New Fall Models Gossard Corsets

Now on Display—Second Floor

Of course your new corset is to be a Gossard and you'll be a bit anxious to see the newest models in this celebrated line. Especially noticeable from a style standpoint is the new low roomy bust model with snug hip lines-relieved in most cases by inset gores of elastic webbing. This gives greater comfort while sitting and makes the gown fit with perfect smoothness while standing. Late models show still greater tendency to straight, comfortable lines. Just now when you are planning the new Fall gowns it's well worth your while to study the corset question from a "Gossard" point of view. We carry these splendid corsets in complete line of models for every figure. The accompanying model is one well suited to the average figure and a very popular number. Sizes 19 to 40. Gossard Corsets, \$3.50, \$5, \$6.50 to \$15.00
