San Francisco, July 10 .- Unless some extraordinary event intervenes within the next few hours, Jacob Oppenheimer, and Frank Bauwaerts will pay the full price of the law tomorrow morning on the gallows. Oppenheimer is awaiting execution at

folsom prison for an attack on a fellow prisoner. He has been reprieved twice. Bauwaerts, who killed a prospector in Riverside county, is in San Quentin. Half a hundred leading representa-tives of the Anti-Capital Punishment league called upon Governor Johnson here today and pleaded for fully an hour to have him grant a stay of execution for at least six months, in the cases of all condemned men at the prisons, that the league might have time to carry out its plans of initiating legislation to

abolish the death penalty.

Although he appeared somewhat moved by their supplications, Governor Johnson was firm in his refusal to grant their request.

'No one feels any more horror at the thought of the state taking a human life than I do," said the governor, "but I have no other alternative but to en-force the law. If I acceded in your request I would be violating my oath of office. You must see that there is no other course open to me but to enforce the laws which I am sworn to uphold. Try any court in the state on a similar proposition and you will be told the same thing that I am telling you." Miss Philoleta Michelson asked Governor Johnson if he-would not be justi-

fied in carrying out the principles of the spiritual law, rather than the law of man; and, although the executive stood with bowed head and appeared deeply thoughtful, he did not swerve from his previous stand. The fact that 25,000 people have signed petitions favoring the abolition of capital punishment was strongly set

Clara: I know parnotis will greatly reduce your weight, and when this is done you will feel much better and healthier. To prepare the treatment, get from your druggist 4 ounces parnotis and dissolve in 1½ pluts hot water, then take a tablespoonful at meal time. This acts gradually and gently and safely reduces weight without resorting to violent exercise or dieting. This treatment is far superior to any "patent" fat-reducer, for the reason that the graceful lines of the figure are regained and the flesh and skin are left firm and smooth.
