Splendid Discipline in Stephens Public School Results From System of Pupil Government; Officers Elected.

It may be truthfully said that the leventh and Harrison streets, is equal to that of any other school in the city measure to the style of pupil govern-ment which is maintained in the school. Three years ago the pupil government of the "Stephens School City" was
first introduced into the school. At that

To get a correct icea as to the true value of the plan it might be well to go into the different phases of the "School City Government." The officers consist of a mayor, police, city court, prosecuting attorney, two associate justices, (one pupil and one teacher) and a city clerk. These officers are elected each school term.

The plan of electing these officers thoroughly acquaints the pupils with the workings of our own city govern-

at which time all school offenders are given a fair and imparital hearing. This is the only part of the school government where the teachers must take a part. If a pupil is convicted of the offense with which he is charged the two associate justices, one of which is a teacher, always mete out the proper punishment, and invariably, the ruing of the tescher associate is supreme.

The regular election of school officers for next term was held June 12, at which time several "dark horges" sprang to the front and won out. A few days before the election it was practically conceded that Wayne Farry would win the office of chief of police. He had been a policeman for two years and had proven his worth on more than one occasion; in fact, he was are of the most trusted and efficient.

Mr. Steele said that the charter would probably be changed at the beginning Wayne by a large majority. Dewey has never before held office under the pupil government. His ability as a public speaker gained him many votes, for his campaign speech was very clever for

a youngster.

"Boys and girls of the Stephens school city," he said, "I want to be your next chief of police. I have never yet held a position of any kind in our city government but I know that I am capable and all that I want is a chance to show my ability.
