

CAUSE OF DISEASE IS MENTAL, SAYS NOTED LECTURER

Healing Forces of Christian Science Aply Explained by Bliss Knapp Before Large Audience; Speaks Tonight.

Bliss Knapp, C. S. B., member of the board of lectureship of the Mother Church, The First Church of Christ, Scientist, in Boston, Mass., lectured to more than 1000 people on Christian Science last evening at the First church edifice. The lecture was given under the auspices of the Third Church of Christ, Scientist. After the lecture the auditorium was filled and standing room taken several hundred were turned away. Mr. Knapp repeats his lecture tonight in the same place at 8 o'clock. The lecturer was introduced by William A. Leet, who said in part: "The fact that you have met here at this time with a full understanding of

the purpose of the gathering will be taken as some evidence of the fact that you are not turning a deaf ear to the call of truth. The advent of Christian Science is not a new thought, nor a mysterious way, but a return to that truth taught by Christ Jesus. The truth of Christian Science has been proved through its innumerable demonstrations."

Mr. Knapp spoke in part as follows: "Healing as well as preaching was a part of the disciples' duty in the early times. Christian Science has exhibited such a divine impulsion as to make of such a work a religion in a remarkably short time. This should lead us to consider, in so far as one may, the healing forces that are behind this movement."

"When our sense of right corresponds to God's idea of right, then the right desire must originate in God. It is to be noted, therefore, that the desire to be good never originates in the individual. It originates in God. He is the source of its activity, the principle of its being and existence."

"Should Read Scriptures." "If the origin of goodness were in the human sense, it would not be of God, and would not therefore be good, but evil."

"Those who glory in their belief of goodness should heed the Scriptures about 'vessels of wrath fitted to destruction.' For the right of a man's will is against that of God as a non-existent as that of an earthen vessel against the potter who made it."

"The one who comes to Christian Science for healing, knowing that he

does not transcribe any goodness of his own, is more open to the beneficent teaching that these divine qualities eternally link him to God, and is soonest healed thereby."

"Continuing this illustration, it may be said that honesty is not a personal possession, but a law or attribute of God; for there are not two kinds of honesty. So the truly honest man is honest from principle, and that honesty from principle gives one the spiritual power to resist evil."

"Health An Attribute of God." "It is true that orthodox Christians generally accept this teaching as it relates to temptations of sin; but Christian Science accepts the same teaching as it relates to temptations of sickness. That is to say, we recognize that health is just as much of a characteristic or attribute of God as are honesty and goodness, and therefore the individual makes the same mistake who believes that his health is a personal possession, as he does who believes that his goodness and honesty are personal possessions."

"We save our health through the recognition of its divinity—that it is the gift of God—and that God has no more purpose to withdraw it than He would honesty and goodness. Therefore, one's health can no more be destroyed or impaired than can God Himself. If we seem to lose our health, it is not lost but merely hid; or, as explained in II Cor. 4:3, 4, 'It is hid to them that are lost; in whom the god of this world hath blinded the minds of them that believe not.'—That is, blinded in precisely the same way that Satan undertook to blind Job."

"The first case of healing that led to the discovery of Christian Science was that of Mrs. Eddy. She had met with an accident which those about her considered must result fatally. She had always been a devout student of the Bible, and when confronted by that experience she naturally turned to her Bible for some comfort and consolation, and there while she was studying the scriptural passages she suddenly seized upon their spiritual meaning and was instantly healed. This was in the year 1826. She recognized for the first time that her health was not a personal possession, to be lost or impaired, but that it was the gift of God, as indestructible as God Himself, and that God had no more purpose of withdrawing that health than he had of withdrawing goodness or honesty."

"It was indeed a wonderful experience—so wonderful, in fact, that she had difficulty in explaining it to those about her. Then she recognized that she never could explain it properly until she more thoroughly understood its principle and value of action. She recognized, as we may, that if she had not went away, promised to send another comforter."

"Mrs. Eddy sought to know, because without it she could not explain her own healing. She therefore resumed her study of the Bible for a period of years, until finally she rediscovered that same divine law that communicates the healing power of God to humanity. She proceeded to write out her observations in precisely the same way that Satan undertook to blind Job."

