WEST CALLS FOR ALL OFFICERS IN NEW LIQUOR FIGHT

Shipments Go Constantly From Wet Territory to Dry Territory, Declares Governor in Proclamation.

SHERIFFS AND MARSHALS TOLD TO WATCH THEM

Seizure of Contraband Consignments Ordered With View to Confiscation.

(Salem Bureau of The Journal.)
 Salem, Or., July 21.—A warning to sheriffs, constables, marshals and other peace officers to see to the enforcement of the laws prohibiting the shipment of liquor from wet territory to dry territory, was given out today by Governor West in the form of a proclamation.

The governor says that many complaints of this character of law violation are coming to his office from communities along the Columbia river, and along the coast in Coos and Douglas counties, particularly where it is alleged liquor is being shipped by steamboat.

"This proclamation directs the sheriffs and other officers to enforce the laws," said the governor. "It is giving them due notice that something will happen if they don't enforce the laws." The proclamation cites the provisions of the federal law, known as the Kenyon-Sheppard-Webb bill, which prohibits the shipping of liquor in any manner from one state into another in violation of the laws of the latter state, and the provisions of the law regulating liquor shipments enacted by the last legislature. This law provides that each package of liquor shipped into any territory in which the sale of liquor is prohibited by law shall be plainly marked as to the kind of liquor and with the names of the consignor and consignee, and that all transportation companies shall keep a permanent public record of all such shipments.

The law imposes the duty upon peace officers to enforce the law and to seize all packages of liquor unlawfully shipped or not properly labeled. Continuing the proclamation says: "Whereas, it is being daily brought to the attention of this office that unlawful shipments of such liquor are being made, particularly by means of ocean and river steamers plying between points within this state and points within other states.

"Now, therefore, in view of the foregoing premises and by virtue of the authority in me vested, I, Oswald West, governor of the state of Oregon, do hereby direct all sheriffs, constables, marshals, policemen and deputies of such officers and all special officers or agents appointed by this office, to enforce the provisions of the said acts preventing the unlawful shipment of liquor into dry territory, and further direct them to seize all such unlawful shipments with a view of having them declared contraband and forfeited to the state of Oregon."

LONDON POLICE TAKE REAL MRS. PANKHURST AT LAST; MOB QUELLED

Outraged Detectives Capture Suffragette After Battling With Women; Arrest Six.

(United Press Leased Wire.)
 London, July 21.—Mrs. Emmeline Pankhurst, the militant suffragette leader, was rearrested under the "cat and mouse" act today while attempting to attend the weekly meeting of the Women's Social and Political Union. She will be taken back to Holloway jail.

RED FIRE WILL BE BURNED ON SUMMIT OF MT. HOOD TONIGHT

Mount Hood will be illuminated at 10 o'clock tonight by a party of men from the Portland Young Men's Christian Association, which will make the ascent today. If the atmosphere is clear the illumination will be plainly visible from Portland.

DOCK COMMISSION REJECTS ALL BIDS FOR CONSTRUCTION

Complications in Title to Martin Property Cause Delay to Start of Actual Work Upon Public Docks.

NEW PROPOSALS WILL BE OPENED ON JULY 31

Unit of 663 Feet Now, Other 344 Feet Later if Legal Tangle Straightened.

Complications that developed late last week which made it problematical whether or not the commission of public docks could secure title to the Martin site in connection with its plans for municipal dock No. 1, prevented the opening of bids for the actual construction of the dock this morning.

The dock commission accordingly rejected all bids offered, returned the certified checks accompanying them, and decided to advertise for an entirely new set of bids, which will be opened July 31.

The new bids will cover only 663 feet of the proposed dock, the frontage on the Martin estate to be constructed later if title can be secured. The commission, after passing an ordinance providing for alternative bids, one for the whole 1047 feet and the other for the 663 feet, excluding the Martin property and the ferry slip, was confronted with the lament of several bidders that they had certified checks for a large sum tied up, which would be drawing interest until the commission returned them. So the board reconsidered its proposition and decided to receive bids for the single unit only, as if no bids had been submitted.

