

ROBINSON, LOCAL CLOTHIER, PLACED UNDER ARREST

Merchant Charged With Larceny by Embezzlement—Store Had Been Attached—Taken at Bellingham.

W. W. Robinson.

W. W. Robinson, for 20 years a prominent clothing merchant of this city, was placed under arrest at Bellingham, Wash., late yesterday afternoon on telegraphic instructions forwarded by Sheriff Word.

He is charged with larceny by embezzlement, and is said to have attempted to reach Canada with from \$15,000 to \$20,000 in cash which rightfully should go to his creditors. Sheriff Word left at an early hour this morning for Bellingham to bring Robinson back to this city. Bond was fixed at \$40,000 for his release or \$20,000 cash bail.

About ten days ago Robinson's clothing stock was attached by the Stein-Bloch clothing company of New York upon Robinson's failure to make a settlement on an account due them. The taking of an invoice was begun at once.

Robinson Makes Offer.

Thursday Robinson filed a petition in bankruptcy in the United States district court and offered to settle his bills at 50 cents on the dollar.

Immediately following the filing of this petition the court ordered him to appear at 8 o'clock Saturday morning and show where he could obtain the money to settle on that basis. When the time came he failed to appear. An investigation followed and it was learned that Robinson had left for the north. A warrant was issued at once, charging him with larceny by embezzlement, and late last night Sheriff Word was advised that Robinson had been placed under arrest at Bellingham.

The sheriff made preparations to leave immediately for Bellingham. It is not known whether Robinson will fight extradition or not.

Heavy Bond Fixed.

Experts who have been at work on his books are at a loss to understand where he could have obtained the necessary money to settle in the bankruptcy courts at 50 cents on the dollar as he is asked to be allowed to do in his bankruptcy petition.

Robinson is one of the best known retailers in the city, having been in the clothing business in this city for the past 20 years. He began his business career here with Bufum & Pendleton. Later he went into business for himself and for many years conducted a clothing store on Washington street. Recently he has been located at Fifth and Alder.

METHODISTS DISCUSS BUILDING PLANS FOR HANDSOME BUILDING

(Continued From Page One.)

this fall, which it is hoped to complete within a year.

This will be the finest structure in the city of Portland when completed, and will be considered an architectural monument to Methodism.

Designed Along Classic Lines.

The design of this building is to be along purely classic lines, plain and columned porticos at the street entrances. The building will be surmounted with a dome of imposing proportions.

White or light gray masonry will be used, wrought out in clean cut outline in symmetrical proportions and Grecian detail.

The auditorium is planned to seat 1800 persons, but this can be increased by opening the annex, giving seating accommodations to 2100 persons. The lighting is to be from above, there being no glare from windows to interrupt the vision.

There are two Sunday school auditoriums with a capacity of 1200, which are equipped with 30 individual class rooms. There is also to be a room for moving pictures, large banquet room, a well equipped kitchen and ladies' parlors.

The interior of the auditorium is to be equipped with a beautiful, commodious balcony with a dome-shaped ceiling a portion of which is to be opal-

escent glass, from which source the room will be lighted.

Echoing Pipe Organ Features.

Ivory and mahogany will be used for the interior finish and a semi-indirect system of decorative artificial lighting will be installed.

The heating, ventilation and sanitation will be the most modern possible, with provisions being made for a continual change of air in the assembly rooms. There will be a beautifully designed pipe organ with echoing organ in the dome as one of the special features.

Board of trustees of the First M. E. church includes A. M. Smith, president; Philip Buehner, J. L. Hartman, T. S. McDaniel, B. Lee Page, J. K. Gill, G. F. Johnson, John Corbitt, J. K. Gill.

The building committee is made up of A. M. Smith, Philip Buehner and R. J. Paterson.

TRUST MORTGAGE FOR \$800,000 IS FILED

A trust mortgage for \$800,000 to guarantee six per cent gold bonds has been filed in which the Pittock Block, Incorporated, gave the mortgage to the Anglo-California Trust company. The property mortgaged is the Pittock block and the building to be erected for the Northwestern Electric company on that block. Fred W. Leadbetter, vice president, and George H. Kelly, secretary, signed the mortgage for the local company, and M. Pleishacker and M. P. Lillenthal, president and secretary, signed for the trust company. The bonds are to be retired in sections, the last on February 1, 1943.

ARCHITECT'S DRAWING OF PROPOSED FIRST METHODIST CHURCH

DIRECTORSHIP OF OREGON EXHIBIT IS PRIZE SOUGHT

George M. Hyland Wants Position, Which Will Pay at Least \$3000 Year While It Lasts.

One of the first applicants for the directorship of the Oregon exhibit at the Panama-Pacific exposition in 1915 at San Francisco is George M. Hyland of Portland.

Mr. Hyland is circulating a petition among business men asking the newly appointed state commission which will be in entire charge of the expenditure of Oregon's appropriation of \$175,000 for the fair, to name him for the place.

The directorship is expected to pay about \$3000 a year during the time it is in effect. If the commission chooses to pay more, however, there is nothing in the legislative act appropriating the \$175,000 to prevent. The act specifies that the commission "shall have full power and authority under the appropriation hereinbefore made to cause to be erected such building or buildings and collect and maintain an exhibit of the products of the state of Oregon at the Panama-Pacific International exposition."

There is no further restriction as to how the money shall be spent.

At previous expositions at which Oregon has had a director of exhibits, however, the salary of that official has been in the neighborhood of \$2000 a year. Members of the commission themselves receive no compensation. It is likely that an appointment will be made soon so that the work of collecting the exhibit from this state may be begun at once.

There are 15 or 20 subordinate positions, carrying much less salary, however, to which the commission may also make appointments in connection with collecting and maintaining the exhibit.

The commission is composed of O. M. Clark and John P. Logan of Portland, C. L. Hawley of Polk county, R. A. Booth of Eugene and W. L. Thompson of Pendleton.

OPINION MAY CHANGE ASSESSMENT FIGURES

District Attorney Evans has handed down an opinion which will probably result in a change in the assessment of the Columbia Life & Trust company. The company was assessed last year on its capital stock and this Mr. Evans declares to have been done without statutory authority.

Mr. Evans said that the only authority given was to assess the actual properties of a corporation, including real estate, money in banks, accounts and securities. The opinion was asked by the county commissioners, to whom the insurance company had appealed for relief. The company is the only one organized in Oregon and was the only one on that account assessed on its capital stock.

"Capital stock and capital have distinct meanings," said Mr. Evans. "A company may have millions in capital stock but nothing in capital. It may organize with but \$10,000 capital stock and control millions of dollars in property. To tax on capital stock would be inequitable and unjust. There is nothing in the statutes on which to base such taxation."

STEEPLEJACK DEFIES DEATH IN MID AIR

R. E. Bofgart, who is shown in act of painting staff on top of Journal building.

When daring R. E. Bofgart, a steeplejack, last week climbed to the top of the 50 foot flag staff on The Journal building to gild the ball and paint the staff, hundreds of people passing along the street stopped to watch the bold workman and marvel at his grit, while others stopped to pass remarks about those who marveled, declaring it to be easy.

Bofgart, however, at the time he was at the top of the pole, was 240 feet above Broadway, which did not seem to bother him in the least. While at the top he posed for the moving picture camera, by waving his arms and swinging clear from the pole. The camera was first placed on top of The Journal building and then on Sixth and Yamhill streets.
