(Salem Bureau of The Journal.)
Salem, Or., June 12.—Governor West,
who returned this morning from a visit to Oregon City, where labor troubles have occurred in the paper mills, today issued a statement advising the officers to turn loose the men under arrest, believing the men are ready to settle any differences in an orderly manner. His statement says:

"My trip to Oregon City was prompted by a desire to get the facts as to the situation. I found the local authorities had the matter well in hand. As I see it, there is nothing alarming about the sit-uation. Practically all those under arrest had been for a short time in the employ of one of the mills and becoming dissatisfied with conditions, focishly let themselves be led into trouble by a few out-of-town agitators. Property damage amounts to little or noth

"No one should question the right of an employe to quit work if he is, dissatisfied as to his pay or conditions surrounding his employment, or his right to use every honorable means to bring about in every way a betterment of condition of his fellow laborers and himself, but it is not only unwise but dan-gerous for any body of men to attempt to correct an alleged wrong through midnight raids, intimidation or destruction of property. and every workingman who having a grievance wishes our help in bringing about a betterment of his condition, but this office will not tolerate under any circumstances the destruction of property, and any movement in this direction will be promptly taken care of. "I have had a talk with the boys in jail, and most of them are pretty decent looking fellows, and had they not been led on by agitators from the out-side, would never have got into trouble. My advice would be to turn them loose and wipe the slate. If there are any differences to adjust, this office will be glad to assist in every way possible, but it insists that such negotiations are to be carried on by both sides in an or-Levy Says Any Fellow Capable derly and lawful manner.