Then was considered the North Pacific Steamship company's abandonment of the Martin dock while construction of the new dock was going on. Chris Bell, for the company, told the commission plainly that the bidders dock, which had suggested a large compromise under which the company might berth its ships until its lease on the Martin site should expire, was absolutely unsatisfactory to the company. He pointed out that unless it could have the exclusive use of the dock, that it was impracticable to use it at all, because of numerous conflicts in sailing dates of other steamship companies.

Policy of Commission.
 Suggesting that the commission build its first unit of 663 feet, the company could shift from the Martin dock while the second unit was being built, Chairman F. W.

Afreda Dalstrom, 20 years old, visiting at 172 Grand avenue, was overcome by heat yesterday at the letter carriers' picnic. She was taken to the Good Samaritan hospital. Her condition was serious through the night, but improved this morning. This is the only case the hospitals reported from heat trouble.

WESTERN PACIFIC WILL BUILD LINES NORTH

(United Press Leased Wire.)
 San Francisco, Cal., July 21.—According to tentative plans announced here today by General Passenger Traffic Manager C. L. Stone, the Western Pacific railroad within six months will have branch lines in Idaho and California connecting with the main line. Just what points the new branches will touch is not known yet, but it is believed a Boise-Winnemucca line is included in the plan.

BENEVOLENCE NOT AGGRANDIZEMENT OUR AIM—WILSON

President Outlines His Central American Policy, Saying Nation Must Prove It Does Not Contemplate Occupation.

TO SUBMIT ALL PLANS TO REPUBLICS FIRST

Wants Platt Amendment to Be Inserted in Nicaraguan Treaty as in Cuba's.

(United Press Leased Wire.)
 Washington, July 21.—Unqualified approval of Secretary of State Bryan's plan for the United States to extend a protecting wing over Nicaragua was voiced today by President Wilson. The president told the newspaper correspondents that while the powers might view the plan with suspicion, the United States "in the long run" must demonstrate that it does not contemplate occupation of Central America, but desires to assist in its progress.

The president said the first principle of the protectorate plan, now pending in the senate, contemplated obtaining an option to build a transoceanic canal. The general scheme, he said, constitutes a broader policy in all the republics of Central America. The president warned the correspondents that the Nicaraguan proposal does not mean a "general policy" in Central America. "The United States," he declared, wishes to adopt particular plans best suited to the countries dealt with, adding emphatically that all plans will be submitted first to the republics for approval. The president made it plain that the United States would not adopt any plan not thoroughly acceptable to the countries involved.

President Wilson also declared that he favored Secretary Bryan's proposal that the Platt amendment, under which the United States became the virtual protector of Cuba, be inserted in the Nicaraguan treaty. This amendment empowers the United States to occupy Cuba if conditions warrant such action. It was emphatically denied by the president that any "joker" exists in the Platt law.

It is stated here today that both Honduras and Salvador have rejected Bryan's plan for a protectorate. The senate foreign relations committee generally favors the secretary of state's scheme, indicating that it will have the approval of the senate.

Senator Borah of Idaho issued a statement this afternoon on the Bryan scheme, in which he stated that it meant the "going up of the American flag all the way to the Panama canal," and that it was imperialistic and contrary to the traditions of American democracy. He said: "This is the beginning of a policy"

OLDTIME WESTERN SPIRIT SHOWN BY TOWN OF SHERIDAN

Concrete Buildings Already Begun Where Friday Night's Fire Did \$300,000 Damage in Business Section.

NEW MAIN STREET TO BE 80 TO 90 FEET WIDE

Mercantile Houses for Most Part Are Doing Business Again Today.

