Defendant in White Slave Case Son of U. S. Commissioner of Immigration.

(United Press Leased Wire.) San Francisco, June 21.—John L. McNab today tendered his resignation to President Wilson as United States district attorney, because he had been ordered by the attorney general to postpone until autumn the trials of Drew Caminetti, son of Commissioner General of Immigration A. Caminetti, and Maury I. Diggs, charged under the white slave act. McNab's message to the president read: "I have the honor to tender my resignation as United States attorney for the northern district of California, to take effect immediately. I am ordered by the attorney general, over my protest, to postpone until autumn the trials of Maury Diggs and Drew Caminetti, indicted for a hideous crime which has ruined two respectable homes and shocked the moral sense of the

CARD INDEX PLAN AIDS JOHN D. AND HIS CHARITY TRUST

Cleveland Chamber of Commerce Organizes Beneficial Organizations Into Combination to Spend Big Sum.

SUBSCRIBERS PLACED ON AN "IMMUNITY LIST"

Systematized Giving Proves Saving Financially and in Nervous Energy.

By Albert Sidney Gregg. Cleveland, O., June 21.—With the aid of John D. Rockefeller, the Cleveland Chamber of Commerce has formed a "Charity Trust" by which over \$500,000 will be raised annually for 63 local charities. A small army of solicitors has been abolished, much to the relief of Cleveland business men. Money for local charities will be given through one central organization, known as the Cleveland Federation of Charity and Philanthropy. For a number of years, the Cleveland Chamber of Commerce has been trying to protect the public by issuing endorsement cards to solicitors. There were about 68 organizations and fully as many men and women out raising money for them. The aggregate income for this charity work was \$1,000,000 a year, one-half of which was raised by direct solicitation. One-half of the \$500,000 was given by 74 persons, while 2155 gave 2 1/2 per cent. During the closing months of 1912, it was discovered that the charities of Cleveland were supported by 6000 givers and of this number only 4000 limited their giving to one charity. The plan which has been launched and is being worked out is the result of per-

City Treasurer William Adams will be retained in office. This was announced today by Mayor-Elect Albee following a meeting of the entire personnel of the new commission in W. L. Brewster's office. No other appointments have been made public, although it is understood that the appointees to the offices of city engineer, city health officer and city physician have been definitely agreed upon. "We will make public our selections as rapidly as possible," said Mayor-Elect Albee today, "but I want it understood that we are trying to get the best possible officials for each place to be filled. The selections we have already announced have been the unanimous choice of the commission. The unanimity of the commissioners on all appointments is particularly pleasing to me. The commission has decided each appointment on efficiency and merit. Nothing else has counted."

BENSON AMENDMENT AGAINST DISTILLATION OF SPIRITS PRESENTED

Senator Works Introduces the Constitutional Amendment Favored by Oregonian.

(United Press Leased Wire.) Washington, June 21.—Forecasting an attempt to pass legislation abolishing the manufacture or sale of liquor in the United States, Senator Works of California introduced in the senate today a constitutional amendment designed to exterminate the distilled liquor business. It is proposed to prohibit absolutely the manufacture, distribution and sale of distilled spirits. Beer and wines are exempted for the present, but these also will be included later. Senator Works explained that any attempt to abolish other than distilled liquors at this time would work a hardship upon wage earners in liquor manufacturing establishments. He said only \$7,000,000 was invested in distilleries, and that not more than 4000 persons were employed in the industry. Works called the revenue received by the government from the liquor traffic "blood money." The senate was in session less than two hours today. A motion by Senator Kern of Indiana was carried, accepting the invitation of the Gettysburg Reunion commission to send Vice-President Marshall and nine senators to attend the celebration next month on the historic battle.

PAY CHECK ROBBER KNEW METHODS OF SOUTHERN PACIFIC CO.

Company Certain No Person Unfamiliar With Inside Affairs Could Have Succeeded.

Southern Pacific officials believe that the stranger who got away with \$1500 worth of pay checks in an order to which had been forged the name of an assistant general manager, will be found a person closely in touch with the company and its affairs. No person, it is held, not thoroughly familiar with the methods employed in paying off the men, would have figured out how to work the scheme so cleverly without detection. The swindle took place Thursday morning, the stranger presenting to the pay agent at the Southern Pacific car shops in Southeast Portland an order for the pay checks of 12 engine and train men, signed by one of the assistants general managers. It has been customary to honor orders in the past and so the pay agent did not suspect anything wrong when the stranger handed out the checks. Nine of them were cashed yesterday or the evening before and have been heard from, and it is supposed that all 12 were cashed. Some have been turned into the banks, others had been cashed by saloonmen and storekeepers. Who will have to stand the loss is a question that will probably have to be decided by the courts, since the checks were given out on a forged order and cashed on the strength of forged signatures. Company detectives are working on the case and the officials believe it will not be many days before the forger is captured.