"The first case of healing that led to the discovery of Christian Science was that of Mrs. Eddy. She had met with an accident which those about her considered must result fatally. She had always been a devout student of the Bible, and when confronted by that experience she naturally turned to her Bible for some comfort and consolation, and there while she was studying the scriptural passages she suddenly seized upon their spiritual meaning and was instantly healed. This was in the year 1826. She recognized for the first time that her health was not a personal possession, to be lost or impaired, but that it was the gift of God, as indestructible as God Himself, and that God had no more purpose of withdrawing that health than he had of withdrawing goodness or honesty."

"Mrs. Eddy has presented the understanding of this Christ law with such simplicity and accuracy. This is on the basis that the cause of disease is mental. Diseases of a mysterious sort are today on the increase, and some are considered by many to be incurable. Christian Science heals all such diseases. It is possibly true that 75 per cent of all the cases of disease which Scientists today have been healed by its ministrations after reputable physicians have given them up as beyond all hope of recovery, and all on the basis of the Christian Science teaching that disease in its cause is not physical but mental. Consumption, for example, is considered by many to be an incurable disease. It is considered that no known drug or medicine can heal consumption in its advanced stages. Therefore the usual method of today is to resort to what is known as the nature cure; outdoor life, exercise and pure air are re-

With Key to the Scriptures, first published in the year 1815. "It may be of interest to learn that the misreading of Science and Health has healed disease and sin. In recognition of her distinguished services the French government has honored Mrs. Eddy by naming M. Brand, at that time minister of public instruction and fine arts, to decorate Mrs. Eddy officer of the French academy. This Christian Science textbook is not a Bible, and it can never displace the Bible. Its sole purpose is so to unlock the spiritual meaning of the Bible as to reveal the power of its eternal truths."

"Disease Is Mental." "Mrs. Eddy has presented the understanding of this Christ law with such simplicity and accuracy. This is on the basis that the cause of disease is mental. Diseases of a mysterious sort are today on the increase, and some are considered by many to be incurable. Christian Science heals all such diseases. It is possibly true that 75 per cent of all the cases of disease which Scientists today have been healed by its ministrations after reputable physicians have given them up as beyond all hope of recovery, and all on the basis of the Christian Science teaching that disease in its cause is not physical but mental. Consumption, for example, is considered by many to be an incurable disease. It is considered that no known drug or medicine can heal consumption in its advanced stages. Therefore the usual method of today is to resort to what is known as the nature cure; outdoor life, exercise and pure air are re-

sorted to in the hope of abating the white plague, as it is called.

"Fear Is Incurable." "It is generally conceded that consumption is largely a consuming fear and manifestly no drug or medicine can cure fear. The Bible declares that 'fear hath torment,' but 'perfect love casteth out fear.' One of the largest factors in all disease is fear, and there is no known remedy for fear of any sort, save only the tenderness and compassion of unselfed love. It is that understanding of God as divine love that enables the Christian Scientist to cast out the fear of consumption and destroy its physical effects. On this same basis Christian Science heals cancers, tumors, pneumonia, locomotor ataxia, etc.,—heals them permanently. The carnal so called mind cannot effect a permanent cure because this carnal mind is the source, origin and cause of disease, and the same mind which produces disease cannot destroy it."

OPIUM CHARGE AGAINST WOMAN IS DISMISSED

On motion of United States Attorney E. A. Johnson, the indictment against Marian Bergman, the Seattle woman who was arrested recently by local customs officers for transporting

opium, was dismissed. The Bergman woman was wanted in Seattle as a witness for the government in the case which was started there today against Chanley Loebe, a Chinese, and J. A. Ralston. Johnson dismissed the indictment here on request of the United States attorney at Seattle.

Marian Bergman was a milliner in Seattle and she became acquainted with J. A. Ralston when he came into her home to use the telephone frequently. Finally he proposed that she make a little trip with him down to Portland. He carried a little too much baggage and on several of these occasions one or two of his packages, which contained opium, was placed in her suit case. It was on one of these trips that she was apprehended with Ralston by local customs officials.

She made a clean breast of her part in the affair and local government officials decided that she had had a very small part in the real activities of the big smuggling ring that had been unearthed. They had just about decided to let her off with a minimum fine when the request came from Seattle to dismiss the case against her.

Evans Has Throat Trouble. District Attorney Walter H. Evans is whispering today. Not that he is attempting to be secretive, but because he cannot talk in louder tones. Mr. Evans is suffering from a slight attack of throat trouble which is more annoying than dangerous. He is taking care of his throat and hopes to have his voice back in a short time.