(Special to The Journal.)
 Sheridan, Or., July 21.—A remarkable exhibition of indomitable spirit is on display today in Sheridan, where last Friday night damage of from \$300,000 to \$325,000 was done by a fire that cleaned the business section of the north side of the Yamhill river. This morning several concrete buildings are under way and nearly every one is doing business again. The new main street is to be between 80 and 90 feet wide; the old one was narrow and rather a drawback to the town. Everyone is pulling with his neighbor. Before the \$30,000 paving contract was let recently, there was a bitter division over this issue. The fire has brought the factions into one camp. The kind of paving and the contract price may still meet some disapproval, but the improvement is to proceed.

A concrete structure has been begun by the First National bank, S. L. Scroggin, president. It will house the bank, the postoffice and the King-Smith department store.

The Irie-Payne Hardware company is building where Sackett & Doughty had their department store. Sackett & Doughty will build on the old Commercial hotel site.

Fuchs Brothers will build on the corner.

(Continued on Page Two.)

MERCURY GOES TO 107 ON PENDLETON BULBS

(Special to The Journal.)
 Pendleton, Or., July 21.—Yesterday was the hottest day Pendleton has experienced for several years. The mercury reached 107 during the afternoon and one prostration was reported. Mrs. Charles Daniels, wife of a farmer, suffered a sunstroke, but is reported better today. The minimum last night was 74 and it was the most sultry night in the memory of residents. Today promises to be almost as hot but thunderstorms are expected tonight.

SCENIC HIGHWAY UP COLUMBIA TO BE BUILT AT ONCE

Funds Are Now Available for Immediate Start and Right of Way to Hood River Complete.

AGREEMENT REQUIRES COMPLETION IN 3 YEARS

Will Be the Only Water Grade Wagon Road Crossing the Cascade Mountains.

By an order of the county commissioners this morning, the long deferred work on the highway between Portland and Hood River along the Columbia river is to start at once. Funds for the extension are now available and through an agreement with the O. W. R. & N. Co. a section of the right of way is to be used. The new road will be known as the Columbia River highway. The agreement with the railway company provides that this road must be completed in three years. The road now extends two miles the other side of Bridal Veil Falls, but the work on it was stopped two years ago when the right of way of the railway company was encountered, making further progress impossible until some agreement was reached. It is probable that when the road is completed it will be turned over to the state as a part of the state highway system.

In order to make this extension possible, the railway company has offered to move its tracks in the Oneonta gorge, which will make a fill of 140 feet. This fill will be into the river, which is 75 feet deep and 60 feet below the railroad grade. This move is made so that it will not be necessary for the highway to cross the railroad track. At no point along the entire route to Hood River will there be a railroad crossing.

Railroad Aids.
 Unless the railroad company had agreed to make this move, the building of the highway would have been practically impossible, as otherwise a grade of 19 per cent would have to have been built at a prohibitive cost. As it is, a tunnel 110 feet long will have to be constructed which will cost \$3500.

The plan now is to build east from Bridal Veil at once, but while this road is in the course of construction it will be necessary to relocate the present grade from Chanticleer tavern to Latourelle so that the grade will not exceed 10 per cent at any point. This will be the steepest grade of the road all the way to Hood River.

From Latourelle to Bridal Veil a large section of the abandoned right of way of the O. W. R. & N. will be used. This right of way was abandoned when the railway company straightened its road. By this arrangement nearly six miles of road in Multnomah county that is

To Make Coast Big Naval Base Secretary Daniels Gives Plan Portland as a Strategic Point PART OF ATLANTIC FLEET TO REMAIN ON PACIFIC COAST

Josephus Daniels, secretary of navy.

ARANT, EJECTED FROM PARK BUILDINGS BY FORCE, STAYS ON JOB

Says He Will Take Possession Again at First Chance; Scott Will Probably Arrest Him.

