NEW STATE PRINTER EXPLAINS POSITION

Harris Says There Has Been No Conflict Relative to Office.

R. A. Harris, recently appointed state printer by Governor West, is in Portland today. Mr. Harris has taken charge of his office and is busily engaged in working out a plan of procedure made necessary by the amendments to the law governing the state printer's office, which were passed by the last legislature.

ONE MORE SPEEDER IS SENTENCED TO SERVE TIME UPON ROCKPILE

Robert J. Snow Could Not Convince Judge Stevenson That Car Couldn't Go Fast.

Robert J. Snow, contractor and real estate promoter, was sentenced to five days on the rockpile this morning by Municipal Judge Stevenson for auto speeding. The prosecution was made by the public safety committee of the Automobile club. Witnesses for the prosecution testified that Snow was going from 30 to 40 miles an hour last Friday evening on East Seventeenth street, between Knott and Tillamook streets.

"I think this man was exceeding the speed limit," said the court. "He has been here before for speeding. It seems he did not profit by the experience of the first arrest. A man of his experience and standing has no excuse for such speed. It is the judgment of the court that he be imprisoned five days."

WHOLESALE SHOW GREAT INTEREST IN 'BUYERS' WEEK'

Large Number of Portland Firms Join Move to Entertain Country Merchants.

More than 100 representative Portland wholesale merchants are participating in the "Buyers' Week" in Portland, September 1-5. No previous plan has ever secured such a large number of interested and ready for concerted action, declare the members of the association's executive committee.

Twenty-five thousand invitations will go out this week to the merchants and buyers of Oregon, Washington and Idaho. Montana and northern California are expected to be represented in the throng of buyers who will make Portland their headquarters during the eventful week.

Nathan Strauss, president of the association, says the week will be one of liberal entertainment and cordial welcome. Mr. Strauss believes that more buyers will be in Portland to aid in celebrating Buyers' Week than ever before in the history of the city. Each of the firms becoming a member of the association becomes a contributor to the expense fund. The list as announced today is as follows:

GREAT NORTHERN HAS ITS LARGEST TRAFFIC

Vice President Kenny Says Increasing Business Compels Increased Equipment.

"The Great Northern railroad is enjoying a very large volume of traffic, larger than ever in its history," said Vice President W. P. Kenny this afternoon upon his arrival in Portland on a brief visit. Mr. Kenny is accompanied by Mrs. Kenny and Miss K. Fallon, and M. J. Costello, assistant traffic manager of the Great Northern, with headquarters at Seattle.

Vice President Kenny is in charge of the traffic department of the Great Northern and to become better acquainted with conditions will come to the Pacific northwest next month for a longer stay than business now permits. He will then make a tour of the state, through the Willamette valley and the central Oregon country.

EAST SIDE CARNIVAL WILL BE FINE SHOW

Many Attractions Have Been Engaged; Allegory to Be Main Feature.

Jack Blahop, the man who dived from the steel bridge for a meal ticket, last week will be one of the main attractions at the big carnival which will be given at next week at East Eighth and Hawthorne avenue, under the auspices of the East Side Business Men's club. The steel bridge dive was 73 feet, but Blahop has promised to dive from a 110 foot platform Tuesday night.

The principal feature of the big carnival will be given by the east side club is the legend of Father Neptune and his mermaid daughters. A specially built tank 25 feet in diameter will be used for this act. The actor is said to be highly sensational, as well as an interesting story. In addition to the above attractions there will be a water circus, motordrome, wild west show, minstrels, flea circus and many other small attractions.

The city commissioners last week granted the east side club a special permit for the carnival. The proceeds will be used by the club in furthering their many movements relative to the growth and improvement of the east side district. If the coming carnival proves a success the members have announced that an east side carnival will become an annual institution of the club.

FATHER-IN-LAW'S SHOT HAS KILLED ANDERSON

(Special to The Journal.) Baker, Or., Aug. 13.—William Anderson, shot by Frank E. Alexander, Halfway Sunday night, died last night, a few hours after his slayer was landed in the county jail. Anderson is 64 years old and Alexander 74. The latter is still in jail, requiring constant attention since being incarcerated last evening. He is a pathetic figure, filled with remorse and mental anguish at the contemplation of ending his days in the penitentiary or dying on the scaffold. The dead man was his son-in-law.

AMBASSADOR WILSON IS FACING DISMISSAL FOR INDISCREET TALK

Retiring Diplomat Criticizes Great Britain and May Quit Sooner Than He Expected.

