

ABUNDANT ROOM FOR FARMERS IN MORROW COUNTY

Special Plea for Scandinavians Made by Ione Resident Here to Attend Immigration Conference Tonight.

J. T. Knappenberg, president of the Ione Commercial club, is in the city today to attend the meeting to be held this evening by the Norwegian Immigration Aid commission, organized some time ago for the purpose of aiding Norwegian settlers in getting established in the state.

Mr. Knappenberg wishes to acquaint the organization with the fact that in the county of Morrow there is abundant room for farmers and that Scandinavians have been found most successful there. More of them are wanted, and they can have land ready for cultivation at from \$10 to \$25 per acre.

"We have quite a number of Swedish and Norwegian farmers in the vicinity of Ione," said Mr. Knappenberg, "and all of them have made good. It is a singular fact that all the chattel mortgages on record in the entire county not one is against the Scandinavian settlers, and many of them started in a very small way.

Business Revival Noted

"The Ione Commercial club has just joined the Oregon Development league, and enthusiasm has been aroused among the members, so that the spirit is now progressive. There is a general awakening in the county, and the people are prosperous. In the past few months several carloads of automobiles have been delivered to farmers, and more than a dozen combining harvesters have been brought in. We are working for better roads, and hope soon to have a fine macadamized road up Willow creek.

"Our county is very sparsely populated, about 4500 people on 1,250,000 acres, or about 2000 square miles. Last year we had a bumper wheat crop, and indications are for another one this year. By employing dry farming methods, 15 bushels can be grown per acre every year, irrespective of the moisture. When the rainfall is as heavy as this year, the yield is more than twice that, and many farmers have paid for their land with the first crop.

"While wheat growing is the principal cereal grown, considerable attention is now being paid to corn also, and experiments indicate that it will prove successful. Following the cultivation of corn comes the development of the dairy industry and a good many farmers are now engaging in it.

Driving Big Well

"An artesian well is being driven near Ione, and if it brings the water that it is hoped for, it means that wells will be irrigated and their value multiplied many times.

"By the way, we are going to have a big Fourth of July celebration on the Fourth, and will be a real live one. We have engaged an airplane man from Portland for an exhibition, and there will be horse races and all kinds of features that go to make up a real, live celebration."

Morrow county has millions of acres of fine yellow pine timber, and Mr. Knappenberg says the time is soon ripe for harvesting the crop, which will mean the establishment of sawmills and pay rolls in various parts of the county where there are no people at all now.

Mr. Knappenberg is registered at the Imperial hotel.

BURNSIDE SPAN CLOSED; CARS CHANGE ROUTING

The Burnside bridge, at present the oldest span across the Willamette river, was closed at 2 o'clock this morning for extensive repairs. The bridge will be closed at least two months. The draw was opened to permit the free passage of boats. Among other repairs will be the practical rebuilding of the east end of the bridge, including a new steel viaduct over the Southern Pacific tracks.

Cars will be routed, during the time the bridge is closed, as follows: Alberta, Woodlawn and Union avenue lines, Union avenue to Holladay avenue, over the steel bridge to Third and Burnside streets, west on Burnside to Fifth street and south to Washington. East on Washington to First, north on First to Flinders and back to Third across the bridge to Union avenue.

Rose City Park and Beaumont lines will proceed over the regular route to Grand avenue and Burnside street, and then south on Grand avenue to Morrison and across the Morrison bridge. The lower Morrison bridge loop, around Third and Yamhill streets to Front street and back across the Morrison bridge will be used. Going out Grand avenue from Morrison, these cars will turn at Ankeny street and go east to Twenty Eighth street. They will then proceed north to Sandy Road and follow the regular route.

DELIVERS A SPECIAL SERMON TO MASONS

The inspiration to be derived from the teachings of Masonry and the harmony of the Bible were the points covered last night by Rev. Benjamin Young in a sermon delivered at his church, for the members of Portland lodge No. 55, A. F. & A. M., who were special guests at the church.

More than 200 members of Portland No. 55 and other Masonic lodges assembled at Masonic Temple last evening, and marched in a body to the church, led by the shriners' band. Special music was rendered.

So Enticingly Prepared Are Our Special 50c Luncheons—Their Popularity Is Daily Increasing—Seventh Floor

Athena Knit Underwear instantly appeals to every discriminating woman, owing to its fine, soft weave and the perfect finish of every garment. The first thought of the makers, in producing Athena Underwear, was comfort for the wearer, and how well they have accomplished this result is evident in the persistent demand women make, who specify Athena Underwear, and will use no substitute. You'll be gratified in your selection if you ask for Athena Underwear when supplying your needs tomorrow.

KOVERALLS ALL RIGHTS RESERVED

For Small Children's Wear at Beach—Mountainside—Home. Shown Here—First in Portland

"What will be the most practical garments for the children to wear at the Beach or in the mountains?" is the question that many mothers are asking at present—"Koveralls" solve the problem. With no tight elastic bands to stop the circulation; made in one-piece, being very easy to slip on and off; so strong and well made that they're exceptional wearing qualities; Koveralls, it will quickly be seen, are the most practical, healthful, economical garments for small children, either at home or for the outing. They save washing, fit and look well, and yet are loose and comfortable in every part.

You'll find them in two weights—the heavier quality for all-the-year-round wear, of blue denim, or blue and white stripe, genuine hickory; the lighter weight for Summer wear, of a close woven material, with blue background and small white stripes. All are trimmed with fast color, red or blue galateas. Sizes 1 to 8 years. **75c** Each

Summer Sewing Simplified by the Willamette Sewing Machine

The Willamette Sewing Machine possesses so many special features designed for your convenience and to make sewing tasks light and easy. The Automatic Tension, which permits you to sew on the sheerest materials, then on several thicknesses of heavy material without readjusting in any way, is exclusive with the "Willamette."

A clever little device prevents clogging or tangling of threads; you may use the finest of thread, or the heaviest; it makes a clean, clear stitch that is the same on both sides; all parts oiled from above—no throwing off the belt and back the sewing head.

A binding warranty covers each and every part of the "Willamette."

Come in and see one demonstrated—\$2 with purchase places the Willamette Sewing Machine in your home, then \$1 per week until paid for. No extras. No interest.
