PHOTOGRAPHY REVOLUTIONIZED BY NEW INVENTION

Films, Plates and Dark Room Made Unnecessary

New Camera Takes Finished Pictures in Two Minutes

Mr. Edmond F. Stratton, of New York City, has invented a camera that takes and completes pictures ready to see in two minutes. It does away with the expense of buying films or plates and the trouble, expense and delay of having them developed and pictures printed by a photographer.

This camera, which is called the Gordon Camera, is being manufactured by the Gordon Camera Corporation, 1860 Stuyvesant Building, New York, N. Y. As they are desirous of making it known in every locality, they are making a special offer to our readers.

For a limited time they will sell models B, C, H and J at half price. The regular price of Model B, which takes pictures 3 1/2 x 5 1/2 inches, is \$10, but it will cost our readers only \$5. Model C (regular price \$15), which takes pictures 3 1/2 x 5 1/2 inches, will cost \$7.50. Model H (regular price \$8), which takes pictures 3 1/2 x 5 1/2 inches, will cost \$4. While Model J (regular price \$16), which takes all three of the above sizes, will cost only \$8. Whichever you order, inclose 96 cents additional to cover parcel post, sensitized cards and developing powders.

The sensitized cards are wrapped for daylight handling and the powders make the developing solution to be put into the developing tank, which is inside the camera. Model H is 5 1/2 x 3 1/2 inches in size and weighs 3 lb. 7 oz. Models B, C and J are 4 1/2 x 5 1/2 inches and weigh about 4 lbs.

The cost of taking pictures with the Gordon camera is almost nothing in comparison to all other cameras. Extra sensitized cards (3 1/2 x 5 1/2) can be bought for 1 1/2 cents each (3x4 1/2 for 1 1/2 cents, and 3 1/2 x 5 1/2 for 3 cents), and 10 cents' worth of developer will develop over 40 pictures. The Gordon Corporation sells flash light lamps for 80 cents, which will enable you to take pictures at night in your own parlor, or out of doors.

The operation of this new camera is so simple that any person of ordinary intelligence can easily take pictures with it after reading the directions sent with each one. When ordering a camera under this special offer be sure to mention that you are a reader of The Portland Journal.

How English Beauties Keep Faces Youthful

American Miller, F. E. L., noted English health expert, attributes the early aging of American women mainly to the "national nervousness." The women of England, she says, can teach us the important lesson of repose.

Another valuable lesson to be learned from the English women is that sunbaths do not go in much for cosmetics, the continual use of which must ruin any complexion. The beauty divinity of King George's realm have also discovered wax, used like cold cream, rejuvenates the worn complexion.

American women may easily acquire the habit, this wax being obtainable at drug stores generally in the United States. It is applied at night and washed off in the morning. One course is sufficient to completely renovate a bad complexion. It has a peculiar action in keeping the face free from the particles of dead and decayed skin which are constantly appearing.—Woman's Herald, Adv.

DEEP CRACKS COVERED HANDS

And Itching Sores. Started with Pimples. Dreaded to Put Hand in Water, Scratched Until Blood Came. Cured in a Month by Cuticura Soap and Ointment.

R. F. D. No. 8, No. Crystal Lake, Ill. "I had a most painful itching right hand from the thumb to the wrist. It was covered with deep cracks and itching sores. It started with small white pimples that turned scabby and when I scratched them would open and a water-like stuff would come out. Scabs would form to my annoyance, and they would then come off and leave the hand red and very sore. I dreaded to put my hand in water as it would hurt awfully. I sometimes would scratch until blood came and then the burning pain was enough to get a person crazy. I was ashamed to let anybody see my hand for it looked awfully. How I suffered none can imagine. I would wake up nights from pain caused by scratching. It had to be for two years and it sometimes would heat and break out again.

"I tried—saw but that only made it worse. I used different soaps but none did me any good until I used Cuticura Soap and Ointment. Now I have no more trouble and there is not a scar to be seen. In a month my hand was cured by Cuticura Soap and Ointment." (Signed) Mrs. Theo. Prebinger, May 25, 1912.

Cuticura Soap 25c. and Cuticura Ointment 50c. are sold everywhere. Liberal sample of each mailed free, with 25-p. Skin Book. Address post-card "Cuticura, Dept. 7, Boston." Soap shelves free men should use Cuticura Soap Shaving Stick, 25c. Sample free.