AVIATOR DROPS BOMBS ON MEXICAN WARSHIPS IN GUAYMAS HARBOR

Two Vessels Forced to Open Sea to Escape Fire From the Clouds.

(United Press Leased Wire.) Douglas, Ariz., June 21.—Dropping bombs on the decks of two Mexican warships today, Didier Masson, French aviator, forced them to flee from Guaymas harbor and take refuge in open sea, according to insurgent reports from Ortiz, Sonora, this afternoon. Masson is employed by the Mexican rebels and is said to have wrought great havoc among Mexican forces during a six day battle at Ortiz. Complete victory for the constitutionalist rebels after a five days' battle at Ortiz, Sonora is claimed today by the Mexican constitutionalist junta. According to reports received over the wires from Ortiz all of which are in the hands of insurgents Didier Masson the French aviator played a big part in the battle dropping bombs into the federal entrenchments at Ortiz. One bomb dropped yesterday by Masson, is said to have killed 52 federalists. The federalists under General Ojeda are reported to be retreating on Santa Rosa, Sonora, in disorder. All sources of information in northern Sonora are in the hands of rebels and no communication with Ojeda's forces can be had. The rebels say if Ojeda is captured, he will be shot in reprisal for his butchering tactics against the insurgents. Those who know Ojeda best, however, say he will kill himself before allowing the rebels to capture him. The insurgents, confident of carrying Sonora, are planning to organize an additional force of 5000 men to invade the states of Sinaloa and Chihuahua.

Program Presented to British Foreign Secretary Has Other Drastic Provisions.

(United Press Leased Wire.) London, June 21.—Entire prohibition of the use of aeroplanes and other aircraft as instruments of warfare, "thus excluding the possibility of a new horror to civilization, and an added peril to life," is among the recommendations of the British Peace society for consideration at the next Hague conference. The other suggestions of the society, to which Foreign Secretary Sir Edward Gray has promised to give careful consideration, are: Provision of a general treaty of obligatory arbitration. Establishment of an arbitral court of justice. Declaration of the immunity of private property at sea in time of war. An agreement to put a check on the growth of naval and military armaments.

After Killing Two Sheriff's Deputies, J. H. Ethel Turns Rifle Upon Himself.

(Special to The Journal.) Spokane, Wash., June 21.—Dead from a self-inflicted bullet wound, J. H. Ethel, who yesterday killed two sheriff's deputies and wounded a third when they came to his place south of Molson, Wash., to arrest him on an arson charge, then barricaded himself in his sawmill, was found early this morning stretched out on the mill floor when a posse crept from the forest and rushed down upon the isolated place. The tragedy happened in a lonely isolated section of the heavy timber many miles from Molson, and word even as to the names of Ethel's victims has not been received. Ethel is said to have killed himself with the Luger rifle, which he used in slaying his pursuers. Appeals for dogs and men to be used in capturing Ethel, made to Sheriff Stone of Spokane last night by Okanogan county officials, were cancelled this morning.

BOLT HITS HIGHEST BUILDING IN GOTHAM

(United Press Leased Wire.) New York, June 21.—New York is recovering today from one of the worst tempests of wind, lightning and rain in its history. Trees were blown down in many parts of the city, many windows were broken by ballstones as large as cherries, rain backed up in several places and ran down the subway entrances. A bolt of lightning struck the steel foremast of the steamer La France off quarantine. The master-at-arms and six sailors were stunned. Half a million pleasure seekers at the beaches were sent hurrying for shelter. The Woolworth building, the tallest in the city, was struck by lightning, but not seriously damaged. The temperature fell from 84 to 65 degrees in four hours.

PORTLAND IS STRONG IN SAENGERFEST PARADE

The Portland singers wore white costumes with red and white sashes, making an excellent showing. More than 800 of the delegates and local singers paraded the streets this morning. The parade was led by 20 young women, mounted and in cowgirl costume. The singers followed on foot, while the officials of the Saengerbund and the city and the women delegates brought up the rear in automobiles. Tomorrow morning the singers will visit the state penitentiary and sing for the convicts. The annual business meeting will be held in the morning and in the afternoon a volleyball will be held at Sun-a-Lum park. The concert at the Keylor Grand theatre last night was most successful. The house was crowded and there were nearly 500 singers on the stage, which had to be built far over the orchestra pit for the occasion. Another concert will be given this evening.

AUTO RAISES COST OF LIVING TO FRENCH POOR

(United Press Leased Wire.) Paris, June 21.—The automobile is partly responsible for the high cost of living among the poor class of France, according to the latest statistics available, only 65,000 horses being slain and eaten during 1911, because only blooded horses are being raised now, according to Deputy Engstrand, the automobile taking the place of work horses more and more. As horses with pedigrees are not sold to butchers, the supply of horse meat is rapidly becoming exhausted, all kinds of meats rising accordingly.

Mayor Rolph, who was present at the operation, where mother and daughter lay side by side, told Miss Silver when the transfusion was over that she was "the bravest girl in San Francisco."
