IMMIGRATION ISSUE TO BE DISCUSSED

Series of Meetings With Foreign-Born Residents Being Held.

The first of a series of hearings with foreign born people now residing in Oregon will be held under the direction of the state immigration commission tomorrow morning at 10 o'clock in the commission's offices, Commercial club building.

Officers of German societies, religious and social organizations, have been invited to attend this hearing which will continue as long as may be necessary to obtain the German point of view.

The immigration commission will hold

A meeting with the Swedes May 17, with the Norwegians and Danish May 20, with the Finnish May 21, and with the Dutch June 6.

In arranging for the hearings the immigration commission is initiating an unique movement to secure desirable settlement in Oregon.

Investigation has proved that more people have come to Oregon particularly from abroad because of encouraging reports from friends already here than through any other means of advertising. The Germans, Dutch, Norwegians, Swedes, Finnish and other settlers in Oregon all have friends in the countries which they left, many of whom are thinking about Oregon as a future home.

It is believed that these will make the most desirable settlers. They will have friends here to welcome them and to aid in happily locating them. Those who are here have found means of making a success and they will be prepared to advise the newcomer.

What is known as the "assimilation of immigrants" will be facilitated. The chief effort of the immigration commission will be to locate people on the land rather than in the towns, aid them in solving the problems of production

through cooperative educational work with the agricultural college, and to find markets for their products.

The board has asked any of the various nationalities named to attend the hearings on the dates assigned. The order of predominance of the nationalities has been named in arranging the series of hearings.

"No plan for foreign immigration work will be finally adopted by the commission as applied to any nationality before we have conferred with the leading representatives of that nationality in Oregon," it is announced.

U., in a letter recently written to the Oregon state superintendent of public instruction, urged that he do everything in his power to influence the children of the state to write essays on temperance themes in the W. C. T. U. contests. She recommended that the children of the rural schools, as well as those of the city schools, be enlisted in the movement.
