

MIKADO'S FEVER IS OVER 103; SENDS CABLE TO WILSON

(Continued From Page One.) American reply to Japan's protest will be the life of the emperor is in danger. Sisson Discusses Treaties. Washington, May 23.—Declaring that unrestricted admission of aliens would ruin the American farmer by throwing the nation's lands into the hands of a great corporation which would employ them with cheap imported labor, Representative Sisson of Mississippi contin-

ued in the house today his defense of the California alien land bill. The Mississippiian explained at the outset that he did not intend to make a "war speech." Sisson's address was confined principally to the government's treaty making power. He asserted that the government had exceeded its authority in making an "equal nation" treaty with Japan. Sisson demanded that hereafter all treaties be negotiated publicly. He said: "It is not a declaration of war for the United States to decline to override the rights of a sovereign state at the dictation of a foreign power. If the American government, with its army and navy and brute force, which it has superior to any of the states, should take

away from any state the right to control domestic concerns and deliver that state over to the mercy of a flood of aliens, then I maintain that the federal government would prostitute its authority." Continuing, Sisson said: "What would become of the American farmer if a corporation bought all the best lands in the country and cultivated them with Chinese, Japanese, Hindu and other cheap labor? The great land corporation would establish its own commissary and compel its hordes of aliens to purchase everything from its commissary. It could make enormous profits and drive the independent farmer out of existence. "In California individuals and corporations owning great tracts are cultivating them with Hindu, Chinese, Mex-

ican and Japanese labor. These are the men who desire to lease their lands for high prices to this class of labor." **Sinnott to Address Veterans.** (Washington Bureau of The Journal.) Washington, May 23.—Local Spanish war veterans have invited Representative Sinnott to address them on Memorial day at Arlington. The labor temple at Vancouver, British Columbia, recently erected, and which, with the land on which it stands, represents an outlay of more than a quarter of a million dollars, is owned by the organized labor of Vancouver, the Trades and Labor council carrying the controlling interests.

CHECKS APPROVED BY WOOD OFFERED TO CONVICT HIM

(Continued From Page One.) signed by W. A. Currier. It was marked on the back "Approved by W. M. Wood, president," and indorsed "For expenses incurred during Lawrence strike." Another woolen trust check for \$2100 was drawn to Atteaux order June 26, 1912. It was indorsed "Received in account for expenses to date—F. E. Atteaux." It also was approved by Wood. These were the only checks read to the court. William Dwell—secretary treasurer of the American Woolen company, was the next witness. He identified Wood's signature to both checks and to various vouchers showing payments to Atteaux "for services on account of the Lawrence strike." Dwell also produced the company's ledgers showing both checks were charged to "general expenses."

"Mr. Wood told me," said Dwell, "to draw a check for \$2100, saying he had settled with Mr. Atteaux. He also said he had paid Atteaux \$500 for expenses incurred during the Lawrence strike." During the examination of Dwell, District Attorney Peltier made it clear that he believed the \$500 payment was to reimburse Atteaux for the \$500 Breen alleges Atteaux dropped on a Boston street for Breen to pick up on the day the dynamite plot was hatched. It is expected that the state's case

against the defendants will stand or fall on the two checks. Peltier alleging it is conclusive circumstantial proof of their guilt. The American Woolen company does not keep a list of checks showing to whom they are issued or for what service payment is made. Dwell testified that he often paid out money without a statement accompanying the checks. He testified in detail regarding Atteaux's frequent visits to the American Woolen company's offices during the Lawrence strike, saying that a couple of days after the walkout Atteaux volunteered his services, telling Wood he would do what he could. MEN'S STORE, MAIN FLOOR—The man who purchases a suit simply because the style strikes him, the color becomes him, and the coat, vest and trousers fit him, makes a great mistake. Style, color and fit are to be considered last, not first. It is the tailoring—the under part—the canvas—the reinforcements—which count for service. Don't purchase a suit until you are convinced that it's as good under the service as on top. The clothes we sell are tailored by experts in one of the brightest, lightest, best supervised tailor shops in America. The fabrics are dependable. The styles are a step ahead. And they are reasonable. Priced at from \$15.00 to..... \$35.00
