

ISSUES CALL FOR VOLUNTEERS FOR ROSEBUD PARADE

Teachers and Children Without Exception Seem in Favor of Participation but Parents Show Lack of Interest.

Within two days the principals of all east side schools will call for volunteers in the Human Rosebud parade, the Grand avenue feature of the Rose Festival.

Principals, teachers and children, with no recorded exceptions, have been enlisted by the East Side Business Men's club in support of the parade which is considered to be the most charming and most widely advertised feature of Rose Festival week. But parents have been in some cases reluctant to permit their children to participate in the parade.

An appeal to the parents, especially of children attending Irvington and Holladay schools, was issued this morning by C. A. Bigelow, chairman of the Rosebud parade committee of the East Side Business Men's club.

"So far, reports have been best from the outlying schools," said Mr. Bigelow. "Least expressions of interest or desire to help make the parade a success have come from the parents whose children attend the Irvington and Holladay schools. This is the more surprising because of the number of business men and public spirited women who reside in the districts mentioned.

"Parents, as men and women, are interested in the welfare and advance of Portland. The Human Rosebud pa-

rade is one of the most efficient means of bringing people here to learn about Portland. Parents are also interested in the development of civic pride in their children who are to be the citizens of tomorrow. How can they expect to foster public spirit in children who are withheld from participating in expressions of public spirit?

"Professor Krizan announces that costumes will be simple, that children who have place in the parade will be subjected to no strain of mind or body. It will be a most happy affair for them. I hope that when the principals call for volunteers and the children ask permission to participate that no father or mother will interfere."

WOMAN'S POOL ROOM IS RAIDED IN OAKLAND

(Special to The Journal.)
Oakland, Cal., April 23.—After a desperate fight with a police officer in which she used every bit of strategy known to woman, Mrs. Julia Acker of Oakland was arrested in a pool room raid on her house and taken to the city jail.

With her, four other women and one man were taken into custody while playing the races in Mrs. Acker's gambling house.

RICHARD ROEDIGER TO BE WASHINGTON SURVEYOR

(United Press Licensed Wire.)
Tacoma, Wash., April 23.—Richard Roediger, formerly owner of the Tacoma Tribune, has been named surveyor general for the state of Washington and his nomination will be sent to the senate this week by President Wilson. Roediger came to Tacoma in 1884. He has been interested in various newspaper enterprises here and in Alaska. For a time he was also in the customs service in Tacoma.

EAST SIDE POET PUTS OVER GOOD ONE THIS TIME

We're 'There.'
On the east side of the river, where each civic agitation Gets its birth, and where the people always work from morn 'til night;
That is where the Portland boosting first begins, and keeps on roosting;
There they don't win by a shoestring, for they always lead each fight.

That is where you'll find 'em workin'—always leadin'—never shirkin'.
And I'll bet that no east sider can correctly spell defeat.
For somehow they're always bringin' fame to Portland by their slight.
Or their virtues, and I'm thinkin' that their boosting's always meet.

That is where they're always fishin' for more votes for the commission Form of government for Portland, and their help is manifold.
That is where they're always raisin' h—l with everyone that's feazin'.
Movements that they should be praisin'. Gee, that east side bunch are bold.

Say, old man, ain't it a pity that fair Portland—the Rose City—
Isn't full of live-wire boosters like the men on the east?
They're some bunch; and, say, by gracious, when they start They're real pugnacious;
But there's not a one mendacious—they are truth personified.

SIGNING PETITIONS FOR HARD SURFACE ON FOSTER ROAD

Mt. Scott Improvement Club Is Working Hard for Much-Needed East Side Improvement.

If it is within the power of the citizens of the Mount Scott district, Foster road, from East Fifty-second to East Seventy-second streets, will be hard surfaced this summer. Because of the heavy traffic between these points throughout the year the road is always in very bad condition.

The Mount Scott Improvement club,

which has taken hold of the agitation, is now circulating petitions among the property owners who will be affected by the improvement. According to J. Allen Harrison, president of the club, those who are circulating the petitions are meeting with good success. The committee, in charge of the petitions will report at the meeting next Tuesday night. At that time it is thought that a large majority of the property owners will have signed.

At present, the tracks of the Mount Scott carline are at one side of the road, but the railway officials have promised they will move the tracks to the center of the street if it is hard surfaced. The railway officials have stated, however, that they will not move the tracks unless the road is graded to conform with the grade as established by the city engineer. This will necessitate a cut of several feet throughout the entire distance.

It is planned that the road shall be 95 feet wide, which will give two wide roadways on both sides of the car tracks. The cost of the proposed improvement will be approximately \$15,000, which will be assessed on a graduating scale. All property owners within 500 feet of either side of the road will be affected.

ORENCO WOMAN AND SON LEAVE FOR ENGLISH VISIT

(Special to The Journal.)
Orengo, Or., April 23.—Mrs. Jack Culver and son, Jackie, left Sunday morning for England to visit during the summer the old family homestead. They will set sail on the Olympic next Saturday. Recently, Mrs. Culver received information of the death of her mother and brother in the old country.

To make an earthquake record the exact time of its occurrence an Italian scientist has attached to a seismograph a switch which turns on an electric light and photographs a chronometer when the seismograph needle moves.

Have Better Rest at Night, Do Better Work by Day—Drink

Alfred L. Loomba, M. D., L. I. D., the famous Professor of Pathology, says: "Mineral Water should be freely drunk at all times. Especially those carbonated Lithia Waters whose properties are alkaline are always of service."

Use less Butter—More Cottolene

No wonder butter is so high. Particular women who are loath to use lard or cooking butter in their cakes and fine pastry, use table butter. With butter at the price you have to pay for it, that's downright extravagance. Cottolene is just as good as butter for pastry; for frying, it is better. And Cottolene costs no more than lard. Moreover, Cottolene is richer, and two-thirds of a pound of it will go as far as a pound of butter or lard.

And lard and Cottolene are not to be mentioned in the same breath, for Cottolene is a vegetable product, healthful, always safe—makes digestible, rich, but never greasy food.

THE N. K. FAIRBANK COMPANY

FIRE! FIRE! FIRE! FIRE! FIRE!

The Wm. Greenburg Stock, of Woodburn, Oregon, recently Damaged by Fire, now in our hands for quick disposal. Thousands of dollars' worth of staple Dry Goods, Notions, Clothing, Shoes, etc., etc., to be sold by the adjusters' commands
