M. S. DOLLAR IS IN PORT WITH LARGE SULPHUR CARGO

Steamer Will Take on Full Load of Lumber at Points on River for China; S. S. Kina to Sail.

Bringing an unusually large cargo of sulphur, the British steamer M. S. Dollar, Captain Gear, moored at the St. Johns city wharf at 3:30 this morning, coming from San Pedro, where she discharged a part of her cargo. After discharging her cargo there she will load a full cargo of lumber at different points on the river for China.

The Dollar's cargo comes from Muroran, and as it is the crude article there is no duty on it. She steamed from the Japanese port to San Pedro and put off some of the sulphur, bringing the remainder of 1625 tons to this port.

After discharging her cargo she will proceed to St. Helens, then to Rainier and to Kalama to load her lumber cargo for China. She will take about 3,000,000 feet of fir at these mills. However, should the high water at Kalama interfere with her loading there, it is understood that she will load a part of her cargo at one of the local mills.

The Danish steamer Kina, Captain Hansen, is scheduled to sail this afternoon for British Columbia ports, where she will discharge the remainder of her cargo for Europe. She is taking but a small amount north, and as soon as she is discharged there she will return to Portland to load about 7500 tons of wheat and barley for Europe. She will be due back here on June 20. Her cargo will be furnished by M. H. Houser.

SEAWALL AT TONGUE POINT

Entire Front of Buoy Station Will Be Improved.

(Special to The Journal.)

Astoria, Or., June 5.—Captain William Demming, of the United States buoy station at Tongue Point, announces that a contract has been awarded for the erection of a concrete seawall along the reservation frontage a distance of 650 feet. The space back of it will be filled with the dredgings of the river channels.

The wall will be 12 inches in thickness and of reinforced concrete with angle walls leading back to the shore at either end. The station is to have a handsome new launch for bay use, it now being constructed at the shops of the Astoria Boat Building company, at the foot of Fourth street, and to be delivered to the government by August 1. She is to be 35 feet in length, 9.6 feet beam and with a draft of four feet. She will be equipped with a 20 horsepower Atlas engine. The hull will be of cannery type.

DREDGE ON COQUILLE

Shoals Above Bandon Are to Be Removed at Once.

(Special to The Journal.)

Marshfield, Or., June 5.—A dredge will soon start working removing a shoal on the lower Coquille river just above Bandon. The work will be paid for out of the sum which congress appropriated for maintenance of the channel and it will require several months to complete the work. The channel of the river is in good shape, but there are some shoals above Bandon, the removal of which will be a great aid to the shippers. With these shoals taken out the lumber vessels will be able to reach the docks of the lower mills at all stages of the tide and the improvement will therefore be of great help to the lumber shippers.

UNITED STATES BUYS COAL

Seven Thousand Five Hundred Tons Contracted for Celilo.

The contract for furnishing 7500 tons of coal to the United States engineer department at Celilo has been awarded to A. L. Stephens of the Pacific Coal company, according to information received this morning by Major J. J. Morrow, corps of engineers, United States army. The contract is now being prepared. Mr. Stephens' bid was for $3.10 per ton at the mines.

Bids for furnishing coal for the locomotives and hoisting engines at Fort Stevens were opened in the office of Major J. F. McIndoe, corps of engineers, United States army, this forenoon. The basis for canvassing the bids was 2000 tons.

FINISH NEW YACHT

Handsome Cruiser Just Completed at Astoria.

(Special to The Journal.)

Astoria, Or., June 5.—One of the prettiest things in cruiser yachts has just been finished at the Uppertown shops of A. E. Anderson. She is named the "Fairy" and does not greatly belie her name. She is handsome as to model and is well powered and finely fitted up for comfort and convenience.

ALONG THE WATERFRONT

To finish loading lumber for San Pedro, the steamer Klamath is scheduled to leave down for St. Helens this afternoon.

It has been announced that the German steamer Spesia will be the fourth steamer to sail this way from Hamburg on the Hamburg-American Steamship line.

Captain Ahlin of the steamer Camino will give a dinner to some of the prominent shipping men tomorrow on the steamer.

To take on more of her flour cargo for the orient, the British steamer Flintshire of the Royal Mail line will shift from the Albina dock to the Portland Flouring mills tonight.

Preparatory to taking the place of the Port of Portland towboat for a week or so, the steamer Monarch is being inspected today. The Ocklahama will go to the drydock for some minor repairs.

The schooner Luzon has completed her cargo of lumber for Antofagasta at the Portland Lumber company's mills and will be brought down through the bridges to the lower harbor this afternoon.

The steamer Butterfly, which was bought and repaired by the Albina Fuel company, has been placed in commission and will engage in the excursion business as well as do some towing for the company. She can carry 40 people.

AMERICAN AUTOS ARE PUSHING FRENCH CARS

(United Press Leased Wire.)

Paris, June 5.—American automobiles are pushing the French product off the market on home grounds, according to a statement just given out here. In 1911 American cars were imported to the number of 109; in 1912, 243, and up to May 1, 1913, 418 cars already had been imported direct, while it is estimated that 200 more came in via England.

The cheaper cars are the ones being imported. Nothing in France for twice the price, even counting freight and duty, compares in quality and appearance with the American brand, the cheap French cars being ugly, clumsy, lacking in horsepower and utterly without style.

An Auto Suggestion

Perhaps if you knew of a bargain in a slightly used auto you would become an owner of a car and enjoy the pleasures to be derived from one during the summer. The opportunity you are looking for may be presented today through a "want ad" in the Journal's automobile column. Keep reading these little ads, some day the car you would like to have at a price you can afford, will appear.

