

COPIES OF CHARTER AMENDMENT WILL BE DISTRIBUTED

Pamphlet Will Contain Only Amendments to Commission Form; Council to Hold Special Meeting Monday.

By unanimous vote the city council yesterday ordered copies of the proposed amendments to the city charter sent to every registered voter in the city.

The copies of the amendments will be printed today and sent out tomorrow in the mails along with a pamphlet containing the arguments of candidates for primary nominations.

A special meeting of the council will be held next Monday morning at 9:30 to consider alternative charter amendments to be placed on the June ballot in the event the proposed commission charter should fall of adoption.

Will Discuss Amendments

Among the proposed alternative amendments to be discussed at the meeting are the following:

"An amendment providing for manner of eliminating grade crossings of railroads and streets or highways.

"One providing for an increase of salary for the city treasurer; providing for an increase of salary for the city attorney; providing for an increase for city engineers; providing for increases for city councilmen.

"Providing for transportation terminals.

"Providing for special assessments to defray the cost of installing cluster lights, etc.

"Authorizing the sale of sewer bonds to provide for a fund with which to pay a portion of the cost of constructing and reconstructing sewers.

"Placing the chief of police under civil service.

The council repeated an ordinance under which an attempt was made to pardon Fred Hamilton. It was found after the ordinance had been passed that the city has no jurisdiction, Hamilton being a county prisoner.

Accession Is Pardoned

An ordinance was passed pardoning Frank Herald, who was sentenced to 90 days on the rock pile for being drunk.

The city attorney was directed to bring proper action to restrain the Postal Telegraph company from engaging in the business of conducting a district messenger service. The company was reported to have out up a number of

QUEEN SOFIA OF GREECE GERMAN ARMY OFFICER

Queen Sofia, who has just stepped to the throne of the kingdom of Greece, following the assassination of her father-in-law, King George, is here shown as an officer in the German army. She is an honorary colonel in the Second Regiment of the Prussian Dragoons of the Guard, a position which she occupies doubtless as the sister of the Emperor of Germany. She makes a pretty military figure in her trim uniform.

Plans to install underground cables without any franchise to do so.

Contract for the city printing for the ensuing fiscal year was let to the Portland Daily Journal.

Plans for the proposed reinforced concrete bridge across Sullivan's gulch at East Sixteenth street were approved and the city executive board was authorized to invite bids for the construction of the bridge, at request of Councilman R. E. Meneffe.

A resolution was adopted granting permission to the United Artists to place urns at the intersections of the principal streets in the business district. These urns will be filled with flowers during Rose Festival week.

An ordinance granting the Pittock building corporation a permit to construct a concrete buttress was passed.

The council authorized the mayor to appoint a committee to select a site for a gasoline filling station for the use of city automobiles.

SEES DANGER OF JAPAN HINDERING MISSIONARY WORK

(Continued From Page One.)

organized," continued the missionary, "25 years ago, our entire mission in Korea enrolled less than 200 believers. Now it is well over 100,000. The various other missionary societies report as many more, making the total number of Christians in Korea over 200,000, and with the adherents they are a quarter of a million strong."

Tells of Work Done.

Almost the entire missionary program was devoted to the missionaries supported by the society at home and abroad, of whom there are 24, and to hearing addresses from such of them as were able to be present.

Prior to the addresses, however, an interesting feature was the reading of extracts from letters written by the various missionaries to enable members of the North Pacific board to get an idea of the work that they are doing.

Then Miss Maizie Crawford, in charge of the Nez Perce mission at Lapwai, Idaho, spoke briefly. She was followed by Dr. Wells. Then came Miss Carothers, a mission worker in Laos, a little Asiatic country near Siam.

Helen Clark, of Neah Bay, R. H. Milligan, of Tacoma, and Mrs. J. Hunter Wells were also on the program.

Most of the morning session was given to conferences. With Mrs. J. V. Mulligan presiding as acting president, a devotional period was led by Mrs. C. A. Park of Salem. Then Mrs. E. P. Geary of Portland made an address welcoming new life members of the board.

After Mrs. F. I. Fuller, as chairman of a committee to go over the treasurer's report, had made a number of recommendations, they were taken up and acted on separately.

Compromise Is Reached.

One of the recommendations that caused considerable discussion was that the old system of apportioning contributions in the ratio of two fifths to foreign missions, two fifths to home missions and one fifth to freemission owing to the fact, as Mrs. Fuller pointed out, that out of \$23,756 in the treasury, \$15,839 was received for foreign and only \$5284 for home missions. A compromise was finally effected by which three fifths will be apportioned to home and two fifths to foreign mission work.

A 10 per cent increase in all regular gifts to the funds of the board was also approved as recommended.

Most of the discussion centered around the suggestion that all contributions be made in even dollars to lighten the work of the treasurer. After much talk pro and con, and the raising of questions as to whether the step was a businesslike one such as men would make in their organization, it was settled when the acting president said they had no choice anyway because the general board had recommended the plan. Sentiment at the meeting was largely in favor of it.

The session of the board will end with the election of officers tomorrow morning. Mrs. Boudinet Seeler is chairman of the present meeting and Mrs. B. A. Thaxton is secretary.

Few people can be really good on the installment plan.

TELLS OF EVIL OF FAKE ADVERTISING

Harm Resulting From Practice Detailed by A. G. Clark in Address.

