

OWNERS OF BUILDINGS PROFITING FROM VICE WILL BE PROSECUTED

Mayor Declares War on Persons Who Rent Houses to Immoral Women.

Strict enforcement of the "tin plate" ordinance will be required by Mayor Albee, who has already issued orders to Chief of Police Clark to see that the owners of all buildings used for immoral purposes are prosecuted. For the past month the members of the department have been making arrests of women and securing evidence against owners of buildings in which they live.

All owners of buildings in which immoral women are housed are to be arrested and prosecuted, according to an announcement made by Mayor Albee yesterday. Among those which are now being investigated by the police are a number of rooming houses, hotels and apartment houses in all sections of the city.

According to a report submitted yesterday by Chief Clark to the mayor, it is found that there are a number of owners of buildings who are not obeying the "tin plate" ordinance, which requires that all owners of buildings have signs placed in a conspicuous place near the door giving the name and address of the owner.

Mayor Tries New Plan.

This is the first drastic move made by Mayor Albee since taking office. He stated yesterday that he believed the only way to combat the social evil was not to fine or imprison the women, but to prosecute the owners of the buildings.

Plans are now being made for the building of an industrial home for all fallen women similar to the homes now established in the east.

In the report submitted by Chief Clark to Mayor Albee are the names of the owners of the buildings. The report follows:

"In compliance with your verbal request of even date, below you will find list of bawdy houses and saloons, continuing with location, charge and date of court since the first of July, 1913.