(United Press Leased Wire.)
 Medford, Or., July 21.—United States Marshal Leslie M. Scott, after vainly endeavoring to persuade W. F. Arant, recently removed by Secretary Lane as superintendent of the Crater Lake National park, peaceably to surrender possession of the government headquarters, at 8 o'clock Sunday morning as the hour the buildings must be vacated, Arant hastened to Klamath Falls, returning with a lawyer and five men, and refused to vacate, threatening to hold the place by force, claiming that he was still superintendent and that he held the place under civil service.

Scott deputized a force of men working on the roads and Sunday morning ejected Arant from the buildings, moving out his personal effects. Arant threatened to take possession again at the first opportunity, refusing to leave the park.

An account of his age and service, Scott has been reluctant to place Arant under arrest, but will probably be forced to do so.

Marshal Had No Choice.
 A statement of the facts that brought about the forcible removal of W. F. Arant as superintendent of the Crater

BULGARIA BROUGHT TO TERMS, READY TO END THE WAR IMMEDIATELY

Turkey Demands Chance to Participate in New Peace Negotiations.

(United Press Leased Wire.)
 London, July 21.—Following a rumored reconciliation of Turkey and Bulgaria, the powers demanding that Turkey participate in the forthcoming peace negotiations on equal terms with the warring Balkan states.

The note protests against Bulgarian atrocities, charging the Bulgars with needless burning of the Black Sea villages and with putting their inhabitants to indiscriminate slaughter.

Despite the Turkish claims, the re-occupation of Adrianople by the hosts of Islam is still unconfirmed. The reports came from Rome, Sofia, Constantinople and elsewhere. They said the Bulgarian garrison of 2000 men did not resist the Turkish advance.

Dispatches received from Sofia this afternoon announced that the new Bulgarian cabinet, headed by M. Radoslawoff, had notified the powers that it stood ready to stop hostilities immediately if Serbia and Greece would agree to a similar course.

Open Peace Negotiations.
 (United Press Leased Wire.)
 Belgrade, July 21.—Bulgarian delegates this afternoon opened preliminary peace negotiations at Nish, Serbia. It is believed that an agreement for permanent peace is in sight.

Greeks Occupy Petzovo.
 (United Press Leased Wire.)
 Athens, July 21.—It was officially reported here today that Greek troops today occupied Petzovo, after routing the Bulgarian army. The losses on both sides are reported heavy.

Further rioting by men on leave from the Pacific reserve fleet and nearby forts was prevented Sunday by the activity of prevent guards from the fleet and 25 men from the Fourteenth regular infantry armed with rifles and under command of a captain.

The city under riot law Saturday will apparently become a political issue. The Seattle Times, which the mayor tried to suppress, has given notice that it will seek the recall of the mayor and offers \$1000 to aid in the obtaining of petitions. Prior to the declaration that he did right and point to

(Continued on Page Seven.)

SEATTLE'S BUSINESS MEN WANT TO FORGET RIOT OF FRIDAY NIGHT

"Let Bygones Be Bygones," They Say; Socialists Memorialize the President.

(United Press Leased Wire.)
 Seattle, Wash., July 21.—With the socialist and I. W. W. officials preparing to reopen their headquarters here, and enemies of the mayor urging that a recall be started against him for the failure of the police to suppress the riots and his action in placing the city under riot law Saturday, there is a feeling of unrest in some quarters today, but those at the head of the business interests of the city are demanding that everybody "forget it."

"It's past and gone and why talk about it?" is the general attitude of those not involved.

The socialists demand an investigation, and the mayor has issued a long statement defending his action. He says that had it been some big department store that was sacked, or a bank, there would not be so much talk about hushing it up, and that libraries and meeting places of the people must be protected as much as the property of the wealthy.

Admits That Police Held Off.
 In explaining the attitude of the police in holding off during the riots, the mayor says this was done at the order of the chief of police, who decided that it would be better to avoid bloodshed than prevent the destruction of property. The mayor upholds him in his decision.

Saloonkeepers who defied the mayor's closing order will be tried at the municipal court today.
