DELIVERY WAGONS MUST NOW UNLOAD PARALLEL TO WALK

Delivery wagons hereafter must load and unload parallel with the sidewalk. This was the holding of Judge Taswell of the municipal court this morning in four cases brought to test the new traffic ordinance. The cases were against the Jones Meat company, Wells, Fargo & Co., Northwestern Transfer company and Pacific Transfer company. In each case, the court found the defendants guilty and suspended sentence, as the prosecution is only to get a ruling on the ordinance. J. B. Yeon, member of a committee that assisted in framing the new ordinance and a special traffic ordinance, explained to the court how difficult it is to handle traffic, and how congested the streets become in front of certain business houses where delivery wagons back to the curb and load and discharge goods.

SUIT IS COMMENCED FOR FALSE ARREST

Circuit Judge Calkins this morning took up the suit of Mary D. Hamer against Patrolman M. D. Wells for \$1000 damages for false arrest. Mrs. Hamer alleges that about midnight of August 25, 1912, Wells came to her house, placed her under arrest, handcuffed her and took her to jail where she was held for four hours. She says she was in a delicate condition and that the arrest affected her health. Wells alleges that he was called to arrest her husband who was drunk and disorderly and that when her husband started to resist she suggested that he handcuff her to her husband and that Hamer might be taken quietly to jail. This was done and Hamer was taken to the patrol box two blocks from the Hamer home at 1107 Albina avenue. There the handcuffs were taken off, he asserts, and when the patrol came she accompanied them to the jail. At the jail he says she remained for about 45 minutes, being sent to her home by the police. He asserts that no unnecessary force was used.

A portion of the pituitary gland, which is believed to control the mechanism of life, will be removed from the base of the youth's brain. Scientists are hopeful that the operation will be successful.

'NORTHWEST MOST EXTRAORDINARY' COMMENT OF SCOT

The Rev. John Lamond, of Edinburgh, Christian Conference Speaker, Deeply Impressed by Growth.

Rev. John Lamond, D. D., of Edinburgh, Scotland, sees in America an extraordinary country, and in the Pacific northwest a most extraordinary section. "Extraordinary" is his favorite term, and he used it frequently this morning in speaking of his travels of the past fortnight since his arrival for the first time in the states.

"No, no, don't call me doctor," said "Mr. Lamond will do very well. I am on my way to Salem to speak at the university, and will later visit Portland to deliver an address on 'Crime and Its Causes' before the Second World's Christian Citizenship Conference. From Salem I shall go to Boise, Idaho, and thence back to Portland in time for the conference, which opens June 29. "But I want to say that this is a most extraordinary country, and I am tremendously impressed with the rapidity of its growth and the rapidity with which people out here in the Pacific northwest do things. Why, think of it, such cities as Portland and Seattle having sprung up in less than 50 years! You are 20 years ahead of us in every way. It is remarkable! In Scotland our cities are the result of the work of centuries and we are far behind."

"What has impressed me most on my trip through the states?" he said. "Well, the fact that apparently every man is alive. It takes my breath away to see how rapidly you move and do things out here. This applies to everything, every line, cities as well as universities. We have nothing like it at home. Why, here you build wonderful institutions over night. I wish I had come here 30 years ago. Now I am too old, but I am going home to tell the people of your state. If they know the tremendous possibilities here, there'd scarcely be a man left in Scotland. During the past year I have sent 20 people from my church to America, but most of those leaving Scotland go to Canada. But from now on I shall tell them about Oregon, for it is very extraordinary. "You are ahead of us in many ways."

25 PRINCES CALL ON KAISER, WISH HIM GOOD HEALTH

Heads of German Principalities Dine With the Emperor in Celebration of His Silver Anniversary.

(United Press—Associated Wire.) Berlin, June 15.—The celebration festivities of the Kaiser's jubilee as emperor of Germany reached their height today, when the other 25 rulers of German states, including the kings of Saxony and Wurtemberg and Prince-Regent Ludwig of Bavaria personally congratulated Wilhelm II upon his long peaceful reign and excellent health.

At 6 o'clock tonight the 25 rulers of the German empire sat down together to a magnificent banquet in the royal palace. At 8 o'clock Wilhelm's co-rulers drove to the royal opera house for a gala performance. The house was gorgeously decorated in honor of the occasion, and presented a brilliant spectacle seldom seen even in Berlin, and only equaled three weeks ago, when the Kaiser, the emperors and King George were together at the opera. The third act of Wagner's "Valkyrie" was played tonight. Putnam Griswold, the Californian bass of the New York Metropolitan Opera house, who was especially invited by the Kaiser to sing the role of King Heinrich in "Lohengrin" before the three monarchs on May 23, again sang the star role tonight with great success. The Kaiser spoke of Griswold as "one of my Americans."

Read the entire statement:", "We have tested beers repeatedly, placing the bottles in the direct sunlight, and testing the same after one, two, three and five minutes exposure, found that the beer with three and five minutes exposure became undrinkable on account of the peculiar odor developed. The detrimental effect of light upon beer can be successfully counteracted by the employment of brown or dark colored glass bottles, and such bottles are, therefore, recommendable."—Wahl-Henius Institute of Fermentology.