Journal Want Ads bring results.

ADAMS GETS NO NEW TRIAL; IS TO HANG

(Special to The Journal.)

Astoria, Or., June 5.—Judge Eakin yesterday afternoon overruled the motion for a new trial in the case of Jack Adams, who was convicted on the charge of killing Barney Chamberlain in this city on February 17. This means that unless the governor intervenes Adams will hang. The case will not be appealed, as the defendant has no funds to carry it to the higher courts. The motion for a new trial was based upon affidavits by Drs. Pilkington and Henderson, stating they believed the defendant was insane at the time of the shooting. After hearing the arguments in the case, the court decided that the defense had not shown sufficient newly discovered evidence to warrant a new trial.

Collector for San Francisco.

(United Press Leased Wire.)

Washington, June 5.—The nomination of J. O. Davis, chairman of the Democratic central committee of California, to be collector of the port of San Francisco, to succeed F. S. Stratton, it was learned this afternoon, will be sent to the senate tomorrow.

Atwood to Try Again.

(United Press Leased Wire.)

Sandusky, Ohio, June 5.—Aviator Atwood, who nearly came to grief yesterday in a flight, planned to cross Lake Erie, starting from Amherstburg, Ont., will make another try next Monday.

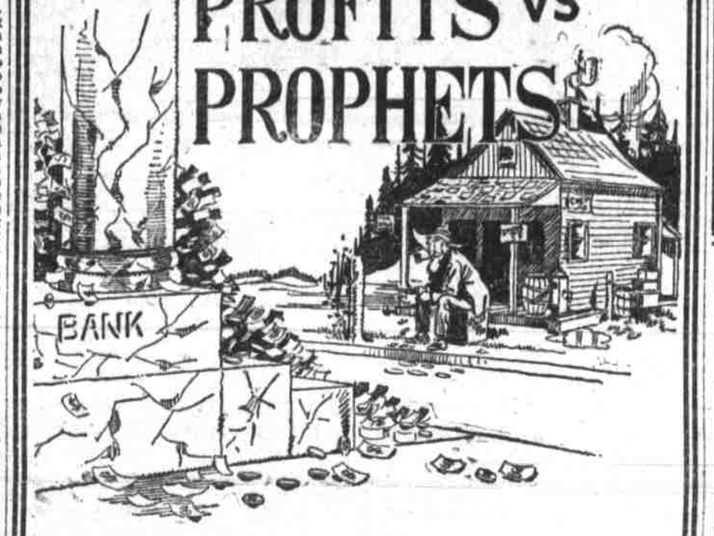
SEND THE FESTIVAL WEEK JOURNAL TO YOUR FRIENDS.

Each issue of The Journal, from Monday, June 9, to Sunday, June 15, inclusive, will contain splendid illustrations and news in detail of Portland's Rose Festival.

THE SEVEN ISSUES, INCLUDING POSTAGE, 15 CENTS.

Hand in your subscriptions at The Journal Business Office. Your friends will appreciate these papers.

PROFITS vs PROPHETS



Which class are you in—the prophesying class or the profit-getting class? Are you a pessimist, who thinks the day of opportunity at an end and the wealth of the world for the few? Forget it! Where would Portland be today if she had been built on pessimistic prophesies instead of faith? True, if you live in the city and your income is limited, realty investments offer you little, but with a few dollars invested in suburban property your future is assured.

Excursion to Hillsboro Sunday

Come with us to Hillsboro Sunday. Let us show you an opportunity that offers you, today, the very same future presented to early investors in Portland real estate. In fact, offers you more. You have now the interurban electric service to help develop the country. You have factories, extensive agricultural activities and a thousand and one factors all working for increased realty valuation.

Get Your Tickets Now Round Trip, Including Lunch 50c

Our train leaves Front and Jefferson streets at 10 A. M. next Sunday. As we are limited to 200 people, get your tickets at our office now. Don't delay. If space would allow we could tell you things about Hillsboro that would create in you a desire to buy a lot there right now, without seeing the property. We want you to see it. We want to see how the residential growth of this beautiful city has entirely grown around our property.

Lots in the Center of the City

We want you to see the paved streets—the Courthouse, just a block from our tract—we want you to see the factories, **$90** And Up Easy Terms

the stores, the beautiful homes and the many other things that ARE IN ACTUAL EXISTENCE TODAY AND MEAN PRESENT-DAY REALTY VALUATION FAR IN ADVANCE OF THE PRICES WE ARE ASKING. With all these things, and the suburban electric lines in addition, what must be the future of this favored section?

AN UNPARALLELED INVESTMENT

90 Fifth St. Phone Main 8770. Portland, Or.

DRIVER OF CAR KILLED IN AVOIDING COLLISION

(United Press Leased Wire.)

Seattle, Wash., June 5.—Mrs. H. L. Rosburg of Lake Forest Park escaped injury, when L. L. Wheeler, a restaurant man here, lost his own life in avoiding a collision between his automobile and the horse and buggy which she was driving.

The accident occurred about 5 o'clock yesterday, when Wheeler and John F. Campbell, manager of the local branch of the Michigan Automobile & Buggy company, were returning from Everett. When Wheeler swung the car, the front wheels lost their grip in the soft gravel. Campbell jumped, but Wheeler was plunged down a 40 foot embankment and pinned underneath his car. He lived only a few minutes.

In addition to the usual springs a new bicycle saddle is supported by two coiled springs within tubes, in such a way as to be adjustable.

Rhododendron Tavern is now open. Roads to Mt. Hood are in fine shape. Drive out for lunch or dinner.

At Fountains & Elsewhere Ask for