(United Press Leased Wire.) Washington, Aug. 14.—Ambassador to Mexico Henry Lane Wilson, who stands in imminent peril of immediate dismissal by President Wilson for his issuance of a statement replying to the British foreign office's declaration that Great Britain recognized Huerta, provisionally, only after Wilson had publicly reiterated his criticisms. Wilson today admitted having given Senator Smith inside information of the Mexico City situation.

"I feel justified," said the ambassador, "in stating what I did in answer to what purported to be an official statement by the British foreign office reflecting on my course in Mexico. I have not attempted to embarrass the Wilson administration and have studiously avoided making statements which might endanger the success of the present negotiations. I am still of the opinion that the statement of the British foreign office was misinterpreted by the newspapers which printed it."

Wilson said that neither Secretary Bryan nor President Wilson had asked for his immediate resignation. It is reported, however, that President Wilson is a very angry man because the ambassador has again injected himself into a situation from which he was tacitly dismissed. Officials here expect that John Lind, the president's envoy, soon will take decisive action in Mexico City. His task, it is believed, will be easier through Great Britain's announcement that she has recognized Huerta only in his capacity as provisional president.

Women Taken at Rancho. San Diego, Cal., Aug. 14.—A letter received here today gives details of a sensational fight between Mexican federalists and rebels on the Mesquite flats and rebels on the Mesquite flats. A band of rebels prowling through the section stopped a small river boat and forced its officers and passengers to land. The two officers in charge favored shooting all the party, but the rebels refused them. After a short dispute one of the rebels, according to the letter, stepped from the ranks and shot both officers, killing them instantly.

SENATOR LAMENTS 'WILSON'S WEAKNESS'

Los Angeles, Aug. 14.—Fearful of the success of attempts to restore peace in Mexico, except through American intervention, United States Senator John D. Works of California is on record today with a declaration that the Monroe doctrine must be maintained. The senator is in Los Angeles for the express purpose of studying the Mexican situation from a closer viewpoint than provided at Washington. Works asserted that intervention, if it may be avoided without dishonor, should be the last resort. He qualified this statement, however, by saying that the United States should not be restored foreign government will demand their citizens in Mexico or waive the Monroe doctrine, and that "to be kicked into intervention by foreign governments would be most humiliating."

The senator expressed the opinion that the Wilson administration has "continued the lamentable weak attitude of the Taft administration toward Mexico." He specifically condemned what he terms the "most important" of the administration's requests for the release of American prisoners in Mexico, a policy which, he declared, "has made our government appear cowardly and pusillanimous in all foreign government newsprints, and is responsible for Huerta's present defiant attitude."

Works is in favor, if intervention is not ordered, of permitting the Mexican constitutionalists to import arms from this country to fight out their differences with the Huerta troops. Libby, McNeill & Libby. Astoria, Or., Aug. 14.—That Libby, McNeill & Libby, the Chicago packers, are negotiating for the purchase of one of the largest salmon canneries in the lower Columbia district, was the reliable information received here yesterday. It is also rumored that the terms have been practically agreed upon and that the final papers will be signed within the next few days. Libby, McNeill & Libby are the same men who last spring took over the interests of the Alaska Fishermen's Packing company.

CANTON IS PILLAGED; FOREIGNERS IN DANGER

(United Press Leased Wire.) Canton, China, Aug. 14.—Pillage is in progress everywhere here today following fighting in Canton City yesterday, when 1200 persons were killed. At least half of the government troops have joined the rebel forces and, acting together, they have looted practically all the goldsmiths and silversmiths' stores in the city. Local officials are powerless. All traffic on the Hankow railroad has been abandoned and an attack on the foreign concessions at Shamen is now believed to be contemplated by the rebels. Fire broke out in the troops' quarters today and 30 barracks were destroyed.

SICKNESS AND DROUGHT IN TRAIL OF LONG DROUGHT THROUGH SOUTHWEST

Water Supply Exhausted and Dried Leaves Blow From the Corn Stalks.

Kansas City, Mo., Aug. 14.—As a result of the seventh consecutive day of extreme heat in Missouri, reports reached here today of exhausted water supply, of crops burned up and of illness caused by the heat and contaminated water. The same conditions prevailed in Kansas and Oklahoma. The situation at Wichita is reported precarious. No rain has fallen there since April 7, and many corn fields in the vicinity have been so badly scorched that the dried leaves have blown from the stalks and the corn now scarcely produce even passable fodder. The same condition prevails about Hutchinson, Kan., but livestock and crops have suffered but little because of a sand strata underflow of water. Alfalfa fields, orchards and market gardens are being irrigated from this underflow.

Dunne, administrator of the estate. Mr. Dunne, administrator of the estate, in a citation ordering him to produce a will. The citation followed a petition of the D. P. Thompson Estate company, E. A. Baldwin and Josephine Hirsch, creditors of the estate.