The harm that fake advertising does was detailed before the Ad club yesterday by Albert G. Clark, chairman of the club's committee on advertising law and ethics. One of the most serious of his statements was that some of the members of the club were writing the ads which are condemned by the club as a whole. He also said that the committee intends to write every newspaper in the state asking for a statement by each as to the advertising copy which is rejected as undesirable or unfit.

"A man intimated to me the other day that in order to avoid a censorship of copy, all you had to do was to join the Ad club," commented Mr. Clark. "Let me tell you gentlemen that is a very serious comment."

"This committee on advertising law and ethics is not going to recognize any charmed circle. And if this organization does not back us up in the discharge of our duty—as we see the light—then right now we have no Ad club."

"Other men tell me and other members of our committee that right here in the club we have what they call 'strong arm' advertising men. We have that kind of men in every organization, but it doesn't make me feel badly. If they stay in here long enough they will be all right after a while. I am willing to take that chance."

"In addition to actual arrests that are being made for gross violations of the law this committee adopted a plan of moral suasion through the medium of letters addressed to advertisers whose ads violate the spirit if not the actual letter of the law. Thus far communications have been sent to advertisers in many lines, among them being dry goods, tailors, real estate, hair goods, music houses and others, and it is with much gratification that we are able to report that in every single case promises to correct were obtained, and so far these promises have all been kept."

Mr. Clark declared that the Oregon fake advertising law is one of the best and that other states are using it as a model. The meeting ended with a showing of fake advertisements and illustrations of their harm as gathered by the national vigilance committee of advertising men.

GIRL LEAVES HOME; DOCTOR ARRESTED

Father Is Dubious of Good Intentions of Man Who Aids Getaway.

(Special to The Journal.)

Tacoma, Wash., April 24.—Miss Chamberlain left here this morning for Newberg, Or. She has been working for Mrs. W. Goodrich in South Tacoma.

(Special to The Journal.)

Newberg, Or., April 24.—Early Sunday morning Carrie Chamberlain, 16 years old, daughter of E. C. Chamberlain, living just west of town, left home saying she was going to the Presbyterian church to help arrange flowers. She did not return, but her father and step-mother supposed she was with girl friends. When night came her father went to the home of his nearest neighbor, Dr. Elmer Ranck, a chiropractor and inquired for the girl. Dr. Ranck said he had not seen her. It was found her clothing had been removed from her room, though when she left the house Sunday morning she took nothing.

Monday evening Mr. Chamberlain received a letter written from Portland, in which she said she had seen an advertisement of a man who wanted a girl to go with his family to the mining country to take care of their two young children, that they would start in half an hour, that it would be no use for her father to undertake to follow her up, and that she was dissatisfied at home and did not intend to return.

Tuesday morning Dr. Ranck admitted to the father that he had helped the girl get her clothes away Saturday night, and said she was with a friend of his named Dr. Brown living in St. Johns.

The father says that the note was written by Steel Chamberlain, but was apparently a copy of something prepared by some one else. Yesterday afternoon he had Dr. and Mrs. Ranck arrested, and the hearing of the case is on this afternoon before Judge Linville. The two were released at \$100 bail.

Dr. Ranck came here from Tacoma, Wash., over a year ago, and for a time practiced, but for some months has been engaged otherwise. He has borne a good reputation. He is about 35 years old. He had sold some of his effects here and was to have started back to Tacoma yesterday afternoon with his family to the house he had formerly occupied, 5627 South Cedar street, South Tacoma.

Mr. Chamberlain is not fully convinced that his intentions were not, as Dr. Ranck says, to help a discontented girl get away from her home, though he is not at all satisfied with the methods Ranck pursued. The father was induced to take the measures he did at the urging of members of his church.

SOCIALISTS OPPOSE GERMAN WAR TAX

Impost of \$250,000,000 Is Fought Bitterly by Strongest Party in Reichstag.

(United Press Leased Wire.)

Berlin, April 24.—More than 4,000,000 social democrats in Germany are against the government's \$250,000,000 emergency tax for increasing the army and for other military preparations. We are against it in principle and in fact," declared Eduard Bernstein, the famous leader of the "Revisionist" wing of the Socialist party. Bernstein is a member of the reichstag and chief of the progressive and liberal movement in the Socialist party.

"It is true that the proposed one-time property emergency tax will not touch the masses," he declared, "but we are against it none the less. We are against the entire military system. It often has been said here and in the United States that the Socialists lack patriotism. We would not leave the fatherland defenseless, but we are against the military system as it exists. We are against it because it is a 'semi-feudal' system, a system wherein the common man, the man of the people, has little chance to rise."

Bernstein denied that the Socialists would strike in the event of war, but qualified his statement with the remark that "there are wars and wars, and a strike probably would depend upon the sort of a war we were entering into."

"If Germany were invaded," he added, "the Socialists would do their duty to the fatherland, but I do not think we need fear an invasion. This ceaseless, senseless rivalry in armament may lead to war, however. The Socialists are the strongest party in the reichstag. We cannot pass the resolutions and legislation we demand, however, for the kaiser would dissolve that body."

These organizations have a total membership of about 700. The rally is to be at the Church of the Strangers, Grand avenue and Wasco street, at 8 o'clock.

R. W. Raymond, formerly connected with the Portland Commercial club, will present reasons for holding the World's Christian Citizenship conference.
