for reckless riding. Patrolman R. T. Stewart arrested the man a few days ago on the east side, and started to the police station with him. The patrolman mounted the rear seat and intended going to the station. The Japanese rider managed to strike as many rough places in the street as possible, until he jolted the policeman off the rear seat.  
A fine of \$10 was given E. W. Reed for speeding. R. J. Williams failed to appear to answer a charge of speeding and his bail of \$10 was forfeited. R. W. Lee was fined \$20 for exceeding the speed laws. J. N. Bards and Frank Hayek were assessed \$5 costs for leaving their automobiles in front of fire hydrants. E. J. Deane was given a similar fine for blockading a fire plug.

### W. C. T. U. Parlor Meeting.

Mrs. Jackson Silbaugh, a national lecturer for the W. C. T. U., will address a parlor meeting tonight at the home of Mrs. A. P. Lange, 1106 Rodney avenue. Mrs. Silbaugh will discuss the white slave traffic, other moral problems and temperance.

Wednesday's luncheon at the Imperial Grill is "Made in Oregon" luncheon. This novel innovation has become exceedingly popular, both with Portland people and outsiders. Phil Metschan is showing an endless variety of pleasing dishes of native origin.  
Luncheon fifty cents
